

Society Thought In Early America

Yijin Wang

Society Thought In Early America:

Liberating Women's History Berenice A. Carroll, 1976 Papers furnishing a review and critique of past work in women's history are combined with selections delineating new approaches to the study of women in history and empirical studies considering ideological and class factors **The Antebellum Period** James M. Volo, Dorothy Volo, 2004-06-30 The Antebellum Era was a complex time in American culture Young ladies had suitors call upon them while men often settled quarrels by dueling and mill girls worked 16 hour days to help their families make ends meet Yet at the same time a new America was emerging The rapid growth of cities inspired Frederick Law Olmstead to lead the movement for public parks Stephen Foster helped forge a catalog of American popular music writers such as Washington Irving and Ralph Waldo Emerson raised the level of American literature artists such as Thomas Cole and Thomas Doughty defined a new style of painting called the Hudson River School All the while schisms between northern and southern culture threatened to divide the nation This volume in Greenwood's American Popular Culture Through History recounts the ways in which things old and new intersected in the decades before the Civil War James and Dorothy Volo are one of the more prolific author teams in reference publishing today and with this volume they make important contributions to Greenwood's successful series on America's other history **Dictionary of Early American Philosophers** John R. Shook, 2012-04-05 The Dictionary of Early American Philosophers which contains over 400 entries by nearly 300 authors provides an account of philosophical thought in the United States and Canada between 1600 and 1860 The label of philosopher has been broadly applied in this Dictionary to intellectuals who have made philosophical contributions regardless of academic career or professional title Most figures were not academic philosophers as few such positions existed then but they did work on philosophical issues and explored philosophical questions involved in such fields as pedagogy rhetoric the arts history politics economics sociology psychology medicine anthropology religion metaphysics and the natural sciences Each entry begins with biographical and career information and continues with a discussion of the subject's writings teaching and thought A cross referencing system refers the reader to other entries The concluding bibliography lists significant publications by the subject posthumous editions and collected works and further reading about the subject **A Companion to the History of American Science** Georgina M. Montgomery, Mark A. Largent, 2019-09-23 A Companion to the History of American Science offers a collection of essays that give an authoritative overview of the most recent scholarship on the history of American science Covers topics including astronomy agriculture chemistry eugenics Big Science military technology and more Features contributions by the most accomplished scholars in the field of science history Covers pivotal events in U.S. history that shaped the development of science and science policy such as WWII the Cold War and the Women's Rights movement **Transatlantic Radicals and the Early American Republic** Michael Durey, 1997 In the transatlantic world of the late eighteenth century easterly winds blew radical thought to America Thomas Paine had already arrived on these shores in 1774 and made his mark as a radical

pamphleteer during the Revolution In his wake followed more than 200 other radical exiles English Dissenters Whigs and Painites Scottish lads o parts and Irish patriots who became influential newspaper writers and editors and helped change the nature of political discourse in a young nation Michael Durey has written the first full scale analysis of these radicals evaluating the long term influence their ideas have had on American political thought Transatlantic Radicals uncovers the roots of their radicalism in the Old World and tells the story of how these men came to be exiled how they emigrated and how they participated in the politics of their adopted country Nearly all of these radicals looked to Paine as their spiritual leader and to Thomas Jefferson as their political champion They held egalitarian anti federalist values and promoted an extreme form of participatory democracy that found a niche in the radical wing of Jefferson s Republican Party Their divided views on slavery however reveal that democratic republicanism was unable to cope with the realities of that institution As political activists during the 1790s they proved crucial to Jefferson s 1800 presidential victory then after his views moderated and their influence waned many repatriated others drifted into anonymity and a few managed to find success in the New World Although many of these men are known to us through other histories their influence as a group has never before been so closely examined Durey persuasively demonstrates that the intellectual ferment in Britain did indeed have tremendous influence on American politics His account of that influence sheds considerable light on transatlantic political history and differences in religious political and economic freedoms Skillfully balancing a large cast of characters Transatlantic Radicals depicts the diversity of their experiences and shows how crucial these reluctant migr s were to shaping our republic in its formative years

Early American Women Dramatists, 1775-1860 Zoe Detsi-Diamanti,1998 Noting that the variation between the playwrights can be as great as between men and women and acknowledging that her subjects are limited to a narrow class and race population Detsi Diamanti the cultural and historical specificity of women playwrights of the period and the interrelationship between their dramatic efforts and the formation of an American national and literary identity Her major themes are metaphors of freedom industrial capitalism and gender perspective and ideology

The Emergence of Capitalism in Early America Christopher W. Calvo,2023-10-10 Due to the enormous influence of Adam Smith s The Wealth of Nations on Western liberal economics a tradition closely linked to the United States many scholars assume that early American economists were committed to Smith s ideas of free trade and small government Debunking this belief Christopher W Calvo provides a comprehensive history of the nation s economic thought from 1790 to 1860 tracing the development of a uniquely American understanding of capitalism The Emergence of Capitalism in Early America shows how American economists challenged adjusted and adopted the ideas of European thinkers such as Adam Smith David Ricardo and Thomas Malthus to suit their particular interests Calvo not only explains the divisions between American free trade and the version put forward by Smith but he also discusses the sharp differences between northern and southern liberal economists Emergent capitalism fostered a dynamic discourse in early America including a homegrown version of socialism burgeoning

in antebellum industrial quarters as well as a reactionary brand of conservative economic thought circulating on slave plantations across the Old South This volume also traces the origins and rise of nineteenth century protectionism a system that Calvo views as the most authentic expression of American political economy Finally Calvo examines early Americans awkward relationship with capitalism s most complex institution finance Grounded in the economic debates Atlantic conversations political milieu and material realities of the antebellum era this book demonstrates that American thinkers fused different economic models assumptions and interests into a unique hybrid capitalist system that shaped the trajectory of the nation s economy

Education and the Creation of Capital in the Early American Republic Nancy

Beadie,2010-07-30 This book argues that schools were a driving force in the formation of social political and financial capital during the market revolution and capitalist transition of the early republican era Grounded in an intensive study of schooling in the Genesee Valley region of upstate New York it traces early sources of funding and support for education including common schools and various forms of higher schooling to their roots in different social and economic networks and trade and credit relations It then interprets that story in the context of other major developments in early American social political and economic history such as the shift from agricultural to non agricultural production the integration of rural economies into translocal capitalist markets the organization of the Second Great Awakening the transformation of patriarchy the expansion of white male suffrage the emergence of the Secondary American Party System and the formation of the modern liberal state

Writing Early American History Alan Taylor,2006-07-05 How is American history written Pulitzer Prize winning author Alan Taylor answers this question in this collection of his essays from The New Republic where he explores the writing of early American history

How Early America Sounded Richard Cullen Rath,2003 In early America every sound had a living wilful force at its source sometimes these forces were not human or even visible The author recreates in detail a world remote from our own one in which sounds were charged with meaning and power

Gold Rushes and Mining Camps of the Early American West Vardis Fisher,Opal Laurel Holmes,Opal Laurel Fisher,1968 Distributed by the University of Nebraska Press for Caxton Press Vardis Fisher and Opal Laurel Holmes bring together the stories of all of the remarkable men and women and all of the violent contrasts that made up one of the most enthralling chapters in American history Fisher a respected scholar and versatile creative writer devoted three years to the writing of this book

A Companion to Colonial America Daniel Vickers,2008-04-15 A Companion to Colonial America consists of twenty three original essays by expert historians on the key issues and topics in American colonial history Each essay surveys the scholarship and prevailing interpretations in these key areas discussing the differing arguments and assessing their merits Coverage includes politics religion migration gender ecology and many others

Capital of Mind Adam R. Nelson,2024-01-02 The second volume of an ambitious new economic history of American higher education Capital of Mind is the second volume in a breathtakingly ambitious new economic history of American higher education Picking up from the first volume Exchange of Ideas Adam R

Nelson looks at the early decades of the nineteenth century explaining how the idea of the modern university arose from a set of institutional and ideological reforms designed to foster the mass production and mass consumption of knowledge. This industrialization of ideas mirrored the industrialization of the American economy and catered to the demands of a new industrial middle class for practical and professional education. From Harvard in the north to the University of Virginia in the south, new experiments with the idea of a university elicited intense debate about the role of scholarship in national development and international competition and whether higher education should be supported by public funds especially in periods of fiscal austerity. The history of capitalism and the history of the university, Nelson reveals, are intimately intertwined, which raises a host of important questions that remain salient today: How do we understand knowledge and education as commercial goods? Should they be public or private? Who should pay for them? And fundamentally, what is the optimal system of higher education for a capitalist democracy?

Iconic Ideas in the History of Social Thought W. Isajiw, 2016-05-13

The book distinguishes a number of types of social thought and traces their history from tribal times until present day. It shows that human beings thought systematically about their societies very early in their development, even if only informally, as they did not write treatises about them. In many ways, they formed a basis for all social thought that followed. The book discusses the social thought of ancient civilizations and talks about how the rationalism of Greek and Roman times and the religiosity of early and later Christianity influenced its development. The book then explains the influence of the Reformation, the change of the intellectual climate, and the emergence of new approaches to the discussion about the nature of society. It talks about the theorists who argued that societies were created by social contract among people, and some like the colorful Robert Owen advised that we should learn by doing. He tried to establish two colonies in which people would work and live together and share the products of their work among all in the colony. This was a benign socialist idea. It did not work. But soon the aggressive socialism of Karl Marx and his followers emerged. A strong trend emerged in the meantime for the scientific study of society, employing all the methods of the natural sciences. Sociology as a professional discipline thus developed. An issue emerged: whether society is just a congregation of individuals or has a reality of its own. Differences among scholars emerged, with American sociologists favoring individualistic sociology and Europeans favoring the reality of society approach. But the contest was crowned by Max Weber, whom some consider to be the greatest sociologist who ever lived, and his analytical and *verstehende* sociology. The field of sociology has spread out widely into various specializations. The book also studies popular social thought. It briefly describes Islamic social thought, looks at popular thought in Europe in the first half of the 20th century, and current American popular thought. It ends by discussing the future of social thought.

Journal of the American Society of Heating and Ventilating Engineers American Society of Heating, Refrigerating and Air-Conditioning Engineers, 1922

Hidden Threads Russell Heddendorf, Matthew Vos, 2010

Heddendorf finds in sociological theories some hidden threads: Christian principles woven into the fabric of society. This book is an examination

and Christian critique of sociological theory demonstrating appreciation for the richness of social life and holding in tension

Proceedings, American Philosophical Society (vol. 93, no. 2) , Conspiracy Theories in American History Peter Knight, 2003-12-11 The first comprehensive history of conspiracies and conspiracy theories in the United States Conspiracy Theories in American History An Encyclopedia is the first comprehensive research based scholarly study of the pervasiveness of our deeply ingrained culture of conspiracy From the Puritan witch trials to the Masons from the Red Scare to Watergate Whitewater and the War on Terror this encyclopedia covers conspiracy theories across the breadth of U S history examining the individuals organizations and ideas behind them Its over 300 alphabetical entries cover both the documented records of actual conspiracies and the cultural and political significance of specific conspiracy speculations Neither promoting nor dismissing any theory the entries move beyond the usual biased rhetoric to provide a clear sighted dispassionate look at each conspiracy real or imagined Readers will come to understand the political and social contexts in which these theories arose the mindsets and motivations of the people promoting them the real impact of society s reactions to conspiracy fears warranted or not and the verdict when verifiable that history has passed on each case **Law, Labor, and Ideology in the**

Early American Republic Christopher L. Tomlins, 1993-04-30 This book presents a fundamental reinterpretation of law and politics in America between 1790 and 1850 the crucial period of the Republic s early growth and its movement toward industrialism It is the most detailed study yet available of the intellectual and institutional processes that created the foundation categories framing all the basic legal relationships involving working people **Historical Dictionary of the**

Early American Republic Richard Buel Jr., Jeffers Lennox, 2016-12-20 The drafting and ratification of the federal constitution between 1787 and 1788 capped almost 30 years of revolutionary turmoil and warfare The supporters of the new constitution known at the time as Federalists looked to the new national government to secure the achievements of the Revolution But they shared the same doubts that the Anti federalists had voiced about whether the republican form of government could be made to work on a continental scale Nor was it a foregone conclusion that the new government would succeed in overcoming parochial interests to weld the separate states into a single nation During the next four decades the institutions and precedents governing the behavior of the national government took shape many of which are still operative today This second edition of Historical Dictionary of the Early American Republic contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about American history

While this might not be the Society Thought In Early America full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of

Society Thought In Early America eBooks, including some popular titles.

FAQs About Society Thought In Early America Books

What is a Society Thought In Early America PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Society Thought In Early America PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Society Thought In Early America PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Society Thought In Early America PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Society Thought In Early America PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
