Society and History. Essays by Sylvia L. Thrupp. Edited by Raymond Grew and Nicholas H. Steneck Sylvia L. Thrupp, 1977 Society and history. Essays by sylvia l. Thrupp. Edited by raymond grew and nicholas h. Steneck Sylvia L. Thrupp, 1977 **Medieval Society and the Manor Court** Zvi Razi, Richard Michael Smith, 1996 The records of manorial courts have been used increasingly as the principal source for the reconstruction of rural and small town society in medieval England They offer a unique source with which to investigate peasant demography family patterns the village community and economy the characteristics and instruments of customary law and the ways in which that law was perceived and exploited by landlords and tenants The essays in this collection provide novel approaches to all of these themes and are written by many of the historians who have pioneered the use of this source category in the last two decades In two introductory chapters the editors review the historiography of manorial court rolls and account for their origins as a distinctive record of customary law within the broad context of medieval European society A valuable appendix contains an inventory of the most comprehensive unprinted manorial court roll series arranged systematically on a county to county basis detailing the repository in which they are located This book will serve as an essential reference tool for any serious study of medieval English rural society

Alliterative Revivals Christine Chism,2013-05-29 Alliterative Revivals is the first full length study of the sophisticated historical consciousness of late medieval alliterative romance Drawing from historicism feminism performance studies and postcolonial theory Christine Chism argues that these poems animate British history by reviving and acknowledging potentially threatening figures from the medieval past pagan judges primeval giants Greek knights Jewish forefathers Egyptian sorcerers and dead ancestors In addressing the ways alliterative poems centralize history the dangerous but profitable commerce of the present with the past Chism s book shifts the emphasis from the philological questions that have preoccupied studies of alliterative romance and offers a new argument about the uses of alliterative poetry how it appealed to its original producers and audiences and why it deserves attention now Alliterative Revivals examines eight poems St Erkenwald Sir Gawain and the Green Knight The Wars of Alexander The Siege of Jerusalem the alliterative Morte Arthure De

Tribus Regibus Mortuis The Awntyrs off Arthure and Somer Sunday Chism both historicizes these texts and argues that they are themselves obsessed with history dramatizing encounters between the ancient past and the medieval present as a way for fourteenth century contemporaries to examine and rethink a range of ideologies These poems project contemporary conflicts into vivid vast and spectacular historical theaters in order to reimagine the complex relations between monarchy and nobility ecclesiastical authority and lay piety courtly and provincial culture western Christendom and its easterly others and the living and their dead progenitors In this alliterative romance joins hands with other late fourteenth century literary texts that make trouble at the borders of aristocratic culture American Women Historians, 1700s-1990s Jennifer R. Scanlon, Shaaron Cosner, 1996-10-21 Profiles numerous women historians from diverse backgrounds Explores women historians motivations accomplishments and above all rich legacies **Development in the Preschool Years** Thomas E. Jordan, 2013-09-17 Development in the Preschool Years Birth to Age Five reports a prospective longitudinal analysis of influences on development in the years from birth to age five While speculation on the ways in which young children grow tends to be in terms of generalities this volume emphasizes the role of empirical data in such discourse and attempts to relate observations to an antecedent set of quantitative findings At a more particular level the investigation considers six aspects of development motor intellectual language somatic social and physical development The book is organized into three parts The first part contains chapters that review of the corpus of longitudinal studies specific approaches and recent research and describe the methods used to generate and analyze the data The second part provides multivariate regression analyses of the data in six domains while the third part presents a discussion of the findings The fundamental intent of this investigation is to make a contribution to policy formation for the early years of life **Ibss: Anthropology: 1978** International Committee for Social Science Information and Documentation, 1990-12-31 First published in 1981 Routledge is an imprint of Taylor Francis an informa company *Gloryland* H. B. Cavalcanti, 2007-10-30 Christian conservatism has changed drastically in the last 25 years From the working class faith of small autonomous rural churches or storefront sanctuaries to the megachurches of the suburbs and the halls of power Congress and the White House the faith is no longer at the margins of American religion Rather it is a dominant force in the American public square For the first time in its history Christian conservatism boasts an expanded network of born again clubs and services that closely follow secular trends in the American consumer market A veritable Christian suburbia has been created that parallels its secular counterpart This Christian conservative co optation of suburbia is unprecedented in the history of the movement Their embrace of modernity and middle class lifestyle is a stark contrast to Christian conservatives who avoided engaging with modernity earlier in the 20th century How did conservative Christianity change and how is this change affecting its relationship with the larger society Influenced by middle class values power and education Christian conservatism has opted to engage with modern political life allying itself with the Republican Party and developing an extensive political agenda of its own This book documents the transformation of Christian

conservatism into a middle class faith and argues that the changes experienced by Christian conservatism are part of a larger religious realignment in American Christianity Conservative Christianity once home primarily to working class religious communities greatly benefited from the migration of conservative Christians from other denominations as a result of the 1960s Cultural Revolution The final goal of the movement is of course the creation of a biblically based society one whose laws are defined by a conservative reading of the Scriptures and whose public mores are more akin to its newly gained middle class status The push to restore a Christian America raises questions about the conservative Christian faith Cavalcanti answers those questions as he traces the growth of the movement and its goals *Elites, Masses, and Modernization in Latin America, 1850-1930* E. Bradford Burns, Thomas E. Skidmore, 2014-12-15 The interactions between the elites and the lower classes of Latin America are explored from the divergent perspectives of three eminent historians in this volume The result is a counterbalance of viewpoints on the urban and the rural the rich and the poor and the Europeanized and the traditional of Latin America during the late nineteenth and early twentieth centuries E Bradford Burns advances the view that two cultures were in conflict in nineteenth century Latin America that of the modernizing European oriented elite and that of the common folk of mixed racial background who lived close to the earth Thomas E Skidmore discusses the emerging field of labor history in twentieth century Latin America suggesting that the historical roots of today s exacerbated tensions lie in the secular struggle of army against workers that he describes In the introduction Richard Graham takes issue with both authors on certain basic premises and points out implications of their essays for the understanding of North American as well as Latin American history *Utopia and the Ideal Society* J. C. Davis, 1983-07-28 This text provides a major study for all those working in the fields of 16th and 17th century political and social thought
