Baudrillard (RLE Social Theory) Mike Gane, 2014-08-21 Baudrillard is widely recognised as a powerful new force in cultural and social criticism and is often referred to as the High Priest of Postmodernism This study presents a detached assessment of his social thought and his reputation challenging the way his work has been received in postmodernism and proposing a new reading of his contribution to social theory Using many sources currently available only in French Mike Gane provides the keys to understanding Baudrillard's project and reveals the extent and scope of Baudrillard's challenge to modern social theory and cultural criticism He looks at the sources of Baudrillard's ideas analysing how Baudrillard has turned these sources against themselves He describes Baudrillard's dramatic encounter with critical Marxist theory and psychoanalysis showing how Baudrillard's post Marxist writings define through the exploration of fatal theory a new episode in cultural history a period of cultural implosion This balanced account of Baudrillard's social theory emphasises the originality of his work and argues that his significance can only be understood by grasping the paradoxes of his project Baudrillard's work is poetic yet at the same time critical and fatal

The Structure of Social Theory Anthony King, 2012 Over the last three decades social theory has become an increasingly important subdiscipline within sociology Social theory has attempted to elucidate the philosophical basis of sociology by defining the nature of social reality According to social theory society consists of objective institutions structure on the one hand and individuals agency on the other it promotes human social relations insisting that in every instance social reality

Turner, 2006-05-17 Sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn't usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The Cultural Turn in Sociological Theorizing Section III Theorizing Interaction Processes Section IV Theorizing from the Systemic and Macrolevel Section V New Directions in Evolutionary Theorizing Section VI Theorizing on Power Conflict and Change Section VII Theorizing from Assumptions of Rationality This handbook will be of interest to those wanting a broad spectrum and overview of late 20th early 21st century sociological theory **Sociological Theory** Abhijit Kundu, 2011 Sociological Theory is an attempt to trace the development of sociological theory from the classical to the modern period A comprehensive and balanced introduction it studies all the important thinkers chronologically so that the students can locate the continuity as well as the discontinuity of thoughts and themes A concise formative background of every thinker is outlined in the text to entice the reader to take a deeper plunge into the theories The introductory chapter tries to sketch the broad outlines of the classical sociological theories whereas the concluding chapter examines the thematic shifts and the inter linkage between all the
