Society In Colonial North Carolina:

Society in Colonial North Carolina Alan D. Watson,1975 **'Poor Carolina'** A. Roger Ekirch,2017-02-15 Ekirch examines the reasons for eighteenth century North Carolina's political factionalism, social violence and governmental paralysis. Especially disruptive were the opening of new areas of settlement and the influx of migrant groups with high material hopes, particularly since the colony's economy remained underdeveloped during much of the century. Fresh analyses are drawn of Governor Burrington's fiery administration, the Granville district turmoil of the 1760s and Regular Riots. Originally published in 1981, A UNC Press Enduring Edition. Poor Carolina A. Roger Ekirch,1979 **The Colonial Towns of Piedmont North Carolina** Christopher E. Hendricks,2024-11-15 How do towns come into existence? What circumstances determine whether they succeed or fail? In *The Colonial Towns of Piedmont North Carolina*, author Christopher E. Hendricks looks at one region in eighteenth century America to explore answers to these questions. He examines the establishment and development of eleven towns in the Piedmont, classifying them into three types: county towns formed by the establishment of government institutions such as a courthouse; trade towns formed around commercial opportunities; and religious towns such as the three towns developed in Wachovia, a region where Moravians settled. He uses these classifications to tell the stories of how these towns came into being and how, in their development, they struggled against economic, cultural and political challenges. Ultimately, *The Colonial Towns of Piedmont North Carolina* deepens our understanding of the influence that American towns had on the settlement of the backcountry. Hendricks tells the poignant story of the Moravians' struggle to maintain their neutral stance during the Revolutionary War, surviving exploitation and brutality from both the Continental Army and the British. The author also integrates the history of Native Americans into this mix of competing forces and shows how they were challenged by and resisted the newcomers. He emphasizes the role of individual initiative as well as the impetus of government, specifically courthouses, in establishing towns. By utilizing a variety of rarely examined primary sources, methodological approaches ranging from geographic theory to material culture studies and a deep examination of local history, Hendricks provides a comprehensive analysis of the emergence of these towns on the frontier.

North Carolina's Revolutionary Founders Jeff Broadwater,Troy L. Kickler,2019-03-27 This collection of essays profiles a diverse array of North Carolinians, all of whom had a hand in the founding of the state and the United States of America. It includes stories of how men who stood together to fight the British soon chose opposing sides in political debates over the ratification of the supreme law of the land, the Constitution. It also includes accounts of women, freedmen and Native Americans whose narratives shed light on the important roles of marginalized peoples in the Revolutionary South. Together, the essays reveal the philosophical views and

ideology of North Carolina s revolutionaries Contributors Jeff Broadwater Jennifer Davis Doyle Lloyd Johnson Benjamin R Justesen Troy L Kickler Scott King Owen James MacDonald Maggie Hartley Mitchell Karl Rodabaugh Kyle Scott Jason Stroud Michael Toomey and Willis P Whichard **A History of the North Carolina Society of the Colonial Dames of America from March 1894 to March 1935** Colonial Dames of America. Cain,1994 *Artisans in the North Carolina Backcountry* Johanna Miller Lewis,2021-12-14 During the quarter of a century before the thirteen colonies became a nation the northwest

quadrant of North Carolina had just begun to attract permanent settlers This seemingly primitive area may not appear to be a likely source for attractive pottery and ornate silverware and furniture much less for an audience to appreciate these refinements Yet such crafts were not confined to urban centers and artisans like other colonists were striving to create better lives for themselves as well as to practice their trades As Johanna Miller Lewis shows in this pivotal study of colonial history and material culture the growing population of Rowan County required not only blacksmiths saddlers and tanners but also a great variety of skilled craftsmen to help raise the standard of living Rowan County's rapid expansion was in part the result of the planned settlements of the Moravian Church Because the Moravians maintained careful records historians have previously credited church artisans with greater skill and more economic awareness than non church craftsmen Through meticulous attention to court and private records deeds wills and other sources Lewis reveals the Moravian failure to keep up with the pace of development occurring elsewhere in the county Challenging the traditional belief that southern backcountry life was primitive Lewis shows that many artisans held public office and wielded power in the public sphere She also examines women weavers and spinsters as an integral part of the population All artisans Moravian and non Moravian male and female helped the local market economy expand to include coastal and trans Atlantic trade Lewis's book contributes meaningfully to the debate over self sufficiency and capitalism in rural America

The North Carolina Symphony Joe A. Mobley, John W. Lambert, 2019-06-20 From its beginnings during the Great Depression the North Carolina Symphony has touched the lives of countless Tar Heels One of

the state's premier cultural organizations and the oldest continuously state supported orchestra in the nation the Suitcase Symphony grew from a small group of volunteer players to the world class orchestra it is today This book details the contributions of founder Lamar Stringfield longtime conductor Benjamin Swalin and his wife Maxine current music director Grant Llewellyn and other leaders of this iconic institution The authors place the symphony's story for the first time in the context of North Carolina's cultural history and in the process reveal much about the musical traditions of the Sahara of the Bozart and about the trials and triumphs of maintaining a state symphony orchestra **A Very Mutinous People** Noeleen McIlvenna, 2009-06-01 Historians have often glorified eighteenth century Virginia planters philosophical debates about the meaning of American liberty But according to Noeleen McIlvenna the true exemplars of egalitarian political values had fled Virginia's plantation society late in the seventeenth century to create the first successful European colony in the Albemarle in present day North Carolina Making their way through the Great Dismal Swamp runaway servants from Virginia joined other renegades to establish a free society along the most inaccessible Atlantic coastline of North America They created a new community on the banks of Albemarle Sound maintaining peace with neighboring Native Americans upholding the egalitarian values of the English Revolution and ignoring the laws of the mother country Tapping into previously unused documents McIlvenna explains how North Carolina's first planters struggled to impose a plantation society upon the settlers and how those early small farmers defending a wide franchise and religious toleration steadfastly resisted She contends that the story of the Albemarle colony is a microcosm of the greater process by which a conglomeration of loosely settled politically autonomous communities eventually succumbed to hierarchical social structures and elite rule Highlighting the relationship between settlers and Native Americans this study leads to a surprising new interpretation of the Tuscarora War *North Carolina Women* Michele Gillespie, Sally G. McMillen, 2014 This first of two volumes on North Carolina women chronicles the influence and accomplishments of individual women from the pre Revolutionary period through the early 20th century They represent a range of social and economic backgrounds political stances areas of influence and geographical regions within the state Even though North Carolina remained mostly rural until well into the twentieth century and the lives of most women centered on farm family and church Gillespie and McMillen note that the state's people exhibited a progressive streak that positively influenced women Public funds were set aside to advance statewide education private efforts after the Civil War led to the founding of numerous black schools and colleges and in 1891 the General Assembly chartered the State Normal and Industrial School later UNC-G as one of the first publicly funded colleges for white women By the late 19th century as several essays in this volume reveal education played a pivotal role in the lives of many white and black women It inspired their activism and involvement in a world beyond their traditional domestic sphere North Carolina William A.
