Craig Nation, 1989-10-12 The outbreak of World War I precipitated a schism in the international socialist movement that endures today Heeding calls for rational defense the leading European socialist democratic parties abandoned their vision of peace and internationalism as an integral part of the struggle for social justice and set aside their view of interstate war as the clearest example of the irrational essence of competitive capitalism Only the Zimmerwald Left led by Lenin continued to speak out for internationalism R Craig Nation utilizes sources in Dutch French German Italian Russian and Swedish to provide the first comprehensive history of the Zimmerwald Left as an international political tendency

Discovering Imperialism, 2011-11-25 The theory of imperialism is usually associated with some of the big names in the history of European Marxism such as Lenin Rosa Luxemburg Rudolf Hilferding and Nikolai Bukharin alongside whom the English Progressive John Hobson is usually mentioned However little is known about the development of Marxist theory on this subject besides the books of these figures This volume assembles for the first time the main documents of the

A Political History of the International Union of Socialist Youth 1907-1917

Patrizia Dogliani, 2023-04-08. This book represents a valuable contribution to the history of the Socialist Second International and more generally of European socialism between the Great Depression of the 1880s and WWI. It comes to fill a gap in the scholarship insofar as it investigates the history of the Socialist Youth International. During the first phase of the making of socialist parties, this organization was in charge of the political and cultural education of the proletarian youth. Capitalizing on an approach based on social quantitative and political history and on an analysis of mentalities and languages, the book reconstructs the many-sidedness of the school of recruits of the social democratic and revolutionary movements. The working conditions of youth in Europe, its unionization and economic struggles, the fight against militarism, the pedagogical work, the internationalism and the commitment to maintain peace, and the attitude of young militants towards Bolshevik revolution are some of the themes investigated in the book. It also clarifies the role and the engagement with the issue of the new generation shown by prominent figures of Marxism such as Karl Liebknecht, Jean Jaurès, Henri De Man, Willi Münzenberg, Henriette Roland Holst, and Robert Danneberg. Finally, the book constitutes also a page of European social and political history reconstructed through the history of the various youth socialisms and their relationship with the Marxist tradition.

Imperialism: The Highest Stage of Capitalism

Vladimir Lenin, 2010-08-26

Vladimir Lenin created this hugely significant Marxist text to explain fully the inevitable flaws and destructive power of Capitalism that it would lead unavoidably to imperialism, monopolies, and colonialism. He prophesied that those third world countries used merely as capitalist labour would have no choice but to join the Communist revolution in Russia. GREAT IDEAS. Throughout history, some books have changed the world. They have transformed the way we see ourselves and each other. They have inspired, debated, dissented, warred, and revolutionized. They have enlightened, outraged, provoked, and comforted. They have enriched lives and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals, and visionaries whose ideas shook civilization and helped make us who we are.
