Socialist History Journal 23 Migrants And Minorities:

Voices of Challenge in Australia's Migrant and Minority Press Catherine Dewhirst, Richard Scully, 2021-12-03 This book brings together long obscured histories to discuss Australia's cultural social and political diversity in depth. The history of Australia's migrant and minority print media reveals extensive evidence for the nation's global connectedness from the colonial era to today. A fascinating and complex picture of Australia's long-term transnational ties emerges from the smaller enterprises of individuals and communities in the distant and more recent past. This book explores the authentic voices of minority groups which challenged the dominant experiences, patterns and debates that have shaped Australia. **The**

Transnational Voices of Australia's Migrant and Minority Press Catherine Dewhirst, Richard Scully, 2020-11-13 This edited collection invites the reader to enter the diverse worlds of Australia's migrant and minority communities through the latest research on the contemporary printed press spanning the mid-nineteenth century to our current day. With a focus on the rare radical and foreign language print culture of multiple and frequently concurrent minority groups, newspaper ventures, this volume has two overarching aims: firstly to demonstrate how the local experiences and narratives of such communities are always forged and negotiated within a context of globalising forces, the global within the local; and secondly to enrich an understanding of the complexity of Australian voices through this medium, not only as a means for appreciating how the cultural heritage of such communities were sustained but also for exploring their contributions to the wider society.

The Fertility of Migrants and Minorities in Europe Bianca Brünig, 2023-10-19 This book analyses the relationship between assimilation and fertility intentions for migrants and minorities in Europe. Building upon assimilation theory, it is argued that both migrants and minorities assimilate in the process of intercultural encounters. Given that fertility is part of the cultural dimension of assimilation, it is likely to be influenced by assimilation. Therefore, theories on assimilation and fertility are merged theoretically as well as empirically. Using data from the Generations and Gender Survey, the empirical section builds upon a comparison of Turkish migrants in Germany and the Turkish minority in Bulgaria. Building upon cluster analyses, six clusters within Germany as well as five clusters in Bulgaria are developed to account for heterogeneity of groups. Comparing these clusters in terms of assimilation and fertility intentions, it becomes clear that the Turkish minority does not differ in their fertility intentions from the majority. For Germany, Turkish migrants differ from German natives regarding their fertility intentions, but differences are explained by assimilation, especially structural characteristics. When comparing migrant and minority differences in fertility, they exist and are accounted for by cultural dissimilarity. **Migration, Post-Socialism, and**

Revolutionary Refugees Christine Lattek, 2006 Filling an important gap in our understanding of the growth of early German socialism, this book is the first to combine the two crucial aspects of the study

socialist political theory and social and cultural environments An essential student read Colonial, Refugee and Allied Civilians after the First World War Jacqueline Jenkinson,2020-04-02 Following the First World War and in actions that challenged Britain's reputation as a liberal democracy various government departments implemented policies of mass repatriation from Britain of populations of colonial and friendly migrants and refugees Many of those repatriated had played a significant part in the war effort and had given valuable service in the combat zones and on the home front serving in the armed forces in labour battalions and employed in key wartime industries such as munitions work the merchant navy and wartime construction This book sets out to uncover why central government decided to implement a policy of repatriation of friendly peoples after the war It also explores the imposition of wartime and post war legal restrictions on these groups as part of a major shift in policy towards reducing the settlement and limiting the employment of overseas populations in Britain

The Unsettling of Europe Peter Gatrell,2019-08-27 An acclaimed historian examines postwar migration's fundamental role in shaping modern Europe Migration is perhaps the most pressing issue of our time and it has completely decentered European politics in recent years But as we consider the current refugee crisis acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move The end of World War II left Europe in a state of confusion with many Europeans virtually stateless Later as former colonial states gained national independence colonists and their supporters migrated to often unwelcoming metropolises The collapse of communism in 1989 marked another fundamental turning point Gatrell places migration at the center of post war European history and the aspirations of migrants themselves at the center of the story of migration This is an urgent history that will reshape our understanding of modern Europe

British Communism and the Politics of Race Evan Smith,2017-10-02 British Communism and the Politics of Race explores the role that the Communist Party of Great Britain played within the anti racism movement in Britain from the 1940s to the 1980s As one of the first organisations to undertake serious anti colonial and anti racist activism within the British labour movement the CPGB was a pioneering force that campaigned against racial discrimination popular imperialism and fascist violence in British society The book examines the balancing act that the Communist Party negotiated in its anti racist work between making appeals to the labour movement to get involved in the fight against racism and working with Britain's ethnic minority communities who often felt let down by the trade unions and the Labour Party Transitioning from a class based outlook to an embrace of the new social movements of the 1960s 70s the CPGB played an important role in the anti racist struggle but by the 1980s it was eclipsed by more radical and diverse activist organisations

Narratives and Practices of Migrant and Minority Incorporation in European Societies Zenia Hellgren,Alexander Gamst Page,Thomas Sealy,2025-02-20 This book explores the disjuncture that emerges at various levels in European diversity management policies and their translation into practice It shows that state wide strategies can only guide diversification outcomes not wholly control them and in practice national level integration policies rely on multi level involvement including

authorities at regional or local levels and civil society organisations The book demonstrates a complex and varied picture of the ways in which different European countries engage with ethnic diversity as well as to the internal consistency of the philosophical underpinnings of this engagement As such it draws attention not just to ways in which diversity is done but illuminates processes and narratives which are messy contested and contradictory This book is of key interest to scholars students and practitioners involved in integration ethnic and cultural diversity studies migration and immigration citizenship ethnicity and more broadly to European studies and the wider social sciences

The Discourse of Repatriation in Britain, 1845-2016 Daniel Renshaw, 2021-03-04 Examining responses to migration and settlement in Britain from the Irish Famine up to Brexit The Discourse of Repatriation looks at how concepts of removal evolved in this period and the varied protagonists who have articulated these ideas in different contexts Analysing the relationship between discourse and action Renshaw explores how ideas and language originating on the peripheries of debate on migration and belonging can permeate the mainstream and transform both discussion and policy The book sheds light both on how the migrant other has been viewed in Britain historically and contemporaneously and more broadly how the relationship between state press and populace has developed from the early Victorian period onwards It identifies key junctures where the concept of the removal of othered groups has crossed over from the rhetorical to the actual and considers why this was the case Based on extensive original archival research the book reassesses modern British history through the lens of the most polarised attitudes to immigration and demographic change This book will be of use to readers with an interest in migration diaspora the development of populism and political extremes and more broadly the history of modern Britain

Struggles for a past Kevin Myers, 2024-06-04 This book examines the construction of ethnic communities and of multicultural policy in post war England It explores how Irish and Afro Caribbean immigrants responded to their representation as alien races by turning to history In cultural and educational projects immigrants imagined researched wrote and pictured their pasts They did so because they sought in the past dignity a common humanity and an explanation of the hostility that had greeted them in England But the meaning of the past is never fixed Encouraged and conditioned by the burgeoning field of race relations these histories were interpreted as expressions of difference They asserted it was claimed specific ethnic needs and identities They were the nation's other histories Drawing on a wide range of sources and covering many different debates the book seeks to recover the inclusive historical imagination of radical scholars and activists who saw in the past the resources for a better future

The Labour Party, Nationalism and Internationalism, 1939-1951 R. M. Douglas, 2004-03-01 The Second World War was a watershed moment in foreign policy for the Labour Party in Britain This book traces how the British democratic left set about the task of defining the principles of a radically new international system for the post war world The author shows how the experience of total war fundamentally reshaped the left's attitudes toward national identity and international policy Breaking with the traditional accounts that place Cold War tensions at the centre of the Attlee government's activities in the immediate postwar years R M Douglas's book provides an entirely new framework for reassessing British foreign policy and

left wing concepts of national identity during the most turbulent moment of Britain's modern history Current Index to Journals in Education ,1998-10 **Between National Socialism and Soviet Communism** Anna Holian,2011-08-30

Though its primary focus is on the immediate postwar period, *Between National Socialism and Soviet Communism* will surely illuminate the contemporary crisis around citizenship and definitions of Germanness in the context of European Union and globalization. Geoff Eley, University of Michigan. In May of 1945 there were more than eight million displaced persons or DPs in Germany: recently liberated foreign workers, concentration camp prisoners, and prisoners of war from all of Nazi-occupied Europe, as well as eastern Europeans who had fled west before the advancing Red Army. Although most of them quickly returned home, it soon became clear that large numbers of eastern European DPs could or would not do so. In the aftermath of National Socialism, Germany thus ironically became a temporary home for a large population of foreigners. Focusing on Bavaria in the heart of the American occupation zone, *Between National Socialism and Soviet Communism* examines the cultural and political worlds that four groups of displaced persons—Polish, Ukrainian, Russian, and Jewish—created in Germany during the late 1940s and early 1950s. The volume investigates the development of refugee communities and how divergent interpretations of National Socialism and Soviet Communism defined these displaced groups. Combining German and eastern European history, Anna Holian draws on a rich array of sources in cultural and political history and engages the broader literature on displacement in the fields of anthropology, sociology, political theory, and cultural studies. Her book will interest students and scholars of German, eastern European, and Jewish history, migration, and refugees, and human rights.

Multicultural Challenges and Redefining Identity in East Asia Nam-Kook Kim, 2016-04-15. Globalization and increased migration have brought both new opportunities and new tensions to traditional East Asian societies. *Multicultural Challenges and Redefining Identity in East Asia* draws together a wide range of distinguished local scholars to discuss multiculturalism and the changing nature of social identity in East Asia. Regional specialists review specific events and situations in China, Korea, Japan, Thailand, Vietnam, Singapore, Taiwan, Malaysia, Indonesia, and the Philippines to provide a focus on life as it is lived at the local level, whilst also tracing macro discourses on the national issues affected by multiculturalism and identity. The contributors look at the uneven multicultural development across these different countries and how to bridge the gap between locality and universality. They examine how ethnic majorities and minorities can achieve individual rights, exert civic responsibility, and explain how to construct a deliberative framework to make sustainable democracy possible. This book considers the emergence of a new cross-national network designed to address multicultural challenges and imagines an East Asian community with shared values of individual dignity and multicultural diversity. With strong empirical support, it puts forward a regulative ideal by which a new paradigm for multicultural coexistence and regional cooperation can be realized.
