Society And Psyche Social Theory And The Unconscious Dimension Of The Social:

Society and Psyche Kanakis Leledakis,2020-08-25 Providing interpretations and drawing critically from classical and modern social theory post structuralism and psychoanalytic theory this original study offers an alternative way of thinking about the social and the individual It offers critical analyses of among others Marx Giddens Bourdieu Derrida Laclau and Mouffe Castoriadis Freud and modern psychoanalytic theorists and considers their roles in advancing our present day conceptualization of the social and the self In theorizing that behaviour is both socially determined and autonomous it avoids the impasses of either individualist or structuralist approaches Bourdieu, Habitus and Field Sadiya Akram,2023-11-27

This innovative book argues that establishing an ontological framework makes a substantial difference to Pierre Bourdieu's core concepts of habitus and field In doing so it addresses the charges of determinism tautology and circularity that have long been directed at habitus and field Teasing out Bourdieu's ontology the book offers a novel critical realist reading of Bourdieu arguing that while Bourdieu explored the epistemological basis of his key concepts he neglects their ontological underpinnings and that elaborating on this adds a layer of depth and complexity which enriches Bourdieu's project In addition to articulating the synergies between Roy Bhaskar's critical realism and Bourdieu's oeuvre this book extends Bourdieu's insights in new and exciting directions by developing an ontologically informed Bourdieusian account of institutions as explored through the lens of institutional racism and by outlining a unique methodological approach to habitus

The Pleasures of Horror Matt Hills,2005-06-20 Pleasures of Horror is a stimulating and insightful exploration of horror fictions literary cinematic and televisual and the emotions they engender in their audiences The text is divided into three sections The first examines how horror is valued and devalued in different cultural fields the second investigates the cultural politics of the contemporary horror film while the final part considers horror fandom in relation to its embodied practices film festivals its reading formations commercial fan magazines and fanzines and the role of special effects Pleasures of Horror combines a wide range of media and textual examples with highly detailed and closely focused exposition of theory It is a fascinating and engaging look at responses to a hugely popular genre and an invaluable resource for students of media cultural and film studies and fans of horror **Lacan and the Political** Yannis Stavrakakis,2002-09-11

The work of Jacques Lacan is second only to Freud in its impact on psychoanalysis Yannis Stavrakakis clearly examines Lacan's challenging views on time history language alterity desire and sexuality from a political standpoint It is the first book to provide an overview of the social and political implications of Lacan's work as a whole for students coming to Lacan for the first time The first part of Lacan and the Political offers a straightforward and systematic assessment of the importance of Lacan's categories and theoretical constructions for concrete political analysis The second half of the book applies Lacanian theory to specific examples of widely discussed political issues such as Green ideology the question of democracy and the hegemony of advertising in contemporary culture **The Lacanian Left** Yannis Stavrakakis,2007-08-09 Innovative exploration of the

relationship of Lacanian psychoanalysis to political and democratic theory *The Charmed Circle of Ideology* Geoff Boucher, 2009-03 Set against the collapse of social theory into a theory of ideological discourse Geoff Boucher sets to work a rigorous mapping of the contemporary field targeting the relativist implications of this new form of philosophical idealism Offering a detailed and immanent critique Boucher concentrates his critical attention on the postmarxism of Laclau and Mouffe Butler and i ek In response Boucher points to intersubjectivity as an exit from postmarxist theory s charmed circle of ideology Social Creativity, Collective Subjectivity and Contemporary Modernity J. Domingues, 2000-03-02 The axis of this book is the articulation between the concept of collective subjectivity with the themes of social evolution and social creativity on the one hand plus contemporary modernity and social change on the other Drawing on theoretical ideas on reflexivity creativity and history it proposes a discussion of fundamental aspects of contemporary society dealing with global modernity economic sociology and social policy via concrete discussions about Brazil and Britain **International Bibliography of Sociology 1995** ,1996 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences *Post-Philosophical Sociology* Richard Kilminster, 2023-07-31 In a hyper individualistic age and in the face of the narrowly focused policy oriented research ubiquitous in the social sciences this book revisits the humanistic world view that is integral to Norbert Elias s pre eminent figurational process sociology with the aim of increasing the fund of sociological knowledge that has the human condition as its horizon Clarifying the contentious post philosophical aspects in order to supplement standard histories of sociology with new insights it offers incisive evaluations of some of the bewildered attempts by prominent sociologists to diagnose the malaise of contemporary globalised society It also challenges the orthodox limitation of the empirical scope of sociology to modernity With its ominous warnings of the destructive prevalence of overcritique in the discipline and lack of in depth sociological psychology Post Philosophical Sociology will appeal to scholars of sociology psychoanalysis social philosophy cultural theory and social and political theory with interests in developmental and dynamic thinking and the history of the discipline **Critical Theory** Alan How, 2017-03-07 This book examines the intellectual contribution made by Frankfurt School Critical Theory to our understanding of modern life Thematically organized and offering a strong mix of historical and contemporary material it considers the work of both the first and second generation While the work of the latter is often taken to exceed that of the former the author suggests that insights gleaned by both regarding the human subject offer a significant alternative to post modern ideas **Sociology in Greece** Spiros Gangas, Georgia Lagoumitzi, 2022-11-21 This Palgrave Pivot provides a concise history of the development of sociology in Greece It provides a compelling narrative of the discipline s embryonic state its promising beginnings that aligned with its contact with the then robust French and German accomplishments in sociology It continues with sociology s entanglement with modern Greece s turbulent history during the Civil War and the junta years It charts Greece s gradual recovery during

the mid 1970s which led to sociology's institutionalization. Yet such institutional boom was not free of politicization processes many of which proved residual and resilient stemming from the dictatorship years as well as from Greece's dependency during its process of modernization. This book completes this historical account by reconsidering sociology's gradual embrace of a multi-paradigmatic orientation its opportunities in light of the burgeoning Greek EU membership and extroversion. It concludes with charting sociology's position in the 21st century facing challenges like the Great Recession and its impact in Greece as well as the COVID 19 pandemic.

The Routledge International Handbook of Lifelong Learning Peter Jarvis, 2009-05-07 As lifelong learning grows in popularity few comprehensive pictures of the phenomenon have emerged. The Routledge International Handbook of Lifelong Learning provides a disciplined and complete overview of lifelong learning internationally. The theoretical structure puts the learner at the centre and the book emanates from there pointing to the social context beyond the learner. Up to the minute syntheses from many of the leading international experts in the field give vital snapshots of this rapidly evolving subject from wide ranging perspectives including learning throughout life, sites of lifelong learning, modes of learning, policies, social movements, issues in lifelong learning, geographical dimensions. This authoritative volume, essential reading for academics in the field of Lifelong Learning, examines the complexities of the subject within a systematic global framework and places it in its socio-historic context.

Human Rights, Or Citizenship? Paulina Tambakaki, 2010-04-05 Human Rights or Citizenship questions whether the evident displacement of the concept of the citizen by human rights can lead us to a more equitable politics.

Peace Psychology in Asia Cristina Jayme Montiel, Noraini M. Noor, 2009-06-04 In recent years peace psychology has grown from a utopian idea to a means of transforming societies worldwide. Yet at the same time peacebuilding enjoys global appeal, the diversity of nations and regions demands interventions reflecting local cultures and realities. *Peace Psychology in Asia* shows this process in action, emphasizing concepts and methods diverging from those common to the US and Europe. Using examples from China, India, Indonesia, the Philippines and elsewhere in the region, chapter authors illuminate the complex social, political and religious conditions that have fostered war, colonialism, dictatorships and ethnic strife and the equally intricate personal and collective psychologies that need to be developed to encourage reconciliation, forgiveness, justice and community. *Peace Psychology in Asia* integrates psychology, history, political science and local culture into concepts of peace and reconciliation. Highlights the indigenous aspects of peace psychology. Explains the critical relevance of local culture and history in peace work. Blends innovative theoretical material with empirical evidence supporting peace interventions. Balances its coverage among local, national, regional and global contexts. Analyzes the potential of Asia as a model for world peace. As practice-driven as it is intellectually stimulating, *Peace Psychology in Asia* is vital reading for social and community psychologists, policy analysts and researchers in psychology and sociology and international studies including those looking to the region for ideas on peace work in non-Western countries.

The Community of the Weak Hans-Peter Geiser, 2013-03-28 Social postmodernism and

systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story

Class, Trauma, Identity Giorgos

Bithymitris,2023-04-14 This book is a dialectic and multi perspective examination of classed traumas in late modernity The primary anchoring question is whether and how class becomes a condition of possibility for coping with traumas What does it mean to experience deindustrialization crises or domestic violence from a specific class position Do the coping mechanisms differ along the lines of class gender race age or ethnicity The text negotiates such questions travelling back and forth from psychoanalysis to sociology and from the global to the local while critically engaging with memories narratives and myths engraved into social and personal histories Through a dialogic quest for what is silenced and what is salient within oral written and visual testimonies it foregrounds what the upper classes prefer to neglect the traumatizing core of the new class divide Rather than idealizing or vilifying the dominated this study calls for an exploration of practices narrations and spaces whereby alienation and integration co exist antagonistically producing hybrid and fragmented but also potentially transformative subjectivities This book will be of interest to scholars of humanities and social sciences primarily for those studying social stratification and inequalities sociology of emotions identity theory trauma and memory political psychoanalysis labour history and ethnography

Re-thinking Contemporary Political Behaviour Sadiya

Akram,2019-02-07 Proposing a novel approach to understanding the contemporary political landscape Akram draws on the work of Pierre Bourdieu and Margaret Archer on agency and argues the need for an in depth engagement with concepts of agency to improve the reach and scope of political analysis Is the way that people engage with politics changing If so how well equipped are we to document and explain the extent and range of the ways in which people are engaging in politics today This book tackles these questions through a blend of theoretical reflection and empirical research shedding new light on the relationship between arena and process definitions of politics and how the social relates to the political Hitherto unexplored features of agency such as the unconscious and the internal political conversation are shown to be critical in exploring how people mobilise today and how they make sense of their political engagement Two in depth case studies of the internal political conversations that individuals hold as well as an analysis of the 2011 UK riots are presented Making a case

for the role of self expression in politics this book will be of use for graduates and scholars interested in British politics political theory social theory political sociology the theory and practice of political engagement and political behaviour

Work, Subjectivity and Learning Stephen Billett, Tara Fenwick, Margaret Somerville, 2007-06-03 In recent year efforts to understand learning for and throughout working life have moved away from a focus on workplace training to concerns about learning as a component and outcome of engaging in work and work related activities and interactions This shift acknowledges a broader set of workplace factors that shape workers learning and development Yet equally it acknowledges that this learning through engagement is also necessarily shaped by the diverse ways that individuals elect to engage or participate in workplace activities Central here is the issue of individuals subjectivity and how this is shaped by but shapes engagement in work and therefore what learning flows from their participation It is in considering the relations among subjectivity learning and work that it is possible to advance both the conceptual and procedural bases for understanding learning through and for working life Moreover the focus on relations among subjectivity work and learning represents a point of convergence for diverse disciplinary traditions and practices that are provided by the book s contributors In this way the contributions represent something of the emerging perspectives that are elaborating the complex relations among subjectivity work and learning and circumstances in which they are played out *Routledge Revivals: Anthony Elliott: Early Works in Social Theory* Anthony Elliott, 2021-02-25

The volumes in this set originally published between 1999 and 2003 draw together early works in social theory by leading sociologist Anthony Elliott The collection covers some of his major works in the field of social theory with a particular focus on psychoanalysis and social theorists within the area of sociology The works in this set make accessible previously unavailable works from the early stages of Anthony Elliott s ongoing and prolific career to date

Emancipation and History José Maurício Domingues, 2017-09-04 Assessing critical theory today Jos Maur cio Domingues Emancipation and History focuses on the connection between history and emancipation centering on the trends that structure modernity and may lead us beyond it Classical and contemporary sociology and social theory are mobilized to recover a robust theory capable of going beyond recurrent empirical and therefore weaker perspectives in emancipatory thought Collective subjectivity and social creativity history and sociology analytical concepts and trend concepts social existential questions the role of equal freedom and of immanent critique secularization capitalism the modern state populism the family and the meaning of citizenship Marx Weber Bhaskar Habermas Laclau Sousa Santos and Negri are topics and authors that stand out in the book
