Revolution Revisited: Emmanuel Macron and the Limits of Political Change in France Susan Collard, 2025-03-04 This book provides timely assessment of the extent to which Emmanuel Macron's declared presidential goal to bring in radical transformation of French politics indeed a revolution albeit a democratic one has been achieved This analysis of his presidency provides a framework for reflection on immobilism in French politics and how enduring transformation has remained much more elusive to most of those who promised it With a wide range of underlying seemingly intractable and unresolved structural issues dominating French society the book asks whether the young disrupter has succeeded in reforming France where others had failed What can we learn about the processes of political change from analysing Macron's successes and failures in working through his ambitions for France This book will be of key interest to scholars students and followers of French politics studies and society gender studies media studies and more broadly European studies The State Tradition in Western Europe Kenneth Dyson, 2024-10-31 Why have continental European societies developed the idea of the abstract impersonal state as the fundamental institution of political rule Why on the other hand has this idea played a relatively insignificant part in the history of English speaking countries It is to such questions that this major study is addressed With clarity and conciseness Kenneth Dyson examines the fascinating tapestry of thought about public authority that the state tradition represents and identifies the major individual contributions to that tapestry In addition to offering a clear conceptualisation of state he deals with such key issues as the role of the intellectual the social function of state theories and the difficulties of accommodating state and democracy *TRAITE ELEMENTAIRE DE LEGISLATION*
