Sociological Lives Matilda White Riley, 1988-09 *Sociological Lives* gives the reader a glimpse into the sociology of sociology by presenting autobiographical accounts dealing with varied aspects of the interplay between social structures and human lives The contributors reveal something of how their own sociological lives have been influenced by changing social structures and how in turn their lives are variously located in the structure and history of sociology and marked by societal

and intellectual trends spanning nearly a century The introspection and retrospection give the reader rare access to the inner experiences of some of the field's leading scholars as well as their appraisal of sociological trends and their ideas of the shape of future trends The c

Bedeian, 2018-04-17 First published in 1992 This volume compiles the autobiographies of the management discipline's most distinguished laureates Prior to this publication the available management literature provided little insight into the personal and intellectual lives the frustrations as well as the triumphs of the individuals in the management discipline Although such understanding could be conveyed in many forms perhaps the most intimate and fascinating of these for gaining behind the scenes insights is the autobiography Thus the autobiographies in this volume as in the five companion volumes offer the reader not only a glimpse of the subjective determinants and personal experiences of the management discipline's most distinguished laureates but also a deeper understanding of what management is and what it is becoming The various accounts reflect a diversity of approaches interests and experiences

Sociological Lives, 1988 **Female Students and Cultures of Violence in Cities** Julia Hall, 2015-06-12 As the economy constricts it seems living with a chronic sense of fear and anxiety is the new normal for a growing number of urban females Many females are susceptible to victimization by cumulative strands of violence in school their communities families and partnerships Exposure to violence has been shown to contribute to physical and mental health problems a propensity for substance abuse transience and homelessness and unsurprisingly poor school attendance and performance What does a girl do when there is no place to get away from this and even school is a danger zone Why have so many educators turned their attention away from the reality of violence against girls Why is there a tendency to categorize such violence as just another example of the general concept of bullying Critical educators who research the effects of current market logics on the schooling of marginalized youth have yet fully to focus on this issue This volume puts the reality of violence in the lives of urban school girls back on the map investigates answers to the above questions and presents suggestions for change

Ideology and the Social Sciences Graham Kinloch, Raj Mohan, 2000-06-30 The extent to which modern social science continues to reflect the subjective traits of authors and the contexts in which they operate rather than the objective facts or insights they claim to develop remains one of the most striking features of social science research and writing Kinloch and Mohan provide a multidisciplinary and worldwide examination of the ties between the subjective traits of social scientists the contexts in which they affect research and the

kinds of knowledge they produce The essays fall into five general topic areas major theoretical issues research as ideology the political context of ideology major factors in the academic setting and the relationship between personal biography and professional ideology This book will be of greatest concern to scholars students and researchers involved with the sociology of knowledge social theory and methods comparative social science and social problems *When the Center Is on Fire* Diane Harriford,Becky Thompson,2009-02-17 In this lively and provocative book two feminist public sociologists turn to classical social thinkers W E B Du Bois Max Weber Karl Marx and mile Durkheim to understand a series of twenty first century social traumas including the massacre at Columbine High School the 9 11 attacks the torture at Abu Ghraib prison and Hurricane Katrina Each event was overwhelming in its own right while the relentless pace at which they occurred made it nearly impossible to absorb and interpret them in any but the most superficial ways Yet each uncovered social problems that cry out for our understanding and remediation In *When the Center Is on Fire* Becky Thompson and Diane Harriford assert that classical social theorists grappled with the human condition in ways that remain profoundly relevant They show for example that the loss of double consciousness that Du Bois identified in African Americans enabled political elites to turn a blind eye to the poverty and vulnerability of many of New Orleans s citizens The authors compelling sometimes irreverent often searing interpretations make this book essential reading for students activists generations X Y and Z and everybody bored by the 6 o clock news Key Ideas in Sociology Martin Slattery,2003 Key Ideas in Sociology provides a tour d horizon of the great sociological thinkers of the last two centuries their lives their main ideas and their influence on further thinking and practice in sociology Fifty key thinkers in sociology are represented both to give a sense of history to the development of the discipline and to exemplify the range of issues that have been covered Each essay concludes with an annotated Suggested Readings list and a General Bibliography is also provided **Management Laureates** H.
