Journal of Applied Statistics

This fully revised expanded and updated Second Edition of the best selling textbook by Jane Fielding and Nigel Gilbert provides a comprehensive yet accessible guide to quantitative data analysis Designed to help take the fear out of the use of numbers in social research this textbook introduces students to statistics as a powerful means of revealing patterns in human behaviour The textbook covers everything typically included in an introductory course on social statistics

for students in the social sciences and the authors have taken the opportunity of this Second Edition to bring the data sources as current as possible. The book is full of up to date examples and useful and clear illustrations using the latest SPSS software. While maintaining the student friendly elements of the first such as chapter summaries exercises at the end of each chapter and a glossary of key terms, new features to this edition include Updated examples and references, SPSS coverage and screen shots now incorporate the current version 14.0 and are used to demonstrate the latest social statistics datasets. Additions to content include a brand new section on developing a coding frame and an additional discussion of weighting counts as a means of analyzing published statistics. *Handbook of Research Design and Social Measurement* Delbert C. Miller, Neil J. Salkind, 2002-01-16. If a student researcher had only one handbook on their bookshelf, Miller and Salkind's Handbook would certainly have to be it. With the updated material, the addition of the section on ethical issues which is so well done that I'm recommending it to the departmental representative to the university IRB and a new Part 4 on Qualitative Methods, the new Handbook is an indispensable resource for researchers.

Dan Cover, Department of Sociology, Furman University. I have observed that most instructors want to teach methodology their way to imbue the course with their own approach. Miller Salkind allows one to do this easily. The book is both conceptually strong e.g. very good coverage of
