Featured in the collection are views on education, language, agriculture, sport, and technology deeply interwoven into the schooling behavior and health of youth. Specifically, these practices are found in both formal and non-formal education, agricultural production and food nutrition, computer technology, and sport's amelioration of health issues throughout Africa.

Europe Hans-Georg Ziebertz, Ulrich Riegel, 2008 Religion is back on the agenda. Western societies are searching for an adequate understanding of religion. Media move religion into focus as a resource of significance in modern societies but also as a source of tension and conflict. Politics is testing how to manage religious pluralism. Education is developing concepts of interreligious dialogue in order to promote a better intercultural understanding. The book discusses if the concept post-secularity allows a suitable understanding of the public presence of religion.
