 Selected bibliography pp 217 to 239 and references Sociological Theory Bert N. Adams,R. A. Sydie,2001-01-30 This book connects theorists and their work to larger themes and ideas All too often in the opinion of the authors theory texts focus too much on individual theorists and insufficiently on the relationship between their theories and how these have contributed in turn to the evolution of ideas concerning social life Treatment of individual theories and theorists is balanced with the development of key themes ideas about social life introduced in Chapter 1 which then reappear in the discussion of individual theorists and their work A key organizing principle of this text is to trace major schools of thought over the past 150 years as they appear and reappear in different chapters Section 1 introductions help remind students of the big picture within which any given theory or theorist is only one part A consistent organization and presentation within chapters helps provide students with a context for learning and a means of much more easily comparing and contrasting theorists and their ideas Important new voices in a text for social theory In Chapter 2 Harriet Martineau is introduced as one of sociology s founders From then on the views of women theorists and others are represented in far more than token fashion Examples include W E B DuBois Marianne Weber Charlotte Gilman Rosa Luxemburg Joseph Schumpeter V I Lenin Niklas Luhmann Theda Skocpol Erik Wright Elman Service Arlie Hochschild Dorothy Smith Patricia Hill Collins and Immanuel Wallerstein A timeline showing when social theorists lived and wrote and connecting their biographies to important social events over 300 years is at the back of the text The organization of every chapter along similar lines provides a consistency in presentation that encourages comparisons among the theorists The authors do a very good job presenting overlooked theorists and making their relevance to social theorizing doing sociology clear Joan Alway formerly University of Miami The strengths of this text are the breadth of theories covered the integration of gender related topics family work religion the use of substantial quotes from primary texts the consistent inclusion of methodological issues and the goals of the project to provide an expansive and readable theory text I have no doubt that it will find a solid position in the field of popular theory texts for undergraduate course use Kathleen Slobin North Dakota State University 21st Century Sociology: A Reference Handbook Clifton D. Sociology in Post-Normal Times Charles Thorpe, 2022-02-28 The Covid 19 pandemic and the disruptions of climate change are features of post normal times In *Sociology in Post Normal Times* Charles Thorpe contends that the modern project of creating normalcy within the nation state has broken down Integral to this is sociology which is the science of social reform Drawing from the work of seminal theorists such as Zygmunt Bauman and Anthony Giddens Thorpe contends that sociology s society is no longer viable because globalization has put an end to social reform thus the assumptions and goals of sociology must be left behind in order to create a new global humanity In the face of the pandemic and climate change *Sociology in Post Normal Times* demands no less than the birth of a global humanity beyond nation states as the precondition for human survival **Christian Missions and Social Progress** James Shepard Dennis, 1906

Introducing Sociology Using the Stuff of Everyday Life Josee Johnston, Kate Cairns, Shyon Baumann, 2017-01-06 The challenges of teaching a successful introductory sociology course today demand materials from a publisher very different from the norm Texts that are organized the way the discipline structures itself intellectually no longer connect with the majority of student learners This is not an issue of pandering to students or otherwise seeking the lowest common denominator On the contrary it is a question of again making the practice of sociological thinking meaningful rigorous and relevant to today s world of undergraduates This comparatively concise highly visual and affordable book offers a refreshingly new way forward to reach students using one of the most powerful tools in a sociologist s teaching arsenal the familiar stuff in students everyday lives throughout the world the jeans they wear to class the coffee they drink each morning or the phones their professors tell them to put away during lectures A focus on consumer culture seeing the strange in the familiar is not only interesting for students it is also the authors suggest pedagogically superior to more traditional approaches By engaging students through their stuff this book moves beyond teaching about sociology to helping instructors teach the practice of sociological thinking It moves beyond describing what sociology is so that students can practice what sociological thinking can do This pedagogy also posits a relationship between teacher and learner that is bi directional Many students feel a sense of authority in various areas of consumer culture and they often enjoy sharing their knowledge with

fellow students and with their instructor Opening up the sociology classroom to discussion of these topics validates students expertise on their own life worlds Teachers in turn gain insight from the goods services and cultural expectations that shape students lives While innovative the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester A map on pages ii iii identifies core sociological concepts covered so that a traditional syllabus as well as individual lectures can easily be maintained Theory method and active learning exercises in every chapter constantly encourage the sociological imagination as well as the doing of sociology
