Social Workers And Their Practice In Welfare Bureaucracies:

Social Workers and Their Practice in Welfare Bureaucracies David Howe, 1986 The McDonaldization of Social Work Donna Dustin, 2016-02-17 Based upon George Ritzer's McDonaldization of Society thesis and incorporating aspects of social theory this book examines the introduction of care management to social work practice Donna Dustin analyzes care management as an example of the managerial application of efficiency calculability predictability and control to social work practice These principles put to good use in organizations that produce tangible outputs at a profit are being increasingly applied in non profit public sector organizations where the outcomes require intangibles such as professional relationships The author examines whether the McDonaldization process heightens dilemmas such as cost versus rights for professionals working in the social services Using social theory to frame her research with care managers and their managers in the UK the author examines the day to day implications of care management for social work practice and questions whether the construction of service users as customers contributes to empowering practice The book's in depth analysis of the policy background implementation and practice of care management will resonate with social workers in other national contexts such as the US where the care management model has been introduced Managing State Social Work John Harris, 2018-12-20 Published in 1998 The industrial model of the labour process developed by Braverman was applied to social work in the radical social work literature The book engages in a more critical examination of the application of the labour process perspective to social work with particular reference to front line management in a local authority context It begins with a review of the labour process literature which demonstrates the extent to which the independence of Braverman's model on scientific management was undermined in the post Braverman debate The radical texts orthodox Bravermanian approach to the social work labour process is considered In those texts the social work labour process is represented as having moved towards an industrial model which steadily encroached on the autonomy of front line field social workers through managers wresting of control over their work The book advances an alternative model of the social work labour process which takes account of the distinctive features of social work as a state mediated bureau professional labour process Findings from a small scale case study of a social services department are presented Data from the study are used to test the bureau professional model of the social work labour process against the orthodox Bravermanian model Developments in the social services department's organizational structure are set out and the position of front line managers is considered through an exploration of their identifications and commitments in relation to management and trade unionism The data from their accounts support the bureau professional model of the labour process and the position of front line managers emerges as more ambiguous than the radical social work literature indicated Front line managers did not share global goals with senior management nor were their interests merged straightforwardly with those of social workers Social Work Jan Fook, 2012-04-05 Social work is a human profession founded on social justice It is difficult however to negotiate this in the

constantly changing context of the twenty first century Now in its Second Edition this book considers the critical tradition of social work and updates it with postmodern thinking Jan Fook draws on critical reflection to help social workers deliver flexible responsible and responsive practice and to celebrate the ageless ideals of the profession Jan Fook draws on her own experiences to relate theoretical ideas to real life Summaries exercises and further reading are also included in each chapter

An Introduction to Social Work Theory David Howe, 2017-03-02 Social workers need to recognize the critical role that theory plays both in the way they make sense of what is going on and in the way they order their work Such recognition clarifies practice for both the worker and the client David Howe's classic text provides a framework to help social workers develop an understanding of the theories which inescapably underpin their thoughts and actions This edition contains a new preface by the author written in 2008 in which he examines the continuing value of his framework concluding that it remains an effective tool for making sense of the profession's most current ideas The book covers a range of theoretical approaches demonstrating through examples that different theories necessarily lead to very different practices It offers a stimulating guide to social work theory which is proven to help social workers both to understand their practices and to practise in a disciplined and imaginative way

Bureaucracies Majka Ryan,2023-08-08 Through case study research Majka Ryan offers a systematic microanalysis of discretion in a specific context of residence based welfare conditionality derived from the labour movement directive 2004 38 EC The latter is utilised in the coordination of social security benefits for mobile EU citizens across Europe Ryan reveals that in Ireland and other jurisdictions official rights be they supranational or local when translated into practice are shaped by

different political organisational and decision making actors consequently leading to an uneven distribution of substantive rights and unequal outcomes for different groups of people disproportionately affecting those who must prove their deservingness This book evidences how residence based welfare conditions create a context where power is exercised freely by street level decision makers and illustrates how that power affects different groups in society and consequently how through those practices the hegemonic discourses around legitimacy of access to public resources are reproduced
