**Society Without the Father** Alexander Mitscherlich,1969 *Life Without Father* David Popenoe,1996 The author of *Disturbing the Nest* Family Change and Decline in Modern Society reveals how the disintegration of the child centered two parent family and the weakening commitment of fathers to their children that usually follows are a central cause of many of America s worst individual and social problems

**Fathers and Sons in Cinema** Gershon Reiter,2008-06-02 Popular American films are replete with story lines which involve the father son relationship often as the pivotal conflict or dragon which a hero must overcome to achieve success Sometimes these conflicts are straightforward other times they are projections of the central character s unconscious becoming conscious in essence a modern form of myth These American filmmyths serve as a visual means to project the psyche in an entertaining and easily accessible manner Focusing on mythic structure this volume explores 12 popular movies that deal with various aspects of the father son relationship including the process of becoming a father absent fathers the rite of passage and the turmoil between fathers and adolescents Films examined include *The Wizard of Oz* *Back to the Future* *Stand By Me* *Red River* *City Slickers* *North by Northwest* *E T* *The Extraterrestrial* *Field of Dreams* *Lone Star* *The Lion King* *Jurassic Park* and *The Searchers* **Society Without Th Father**

**Fathers** David Popenoe, 2011-12-31 The American family is changing Divorce single parents and stepfamilies are redefining the ways we live together and raise our children Many experts feel these seemingly inevitable changes should be celebrated they claim that the new families which often lack a strong father are actually healthier than traditional two parent families or at the very least do children no harm But as David Popenoe shows in *Families Without Fathers* this optimistic view is severely misguided Examining evidence from social and behavioral science history and evolutionary biology Popenoe shows why fathers today are deserting their families in record numbers The disintegration of the child centered two parent family especially in the inner cities where as many as two in three children are growing up without their fathers and the weakening commitment of fathers to their children that more and more follows divorce are central causes of many of our worst individual and social problems Juvenile delinquency drug and alcohol abuse teenage pregnancy welfare dependency and child poverty can be directly traced to fathers lack of involvement in their children's lives Our situation will only get worse Popenoe warns unless men are willing to renew their commitment to their marriages and to their children Yet he is not just an alarmist He suggests concrete policies and new ways of thinking and acting that will help all fathers improve their marriages and family lives and tells us what we as individuals and as a society can do to support and strengthen the most important thing a man can do

**Stepparenting** Stanley H. Cath, Moisy Shopper, 2013-04-15 In an era when teachers commonly report that up to half of the children in their classes come from multiple homes and have multiple caretakers the special psychological challenges of stepparenting have never been in greater need of examination As thoughtful clinicians have long known stepparenting is among the most complicated of psychological projects it may simultaneously be a multifaceted burden and a spur to personal autonomy deepened sensitivity to others and newfound competence as a nurturer Among the thousands of divorced people who remarry each year most despite their best resolve to live in the present persist in reassessing the price of separation especially as they come to appreciate the fact that divorce is seldom a total break for their children Stepparenting is a comprehensive

exploration of the process of reconstructing families More specifically it is a book about the perils and promise of stepparenting a caretaking role that may be more challenging than biologically given child rearing Contributors follow people as they try to reevaluate past misunderstandings and acclimate to new parenting contexts and obligations Editors Cath and Shopper have taken pains to offer a balanced purview that includes both successful and maladaptive instances of stepparenting Of special note are the clinical examples throughout the book that chart the extended periods of slow creative learning experienced by parents and children biological and step as they test the waters of new family systems and try to elicit newly attuned responses from each other
