Prof. Dr. Salim Sercan Sari, 2023-01-28 nternational Research in Social Human and Administrative Sciences IX      How Does a Society Change? Ingerid S. Straume, 2023-05-08 One of the most challenging questions of today concerns how human activities threaten the conditions for our very own existence With one crisis leading into the next the need for socio political change is necessary and desirable yet so hard to imagine in practice At the heart of the matter is a deeper crisis of the socio political imagination To understand how a society produces and changes itself Ingerid S Straume points to historical and contemporary institutions and the imaginaries they embody and argues that the key to social creativity is found in the reflexive potential of institutions especially politics and education Neoliberal rationality on its part has become dominant in many parts of the world precisely by occulting the socio political capacity for self reflection This occultation takes place in academic theories policy reforms technologies and in individuals self understanding In response to the planetary eco crises and the weakening of democratic ideals a new approach is needed where collectives not individuals in isolation become the mode for living well within existing natural limits Inspired by important political thinkers such as Cornelius Castoriadis and Hannah Arendt How Does a Society Change develops a theoretical framework to elucidate how politics and education are two interrelated domains wherein a society may openly reflect upon itself In short a society that recognizes its capacity to change itself also recognizes the transformative instituting potential of politics and education
