Europe in the Sixteenth Century H.G. Koenigsberger, George L. Mosse, G.Q. Bowler, 2014-06-06. This bestselling seminal book, a general survey of Europe in the era of Renaissance and Reformation, was originally published in Denys Hay's famous *Series A General History of Europe*. It looks at sixteenth-century Europe as a complex but interconnected

whole rather than as a mosaic of separate states The authors explore its different aspects through the various political structures of the age empires monarchies city republics and how they functioned and related to one another A strength of the book remains the space it devotes to the growing importance of town life in the sixteenth century and to the economic background of political change *Drama and the Market in the Age of Shakespeare* Douglas Bruster, 2005-01-27 Douglas Bruster's provocative study of English Renaissance drama explores its links with Elizabethan and Jacobean economy and society looking at the status of playwrights such as Shakespeare and the establishment of commercial theatres He identifies in the drama a materialist vision which has its origins in the climate of uncertainty engendered by the rapidly expanding economy of London His examples range from the economic importance of cuckoldry to the role of stage props as commodities and the commercial significance of the Troy story in Shakespeare's *Troilus and Cressida* and he offers new ways of reading English Renaissance drama by returning the theatre and the plays performed there to its basis in the material world

Theatre, Court and City, 1595-1610 Janette Dillon, 2006-11-02 This book explores the vital and interactive relationship between city and court in the drama of Shakespeare's time The growth of purpose built playhouses in late sixteenth century London began to shift the focus of performance for many companies away from provincial touring making the city a more conspicuous presence in drama Janette Dillon looks at relations between drama and city through the wider lens of fashion and commercialism examining in particular the developing West End area along the Strand She argues that the drama is oriented towards both the city of London and the court rather than to one or the other as previous studies have assumed The book is organized around physical and social forms of theatre space It ranges from analysis of well known plays such as Shakespeare's *Love's Labour's Lost* and Jonson's *Epicoene* to lesser known drama by Heywood and the newly discovered Jonsonian entertainment Britain's Burse **The Local Origins of Modern Society** David Rollison, 2005-08-11 Through a series of sharply focused studies spanning three centuries David Rollison explores the rise of capitalist manufacturing in the English countryside and the revolution in consciousness that accompanied it Combining the empiricism of English historiography with the rationalism of Annales and drawing on ideas from a wide range of disciplines he argues that the explosive implications of the rise of rural industry created new social formations and altered the communal cultural and social contexts of people's lives Using localized case studies of families and individuals the book starts with significant detail and moves out to build up a subtle and innovative view of English cultural identities in the early modern period *The Realms of Apollo* Raymond A. Anselment, 1995-07 In *The Realms of Apollo* literary scholar Raymond A Anselment examines how seventeenth century English authors confronted the physical and psychological realities of death Focusing on the dangers of childbirth and the terrors of bubonic plague venereal disease and smallpox the book reveals in the discourse of literary and medical texts the meanings of sickness and death in both the daily life and culture of seventeenth century England These perspectives show each realm anew as the domain of Apollo the deity widely celebrated in myth as the god of

poetry and the god of medicine Authors of both formal elegies and simple broadsides saw themselves as healers who tried to find in language the solace physicians could not find in medicine Within the context of the suffering so unmistakable in the medical treatises and in the personal diaries memoirs and letters the poets struggles illuminate a new cultural consciousness of sickness and death BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

in the Age of Reason Roy Porter,2004 Starting with the grim Britain of the Civil War era with its punishing sense of the body as a corrupt vessel for the soul Roy Porter charts how through figures as diverse as Locke Swift Johnson and Gibbon ideas about medicine politics and religion fundamentally changed notions of self He shows how the Enlightenment with its explosion of rational thinking and scientific invention of the eighteenth and nineteenth centuries provided a lens through which we can best see the profound shift from the theocentric otherworldly Dark Ages to the modern earthly body centered world we live in today As man made in God s image gave way to the Enlightenment s notion of the Self made man the body moved center stage Porter writes brilliantly on the ways in which men and women flaunted decorated tanned and dieted themselves activities that we find familiar but that a Puritan divine would have considered satanic And he explores how at the end of the century the human soul took on a new significance in the works of Godwin Blake and Byron BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Vernacular Literature and Current**
