Sociétés Paysannes:

Organisation et sociétés paysannes Éric Sabourin, 2012-09 Cet ouvrage de synthèse traite de l'application de la théorie de la réciprocité aux transformations des organisations et sociétés paysannes en particulier dans leurs interactions avec l'état et les marchés et se base sur des études de cas menées depuis 30 ans dans quatre continents. La première partie présente la construction de la théorie de la réciprocité en sciences sociales, ses limites, son champ d'application et les critiques qui lui sont adressées particulièrement dans le cadre du paradigme du don. La deuxième partie porte sur l'analyse du principe de réciprocité dans les organisations communautaires et sociétés paysannes et sa confrontation avec la théorie de la gouvernance des communs, avec les théories de l'économie morale et de l'économie de l'affection. L'auteur développe des applications de la théorie de la réciprocité en socio-anthropologie : l'entraide rurale, la gestion des ressources communes et aux formes d'organisation. Partant d'exemples de réciprocité dans les sociétés rurales africaines, il met en évidence la permanence structurante de ces pratiques en milieu paysan dans d'autres continents. Dans la troisième partie, l'auteur analyse les relations de réciprocité dans les transactions de redistribution et de commercialisation, en particulier dans les marchés de proximité ou les filières courtes, ce qui conduit à un dialogue avec la sociologie économique et l'économie solidaire. Cette partie traite également des politiques publiques comme interfaces entre logiques de réciprocité et logiques d'échange marchand, et analyse le rôle des organisations paysannes dans le renouvellement des politiques de développement rural. Les formes d'aliénation spécifiques de la logique de réciprocité, asymétrisme clientilisme et paternalisme, sont abordées au fil de l'ouvrage en dialogue avec la sociologie politique. Ce livre contribue à enrichir le débat comme les actions et interventions pratiques pour le changement social et économique. Il s'adresse à tous ceux qui se intéressent aux processus de changement et de transition en agriculture du point de vue professionnel, académique ou politique.

China's Peasant Agriculture and Rural Society Jan Douwe van der Ploeg,Jingzhong Ye,2016-05-20 China's agriculture and rural society has undergone rapid changes in recent years Many poorer farmers and younger people have moved to cities and yet China has an immense challenge to feed a growing and more affluent population This book provides a

bottom up view of China's agriculture showing how the many millions of Chinese peasants make a living. It presents a vivid description of the mechanisms used by rural households to defend and sustain their livelihoods, increase their agricultural production and improve the quality of their lives. The authors examine the newly emerging trajectories of entrepreneurial and capitalist farming and assess whether such alternatives will be able to meet the enormous social, economic and environmental challenges that China faces. The book also explores the paradigm that has underpinned the organisation and development of China's agriculture from ancient times to the present day. This shows the importance of balancing in the Chinese model as compared to the one sided imposition of continual modernization in the western model. It is argued that such balancing is at the core of the current Sannong policy referring to the three ruralities of food sovereignty, wellbeing for peasant households and an attractive countryside.

Les sociétés Songhay-Zarma (Niger-Mali)

Jean-Pierre Olivier de Sardan, 1984-01-01. La veille de la colonisation le célèbre empire songhay du Moyen Age n'était plus qu'un souvenir. Les groupes songhay zarma ou assimilés étaient divisés entre chefferies multiples et soumis à la domination des Touaregs ou des Peuls. Ils avaient plus en commun que la langue et la culture. Partant de sources multiples et en se appuyant en particulier sur une grande diversité de tmoignages paysans contemporains largement cités dans cet ouvrage, l'auteur présente un tableau des principales contradictions sociales qui structuraient les sociétés songhay zarma Niger occidental et Mali oriental. Mais très et esclaves, chefs et sujets guerriers et paysans ainsi que cadets hommes et femmes formaient ainsi la trame de l'espace social. Mais pour comprendre le fonctionnement il faut toutefois de construire les notions faussement videntes d'esclavage de guerre de chefferies ou d'armées. À partir des années 1900 la colonisation aboutit ou modifie l'ancien système de contradictions. Un autre se met en place autour de nouvelles formes de pouvoir et d'extorsion. La manipulation de la coutume y jouera un rôle. Relevant la fois de l'anthropologie sociale et de l'ethnohistoire ce livre s'appuie sur un choix métodologique : la culture est un produit et un enjeu et non un simple patrimoine. Les sociétés villageoises sont clairement fracturées et trouées. Et loin de vouloir réduire ou nier les contradictions des discours indigènes il convient de leur rendre compte et de se y appuyer pour remonter des représentations aux structures sociales. Comment et pourquoi en France au début du XXI^e siècle l'agriculture d'entreprise coexiste-t-elle avec une agriculture durable
Estelle Deléage analyse les principales transformations de l'agriculture depuis la seconde guerre mondiale. Elle montre que certains agriculteurs continuent d'inventer des formes productives singulières qui sont autant de résistances à l'extension continue de l'agriculture industrielle. L'ouvrage peut constituer un support pour l'enseignement en histoire de l'agriculture française.

Parcours de recherche à Madagascar Christian Feller, Frédéric Sandron, 2010

C'est après la Seconde Guerre mondiale que la recherche française sur les pays tropicaux se structure selon un nouveau dispositif institutionnel. Depuis 1946 Madagascar fait partie des pays précurseurs disposant d'un centre de recherche PIRSM (Institut de recherche scientifique de Madagascar) de moyens logistiques et humains pour mener bien ses objectifs scientifiques et de développement. Depuis l'IRSM a été intégré à l'Orstom (Office de la recherche scientifique et technique outre-mer) devenu IRD (Institut de recherche pour le développement) en 1998 et le partenariat avec les chercheurs et universitaires nationaux s'est considérablement largement étendu. Ce parcours de recherche cet ouvrage dresse soixante-cinq ans plus tard un bilan du chemin parcouru et dessine un panorama de l'évolution des connaissances dans les principaux domaines investis par l'IRD et ses partenaires : géographie anthropologique, économie, hydrologie, pédologie, minéralogie, océanographie, botanique et travaux sur les substances naturelles. Ainsi des acteurs malgaches et français de la recherche nous livrent leur vision de l'évolution de leurs disciplines et nous présentent les modalités scientifiques et institutionnelles de leur collaboration. La production scientifique analysée permet par ailleurs de redonner vie des travaux anciens peu accessibles.

Outre les bibliographies propres chaque chapitre l ouvrage est accompagné d'un DVD comprenant plus de 3 000 références issues de la base documentaire Horizon Pleins Textes de l'IRD dont 1 800 disponibles en version intégrale fichiers PDF couvrant la majeure partie des travaux réalisés à Madagascar par l'IRD et ses partenaires malgaches
