Society and Bureaucracy in Contemporary Ghana Robert M. Price, 2023-07-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975 **Society and bureaucracy in contemporary Ghana** Robert M. Price, 1975 *An Anatomy Of Ghanaian Politics* Naomi Chazan, 2019-02-28 The paths of African states have diverged markedly since the termination of colonial rule Nevertheless Ghana the first African state to achieve independence epitomizes both the political gyrations and the overall stagnation common to many other countries on the continent This work concentrates on the 1969-1982 period in Ghana focusing on two interrelated facets of African politics the decline of state power and authority and adjustments to political recession The author traces the dual patterns of diminution of the state and the adaptation of autonomous coping mechanisms in the separate spheres of political leadership political structures and institutions ideology and political economy The dynamic of state-society interactions is then treated in terms of the rhythm of dissent conflict and disengagement Dr Chazan provides a comprehensive study of Ghanaian politics from the 1970s to the present By systematically analyzing the process of political decline and regeneration she highlights similar processes apparent elsewhere in Africa The stress on the subtleties and direction of political change has important implications for policymakers and policy analysts alike Political Domination in Africa Patrick Chabal, 1986-10-09 This collection of essays brings together historians and political scientists from Britain France and the United States who from widely differing perspectives and traditions have been involved in the process of rethinking African politics They present here the outline of a new approach grounded in universal political theory rather than on theories of Third World political development This seeks to integrate the history of Africa from pre to post colonial with concepts of political theory as they have been applied historically to the analysis of Europe and America The book addresses a wide audience students of African history and politics of Third World development and of political theory *Political Development and the New Realism in Sub-Saharan Africa* David Ernest Apter, Carl Gustav Rosberg, 1994 Since the 1950s David Apter and Carl Rosenberg have been among the leading American scholars in African Studies In this volume they along with other major specialists in the field explore the new configurations of African politics With tentative efforts at a revival of democracy now taking place it seems appropriate to reassess the theoretical debates and empirical themes that have characterized postwar Sub-Saharan African politics Focusing on new realism that has emerged among Africanists since the dismantling of colonial rule the essays are presented as a corrective both to the initial euphoria informing African studies and to the later tendency to place blame for all Africa's political and economic difficulties on the receding specter of colonial oppression **Ethnicity in Ghana** NA NA, 2016-04-30 Although African ethnicity has become a highly fertile field of enquiry

in recent years most of the research is concentrated on southern and central Africa and has passed Ghana by This volume extends many of the distilled insights but also modifies them in the light of the Ghanaian evidence The collection is multidisciplinary in scope and spans the pre colonial colonial and post colonial contexts A central contention of the volume is that while there were significant regional variations ethnicity was not purely a colonial invention The boundaries of we groups have constantly mutated from pre colonial times while European categorization owed much to indigenous ways of seeing The contributors explore the role of European administrators and recruitment officers as well as African cultural brokers in shaping new identities The interaction of gender and ethnic consciousness is explicitly addressed The volume also examines the formulation of the national question in Ghana today in debates over language policy and conflicts over land and chieftaincy

thinking and teaching about development management Jane L Parpart Dalhousie University Nova Scotia Canada Long overdue This text is not only gender sensitive but interdisciplinary theoretically grounded policy relevant and best of all interesting to read Sue Ellen Charlton Colorado State University While theoretically aware and non aligned to any official agency Staudt s approach to development management is essentially practical and pragmatic Her concern for grassroots participation is combined with a full appreciation of the significance of national and international levels of decision making and implementation and of the roles of both governmental and non governmental organizations In a style that is both direct and clear she informs but does not prescribe about the contexts the techniques the institutions and the sectors in which and with which management operates providing in the process a variety of challenging and realistic case studies She also succeeds admirably in integrating gender as a matter of common sense into the mainstream of international development management concerns David Hirschmann The American University Washington D C This text provides a brilliant juxtaposition of interrelated but hitherto isolated fields in the complex and controversial political economy of development The author brings unique timely insights and formats to bear especially from indigenous Third World activists authors and scholars as well as practitioners She bridges the local and global the political and the technical Her book is particularly welcome at the start of the 1990s as a truly radical departure from the diversions and disappointments of orthodox development administration and structural adjustment Hopefully public policy will not be the same once this text is distributed digested and debated Timothy W Shaw Dalhousie University Nova Scotia Canada Staudt presents a multifaceted comprehensive analysis with illustrative examples drawn from a wide range of countries a worthwhile contribution to recent literature reporting on and assessing the record of governmentally sponsored developmental efforts with a focus on issues of management and administration Woven throughout the text are commendable references to persistent deficiencies such as the dearth of participation by women in development activities and the frequency of a feeling of alienation and distance between institutional staff members and the people they should be serving Another praiseworthy feature is inclusion of many teaching aids such as cases role playing sessions and staggered assignments related to the preparation of individual projects outstanding source for bibliographical information about recent literature on development Public Administration Review A useful book for those involved in development work it moves beyond politics and policy making into organization for action and studies political relationships between people their organizations and the state in development projects Case studies examples and role play exercises are used to build analytic skills Intermediate Technology Bookshop The complexities facing development managers are vast The enormous challenges to understanding the breadth and depth of development transformation are apparent in each level of this process and demand attention Answering the need for a comprehensive introductory resource is Managing Development This fresh perspective on development management analyzes both international and national development agencies and shows the widely differing cultural contexts in which to plan manage

and evaluate development programs Stressing political context and process throughout the focus nevertheless in Managing Development is on bureaucratic politics and political relationships between people their organizations and the state in development programs and projects The chapters examine development programs in agriculture and health particularly reproductive health and provide hypothetical situations examples and roleplay exercises A well integrated treatment of development teaching learning and applications this volume shows that much can be learned from the analysis of both successful and unsuccessful development programs Managing Development is the essential resource for courses in development studies political science comparative politics urban studies and policy studies as well as for planners and researchers in development management

Merkl, 2014-07-14 Throughout history parties have faltered and new groups have emerged but rarely has this process been so accelerated so widespread and so conducive to dramatic political change as in our present era When Parties Fail explores alternative organizations in depth and comparatively Among the organizations discussed are environmentalist groups such as the West German and Swedish Greens the Italian Radicals and local protest groups in Japan Switzerland and the United States Also considered are new groups seeking attention in unresponsive party systems such as the Danish Gilstrup party the British SDP and American PACs community parties and movements in Israel India Britain and the American South and antiauthoritarian movements in Poland Solidarity Taiwan and Ghana The case of France provides an example of major party survival Three broadly comparative chapters consider the reasons for major party persistence in some nations and the causes and impact of their decline in others The contributors to the book are David Apter Myron J Aronoff Liang shing Fan Frank B Feigert Zvi Gitelman Ronald J Herring Jon Kraus Kay Lawson Tom Mackie Peter H Merkl Raffaella Y Nanetti Angelo Panebianco Mogens N Pedersen Geoffrey Pridham Peter Pulzer Richard Rose Donald Schoonmaker Frank Sorauf Robert C A Sorensen Evert Vedung Hanes Walton Jr and Frank L Wilson Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Administrative Culture in Developing and Transitional Countries Ishtiaq Jamil, Steinar Askvik, Farhad Hossain, 2016-03-17 The book explores theoretical methodological and empirical underpinnings of administrative culture as well as prospects and challenges associated with it in the context of and across developing and transitional countries Referring to dominant norms and values in public organizations administrative culture is about the attitudes and perceptions of public officials In many countries civil servants are criticised for being corrupt incompetent unreliable and self centred Their attitudes norms and values and the way they act are in constant conflict with rule of law Recently the virtues of the Weberian model of

bureaucracy have been reclaimed as an alternative to New Public Management NPM i.e. as a model which emphasizes impartiality rule following expertise and hierarchy rather than manipulation of incentive structures and market competition. In particular it has been argued that a system of meritocratic recruitment and predictable long term careers increases the professional competence of the bureaucrats and fosters a culture of professionalism among them. Still it is unclear how and under what conditions such a model can be adopted. Among main hindrances seems to be established power structures and the existing political and societal culture which undermine the effective implementation of the Weberian model. This book was published as a special issue of the International Journal of Public Administration. Public Administration in the Third World V. Subramaniam, 1990-06-26. This multi-author reference handbook gives a detailed objective picture of the evolution structure and processes of public administration in representative Third World countries. Written by an international group of specialists with first hand knowledge of the subject it presents empirical studies of developing nations in Asia the Middle East North and Sub Saharan Africa the West Indies and Latin America. The resulting data are shaped by the editor into a theoretical framework delineating the complex relationships of state bureaucracy and class in the Third World. Subramaniam's introduction provides a critical overview of development literature in the field. Each case study begins with an historical introduction and discusses the political executive and the administrative structures and processes. Among the specific topics covered are public enterprises administrative departments personnel financial administration and regional and local administrative units. The majority of the systems studied are affected by the unregulated power of public enterprises the persistence of colonial legacies and the elitism of the bureaucracy. The concluding section relates these common elements to the sociohistorical characteristics of the middle class groups that dominate both politics and public administration. Offering new research findings and a useful theoretical synthesis this study will promote a clearer understanding of the internal political processes of Third World nations and be of compelling interest to specialists and students concerned with Third World political economy comparative government and international political economy. *Interpreting Political Responsibility* John Dunn, 2014-07-14. In this volume one of the leading political theorists of our time addresses what he believes is the major task of political theory showing human beings how they have good reason to act in the historical situation in which they find themselves. Dunn argues that humans today depend more abjectly and extensively than ever before on the capacity of some of our number for skillful political action. There are many reasons for this dependence closely linked nuclear threat and financial systems massive trade flows that sustain or imperil the well being of all modern populations and the awesome scale of the unintended ecological effects of human production. Why has modern political theory failed to relate these factors systematically to one another and to provide people with adequate reasons for action? To answer this twin query Dunn brilliantly deploys the resources of the historical development of Western political thinking in counterpoint with some of the main lessons of international political economy. The concluding essay reasserts that the classical virtue of prudence has a

central place in contemporary politics The conditions of modern politics it maintains require the exercise of prudence not merely by political military and economic leaders but also by the populace at large Overall this selection of Dunn s most influential work of the past decade reflects his remarkable range of interests including Locke s ideological importance the nature of trust in politics rights liberty responsibility at a national level postcolonial African politics and political community The book will be required reading for students from a variety of disciplines Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

States at Work Thomas Bierschenk, Jean-Pierre Olivier de Sardan, 2014-01-30 *States at Work* explores the mundane practices of state making in Africa by focussing on the daily functioning of public services and the practices of civil servants

Parties, Political Finance, and Governance in Africa Rachel Sigman, 2023-03-16 A major challenge for the advancement of democratic governance in Africa is the extraction of money by ruling parties from the state to fund their electoral campaigns and gain political advantage over opponents Drawing upon in depth case studies of Benin and Ghana Rachel Sigman considers how and with what consequences party leaders control and access public funds to finance their political operations Weaving together biographical data on government ministers surveys of civil servants elite interviews and archival research Sigman explains leaders extraction strategies and connects these strategies to how politicians manage state personnel In so doing she challenges the perception of African states as uniformly weak and argues that effective government is possible even in contexts of widespread state politicization corruption and clientelism Demonstrating the profound impact that extractive financing practices have on democratic institutions Sigman illuminates and develops our understanding of good governance across the African continent

The Politics of Government-Business Relations in Ghana, 1982-2008 D. Opoku, 2015-10-14 Since the early 1980s the World Bank backed by aid donor countries has been involved in a determined effort to stimulate capitalist growth in Africa by prescribing a set of orthodox neoliberal economic policies Using Ghana as a case study this book considers why this is the case

Personal Rule in Black Africa Robert H. Jackson, Robert Houghwout Jackson, Carl Gustav Rosberg, 1982-01-01

Black Africa Robert C. Mitchell, Donald G. Morrison, John N. Paden, 1989-07-17 *Black Africa* presents political economic and social data for 41 black African nations The first edition was published in 1972 and included only data on 32 countries which was the total number of independent African nations at that time Enlarging on the first edition this second edition covers in detail important aspects of the countries included from demography to political development and social mobilization to a modern comparative analysis of African states *Black Africa* is a complete and comprehensive handbook The

first edition of Black Africa won a Book of the Year Award from the American Library Association **Africa's Persistent Vulnerable Link to Global Politics** Opoku Agyeman, 2001 A key dimension of global politics is the interaction that takes place between the nation states as primary actors and the systemic environment within which the actors operate How a nation state relates to the structural realities of the international system depends very much on its relative strength or weakness within the global system Linkage vulnerability implies that the actors caught in it tend to be severely handicapped in their interactions with the world system that they tend to have little or no say in configuring the underlying linkages By any yardstick Black Africa's relationship to the global system provides the quintessential depiction of linkage vulnerability The book which covers the period from the 1960s to the 1990s portrays the persistence of Africa's vulnerability to global politics across such evocative African places as the Congo Zaire Angola Mozambique and South Africa and it encompasses such issues as the lack of tenaciousness of spiritual dignificatory values the tenuous commitment to the solutions inherent in Pan Africanist ideology and strategies the institutional vacuum engendered by praetorianism the racism of a near hegemonic Western power toward Africa and Western imperialistic terrorism against Africa
