Sociological Framework For Patient Care:

A Sociological Framework for Patient Care Jeannette R. Foltz, Edith S. Deck, 1979 *Sociological Framework for Patient Care* Foltz, 1966-01-01 **Commodified Health Care and Lay Catholic Social Spirituality** Vivencio Ballano, 2025-07-01

This book establishes a lay social spirituality for health care practitioners that pursues the Catholic Church's social teachings on the preferential option for the poor structural sin and health care reform to address today's commodification of the health care system where maximizing profit and patient's capacity to pay become the primary consideration Applying a sociotheological approach that combines the perspectives of modern sociology Catholic social doctrines and Pope Francis's inductive synodal theology as well as drawing from secondary literature media reports and church documents it argues for the necessity of a holistic interdisciplinary and synodal lay Catholic social spirituality that is informed by Pope Francis's synodality Presenting sociological research for health care practitioners to uphold options for the poor in public health it envisions a lay spirituality that participates in civil society's health care reform agenda at the macro level and practices Christian and Ignatian discernment at the micro level as its main behavioral components This book appeals to Christian health care actors entrepreneurs and spiritual directors as well as scholars and students in sociology religion moral theology bioethics and spirituality

A Socio-cultural Perspective on Patient Safety Justin Waring,2017-11-01 This edited volume of original chapters brings together researchers from around the world who are exploring the facets of health care organization and delivery that are sometimes marginal to mainstream patient safety theories and methodologies but offer important insights into the socio cultural and organizational context of patient safety By examining these critical insights or perspectives and drawing upon theories and methodologies often neglected by mainstream safety researchers this collection shows we can learn more about not only the barriers and drivers to implementing patient safety programmes but also about the more fundamental issues that shape notions of safety alternate strategies for enhancing safety and the wider implications of the safety agenda on the future of health care delivery In so doing A Socio cultural Perspective on Patient Safety challenges the taken for granted assumptions around fundamental philosophical and political issues upon which mainstream orthodoxy relies The book draws upon a range of theoretical and empirical approaches from across the social sciences to investigate and question the patient safety movement Each chapter takes as its focus and question a particular aspect of the patient safety reforms from its policy context and theoretical foundations to its practical application and manifestation in clinical practice whilst also considering the wider implications for the organization and delivery of health care services Accordingly the chapters each draw upon a distinct theoretical or methodological approach to critically explore specific dimensions of the patient safety agenda Taken as a whole the collection advances a strong coherent argument that is much needed to counter some of the uncritical assumptions that need to be described and analyzed if patient safety is indeed to be achieved

Building on the Millennium Development Goals the UN Sustainable Development Goals are the cornerstone of the 2030 Agenda for Sustainable Development billed by the UN as An Agenda of unprecedented scope and significance The seventeen ambitious goals which are intended to be reached by 2030 are conceived as integrated indivisible and as balancing the economic social and environmental dimensions of sustainable development They are organized around five core pillars People ending poverty and hunger and ensuring that all human beings can lead fulfilling lives in a healthy and dignified environment Planet protecting the environment while ensuring sustainable use and management of natural resources Prosperity ensuring environmentally sustainable economic growth mutual prosperity and decent work for all Peace building societies that are peaceful just and inclusive and in which human rights and gender equality are respected Partnership strengthening global solidarity to address inequalities within and between countries by focusing on the needs of the most vulnerable This Research Topic addresses third Sustainable Development Goal which is to ensure healthy lives and promote wellbeing for all at all ages Progress toward this goal is measured by a number of individual targets and indicators As highlighted in the UN s most recent SDG progress report the COVID 19 pandemic has heavily impacted progress toward this goal Prior to the pandemic there had been improvements in maternal child health immunization coverage suicide rates and reductions in the incidence of communicable diseases and mortality rates from non communicable diseases The pandemic threatens to reverse or stall much of this progress As of June 2021 the global death toll from COVID 19 stood at 3 7 million with manifold wider ramifications of the disease Ninety per cent of countries are still reporting one or more disruptions to essential health services and available data indicates that the pandemic has shortened life expectancy The pandemic has also severely impacted mental health and increased waiting times for elective health services At the same time it has exacerbated inequalities at the national and international levels including access to vaccines In emerging from the pandemic and mitigating its effects the UN has placed emphasis on expanding universal health coverage and multisectoral coordination for health emergency preparedness as well as improving demographic and epidemiological data This Research Topic will address the third Sustainable Development Goal from a sociological specific perspective It will focus on how social stratification geographical location and culture impact communities health but also on groups specific health problems availability understanding and reception of medications and treatment and the functioning of primary health care as a

service aiming to influence and inform policymakers on the development of equal public health policies A specific focus will be dedicated to how disparities in gaining access to health care reproduce important social inequalities in wellbeing and quality of life Due to the COVID 19 pandemic unprecedented health economic and social challenges are threatening lives and livelihoods making the attainment of SDGs much more onerous This call invites contributions in the form of studies reviews and opinion articles from the experts to provide sustainable solutions to achieve SDGs This Research Topic welcomes papers that will provide both theoretical and empirical findings Potential issues include but are not limited to Transformations of social determinants of health including lifestyles and environments Health inequalities and interventions towards their reduction Development of demographic and epidemiological data collecting and processing Advances in the fields of health emergency preparedness and access to universal health coverage Good health and wellbeing through access to clean and green agriculture Improving crop productivity on limited land in the era of climate change and COVID 19 pandemic Application of sustainable practices in agriculture and food sectors Public health and health sector innovations during the pandemic and for the post pandemic period Tensions between national and international health policies in response to global health challenges Role of experts in making law and public policies related to the COVID 19 pandemic e g response and recovery plans programs strategies and funds Innovative co design co creation and co production schemes based on diversity of policy ideas in the environmental policy and health policy Disruptions and challenges for integrated public policies and programs on social environmental and health issues related to delivering social health and care services Opportunities criticism and ethical controversies related to digital social innovation e health plant based innovation food innovation AI ICT and 3D solutions social and service robotics smart environments gerontechnology and welfare technology Social Work in Health Care Surjit Singh Dhooper,2012 This book is a comprehensive look at the US healthcare industry from its historical development to its current status It pays particular attention to four domains of health care and the role that social workers play in these roles in the present day and in the future *Blaber's Foundations for Paramedic Practice: a Theoretical Perspective* Amanda Blaber,2018-11-19 This bestselling undergraduate level book is an ideal resource for student paramedics looking for an excellent introduction to the main theoretical subjects studied in paramedic courses and links practice issues to the all important theory base The chapters bring to life a wide variety of academic subjects making complex subjects easily readable and encouraging reflection on how theory fits with practice This 3rd edition has been expanded throughout and includes five new chapters on research and evidence based practice human factors affecting paramedic practice developing resilience caring for people with dementia and public health perspectives This new edition also covers Ethics and law for the paramedic Reflective practice and communication Professional issues including clinical audit and governance and anti discriminatory practice Psychological perspectives on health and ill health Social factors Care of vulnerable adults and end of life care Safeguarding children Managing change decision making and leadership theory

Written by a team of experienced paramedics specialist health care professionals and doctors from across the UK the book includes numerous links to practice a wide selection of case studies and examples which encourage you to stop and think and reflect upon your practice experience Blaber s Foundations for Paramedic Practice A theoretical perspective 3rd Edition is a core text for student paramedics and a valuable resource for students of all allied health professions This book should be considered essential reading material for student paramedics endeavouring to understand the vital core concepts that underpin paramedic science This clear concise and user friendly text is also invaluable for newly qualified paramedics experienced paramedics looking to continue their own professional development and those acting as Practice Educators Sarah Christopher PGC LTHE BSc Hons MA Ed FHEA MC Para Programme Lead for Paramedic Science The University of Lincoln UK

Health Care Reform Around the World Andrew Twaddle, 2002-06-30 Health care reforms around the world from Europe and North America to Africa Latin America and Asia seem to all be market oriented reforms driven by international business interests and right wing political parties There seems to be a sudden and broad concern with the efficiency of medical care with the assertion that democratically or professionally run systems are inherently inefficient Far less concern is evident for the more traditional values held regarding medical care effectiveness or quality and equity The fact is that we have little good cross national research that systematically addresses the reform issue This book addresses that problem and attempts to look at health care reforms in a number of countries representing as wide a spectrum as possible and using a common conceptual framework that allows for comparable information to be gathered and presented on each despite differing levels of socio economic development The authors agreed on a set of models that were thought to provide reasonable guidance in answering the questions of the source of pressures for reform the alternative modes of organization that have been found in the world in recent years and the direction of change among those alternatives
