**Gramsci, Political Economy, and International Relations Theory** A. Ayers, 2008-11-10 This book seeks to provide the most comprehensive and sustained engagement and critique of neo Gramscian analyses available in the literature In examining neo Gramscian analyses in IR IPE the book engages with two fundamental concerns in international relations i The question of historicity and ii The analysis of radical transformation The Radical Critique of Liberalism Toula Nicolacopoulos, 2008 Working through the theories of prominent liberal theorists John Rawls Jeremy Waldron Charles Larmore and Will Kymlicka the author demonstrates that an adequate appreciation of the deep structural flaws of liberal theory presupposes the application of critical reconstructionism Encyclopedia of the Age of Imperialism, 1800-1914 Carl C. Hodge, 2007-11-30 In 1800 Europeans governed about one third of the world's land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism

**Liberalism and the Philosophy of Economics** Tsutomu Hashimoto, 2022-09-15 Drawing on recent work in the contemporary philosophy of economics this book presents new ideas on liberalism including the concept of growth oriented liberalism Since the end of the Cold War questions and definitions of liberalism have moved from the sphere of political systems the socialism versus liberalism debates to the sphere of ethics what it means to live in a liberal society The chapters in this work trace the trajectory of the concept of liberalism in the philosophy of economics by exploring the ideological implications of the methodological debate between socialism and liberalism the idea of liberty as real freedom the ethical implications of Max Weber's methodology on autonomy and liberty and new typological theories of ideologies in the context of contemporary economic ethics This book marks a significant contribution to the literature on liberalism in the philosophy of economics and economic methodology and is highly recommended for readers who seek updated ideas on liberal society in its ethical and philosophical contexts *Critical Strategies for Social Research* William K. Carroll, 2004 Edited by Canadian sociologist William K Carroll this thought provoking volume is designed for research methods courses in sociology and social sciences *Critical Strategies for Social Research* explores ways in which several key research strategies bring an emancipatory dimension to social analysis The new approaches recognize that social analysis is a form of knowledge production that takes place in a human constructed world marked by injustice and persistent inequality Carroll considers five influential and productive strategies of inquiry Dialectical Social Analysis Institutional Ethnography Participatory Action Research Critical Discourse Analysis Social Inquiry as Communicative Reason **Critical Realism** Justin

Cruickshank,2003-09-02 This reader is designed to make accessible in one volume to lay person and academic student and teacher alike key readings to stimulate debate about and within critical realism      **Explaining Global Poverty** Branwen

Gruffydd Jones,2007-01-24 Gruffydd Jones approach brings a book of real relevance for inequality in the modern world and gives an important platform from which to move forwards in the fight against poverty      **Philosophy of the Social**

**Sciences** Patrick Baert,2016-01-08 In this ground breaking new text Patrick Baert analyses the central perspectives in the philosophy of social science critically investigating the work of Durkheim Weber Popper critical realism critical theory and Rorty s neo pragmatism Places key writers in their social and political contexts helping to make their ideas meaningful to students Shows how these authors views have practical uses in empirical research Lively approach that makes complex ideas understandable to upper level students as well as having scholarly appeal      Dictionary of Critical Realism Mervyn

Hartwig,2015-01-30 Dictionary of Critical Realism fulfils a vital gap in the literature Critical Realism is often criticised for being too opaque and deploying too much jargon thereby making the concepts inaccessible for a wider audience However as Hartwig puts it Just as the tools of the various skilled trades need to be precision engineered for specific interrelated functions so meta theory requires concepts honed for specific interrelated tasks it is impossible to think creatively at that level without them This Dictionary seeks to redress this problem to throw open the important contribution of Critical Realism to a wider audience for the first time by thoroughly explaining all the key concepts and key developments It includes 500 entries on these themes and has contributions from major players in field However this text does not stop there it goes further than simply elucidating the concepts and includes a number of essays which use the notions in important areas thereby demonstrating the appropriate use of the concepts in action to encourage their wider use This book will become a requisite reference tool for Critical Realist scholars and Philosophers and Social scientists alike will enjoy this vital introduction and explanatory text of the indispensable ideas contained within the dynamic and vibrant school of Critical Realism      *Structure, Agency and Theory* Ib Gram-Jensen,2021-04-20

Structure Agency and Theory challenges common readings of Marx and Engels historical materialism and argues the necessity of abandoning their conception of the dialectic of forces and relations of production as the motive power of historical development and transformations because of its doubtful validity and deterministic implications Instead another fundamental conception in historical materialism the interaction between social circumstances and agency as the motive power of history is accentuated with an emphasis on agents experiences as a causal factor arguing its potential in terms of historical explanation and attempting to spell out some of its strategic implications for revolutionary socialism      Socialist Reasoning Andrew Collier,1990      **Reconstructing**

**Sociology** Douglas V. Porpora,2015-08-31 Critical realism is a philosophy of science that positions itself against the major alternative philosophies underlying contemporary sociology This book offers a general critique of sociology particularly sociology in the United States from a critical realist perspective It also acts as an introduction to critical realism for students

and scholars of sociology Written in a lively accessible style Douglas V Porpora argues that sociology currently operates with deficient accounts of truth culture structure agency and causality that are all better served by a critical realist perspective This approach argues against the alternative sociological perspectives in particular the dominant positivism which privileges statistical techniques and experimental design over ethnographic and historical approaches However the book also compares critical realism favourably with a range of other approaches including poststructuralism pragmatism interpretivism practice theory and relational sociology Numerous sociological examples are included and each chapter addresses well known and current work in sociology

**Landscapes of the Soul** Douglas V. Porpora, 2003-10-09 Do you believe in God Nine out of ten Americans unhesitatingly answer yes But for Douglas Porpora the real questions begin where pollsters leave off What he asks does religious belief actually mean in our lives Does it shape our identities and our actions Or despite our professions of faith are we morally adrift *Landscapes of the Soul* paints a disturbing picture of American spiritual life In his search for answers to his questions Porpora interviewed clerks and executives Jews evangelical Christians Buddhists Taoists and even followers of Bhagwan Sri Rajneesh He asked them about God and about what they saw as their own place in the universe What he found was a widespread inability to articulate any grand meaning of life We lack heroes to inspire us We lack a sense of calling of transcendent purpose in our existence Many of us seem incapable of caring deeply about the suffering of others Our society is permeated with moral indifference Yes we are a believing people but God is often a distant abstraction and rarely an emotional presence in our lives Only such an emotional connection Porpora argues can be the basis of a genuine moral vision Our emotional estrangement from God and the sacred keeps us from caring about social justice keeps us from wanting to change the world keeps us enclosed in our own private worlds *Landscapes of the Soul* is a passionate call to broaden our spiritual and moral horizons to raise our eyes to the greater reality that unites us all

Experience and Historical Materialism Ib Gram-Jensen, 2020-05-19 *Experience and Historical Materialism* Five Argumentative Essays The central essay in this volume sketches a revised version of historical materialism with agents experiences of and responses to their social circumstances as the motive power of historical development and transformations The other four essays are critiques of Althusserian structural Marxism various misreadings of Marx and Engels Laclau Mouffe discourse analysis as put forward in their *Hegemony and Socialist Strategy* and Keith Jenkins postmodernist *Re thinking History*

*Concepts of Cabralism* Reiland Rabaka, 2014-07-16 By examining Amilcar Cabral's theories and praxes as well as several of the antecedents and major influences on the evolution of his radical politics and critical social theory *Concepts of Cabralism* Amilcar Cabral and *Africana* Critical Theory simultaneously reintroduces chronicles and analyzes several of the core characteristics of the *Africana* tradition of critical theory Reiland Rabaka's primary preoccupation is with Cabral's theoretical and political legacies that is to say with the ways in which he constructed deconstructed and reconstructed theory and the aims objectives and concrete outcomes of his theoretical applications and discursive practices The book begins with the Negritude Movement

and specifically the work of Leopold Senghor Aimé Césaire and Jean Paul Sartre Next it shifts the focus to Frantz Fanon's discourse on radical disalienation and revolutionary decolonization Finally it offers an extended engagement of Cabral's critical theory and contributions to the African tradition of critical theory Ultimately Concepts of Cabralism chronicles and critiques revisits and revises the black radical tradition with an eye toward the ways in which classical black radicalism informs or should inform not only contemporary black radicalism African nationalism and Pan Africanism but also contemporary efforts to create a new anti racist anti sexist anti capitalist anti colonialist and anti imperialist critical theory of contemporary society what has come to be called African critical theory      **Radical Philosophy** ,1991      *A Comparative Analysis of the Contemporary Marxists' Theories in the Post-Cold War Era* Woojin Moon,1994      *Nation-States* Neil Davidson,2016-05-10 Davidson argues that a Marxist understanding of the meaning of contemporary nation states must begin from the inseparable connections between them      *The Socialist Register* Ralph Miliband,1997      *Om man älskar frihet : tankar kring det politiska* Nina Björk,2020-09-07 Nina Björk har i olika sammanhang skrivit utmanande om politik i tjugofem år Inte sällan har hennes sikter väckt starka reaktioner över tiden Det är det att se att argumentationen har haft en konsekvens hennes meningssmottning dare har hon vidat att hon vill bestämma över andra och inskränka individens frihet Hon själv menar sin sida att det redan är så att någon bestämmare över andra och att individen redan är befriad Den här boken handlar om den kända Det är ett försök att tänka filosofiskt kring politik och kring människors liv bortom dagspolitiken
