Sociology And Socialism:

Sociology and Socialism T. B. Bottomore, 1984 **Sociology and Socialism in Contemporary China** Siu-lun Wong, 2013-11-05 First published in 1979 Sociology flourished in China during the 1930s and 1940s but with the establishment of the People's Republic of China controversies arose over the place of sociology in the process of socialist construction Siu lun Wong analyses the reasons for this change in the fortune of sociological studies in China and examines it in relation to the country's contemporary political system **The Many Faces of Socialism** Paul Hollander, 1983-01-01 Dealing with topics and perspectives generally neglected by American sociologists Hollander focuses on the nature of socialism and the reasons for Marxism's appeal among Western intellectuals In his new introduction to updated essays never before published in book form he also addresses issues of enduring interest in both socialist and pluralistic societies These include relationships between the private and the public techniques of social and political control the timeless tension between professed value and observed behavior and the way systems struggle for a sense of purpose in the contemporary world *The Socialist Industrial State* David Lane, 2023-06-14 The Socialist Industrial State 1976 examines the state socialist system taking as the central example the Soviet Union where the goals and values of Marxism Leninism and the particular institutions the form of economy and polity were first adopted and developed It then considers the historical developments differences in culture the level of economic development and the political processes of different state socialist countries around the globe *Socialism* Ludwig Von Mises, 1951 **Socialism and Saint-Simon (Routledge Revivals)** Emile Durkheim, 2009-12-15 Durkheim's study of socialism first published in English in 1959 is a document of exceptional intellectual interest and a genuine milestone in the history of sociological theory It presents us with the sociological theories of a truly first rate thinker and his extensive commentary upon another key figure in the history of sociological thought Henri Saint Simon The core of this volume contains Durkheim's presentation of Saint Simon's ideas their sources and their development **Sociology and Society Of Japan** Nozomu Kawamura, 2013-12-19 First published in 1994 Many Japanese sociologists tend to regard the existence of local communal relationships in Japan as pre modern traditional and irrational But the present author thinks of these as the primary charge of the move to post modern societies in Japan With field research carried out in Shimoda city in Shizuoka prefecture Yokoshiba town in Chiba prefecture Okaya city Suwa city and Shimosuwa town in Nagano prefecture **Crisis and Change Today** Peter Knapp, Alan Spector, 2011-01-16 Crisis and Change Today provides a solid introduction to Marxist social theory The work's unique voice is expressed in its Socratic dialogic approach structured around forty questions that students have about society and social change Topics range from theories of history economics unemployment racial oppression the state fascism the collapse of the Soviet bloc and points of convergence and difference between the dialectical approach and other approaches to social science The content and tone of the work invites students to evaluate various traditional and current explanations of social institutions and social processes

and encourages them to weigh the debates and investigate further The first edition was very well received Distinguished Scholarship Award of the Section on Marxist Sociology of the ASA and the second edition has been thoroughly revised and updated to be relevant for students today Though the first edition was written during the wake of the fall of the Berlin Wall and the collapse of the Soviet Union the growing gap between the rich and the poor and the economic crisis have generated more interest in using Marxist analysis both as a tool to analyze and understand capitalism and the weaknesses of past

Marxist praxis **The Transition from Capitalism to Socialism** John D. Stephens, 1979-09-19 The American Journal of Sociology Albion W. Small, Ellsworth Faris, Ernest Watson Burgess, Herbert Blumer, 1902 Established in 1895 as the first US scholarly journal in its field AJS remains a leading voice for analysis and research in the social sciences presenting work on the theory methods practice and history of sociology AJS also seeks the application of perspectives from other social sciences and publishes papers by psychologists anthropologists statisticians economists educators historians and political scientists

The Socialist Industrial State David Stuart Lane, 1976 Monograph on the political theory and social theory of communism with particular reference to the USSR covers the political ideology of Marxism leninism and non marxist theories relating to industrial society discusses the political system political leadership and elites social conflict political opposition and inequalities in the social status of industrial workers etc and includes comparisons with other socialist countries Bibliography pp 212 to 221 *The Socialist Industrial State* Kevin P. Lane, David Lane, 2019-06-26 Before beginning the study of the social system I have chosen to call state socialism it is necessary to define the term and to describe the societies to which it is held to apply A society may be defined as a behavioural system having three components a distinct set of central or dominant value and beliefs a number of social institutions and patterns of interactions between individuals and institutions What then are the distinguishing features of state socialism The dominant values are those of Marxism Leninism and the peculiar institutions of the system stem from the state owned means of production which determine man's relationship to property The values laid down in the charter of the society are those of socialism that is a system of beliefs focused on the ultimate perfectibility of man on the determining influence of class forces operating through the laws of historical and dialectical materialism In state socialist societies the dominant institution is the Communist Party which is considered to lead the working class and provides an authoritative interpretation of the laws of historical development which in turn legitimate the Party's own political power The appellation state focuses on the central role played by government and Party institutions in the process of these societies not only do ownership and control of the means of production legally reside with the state but it has the authority to mobilise the population to achieve the goals defined in the official charter In the patterns of interactions between institutions the state government and ruling party plays a dominant role Let us now turn from analytical concepts to consider some historical generalisations **The Annals of the American Academy of Political and Social Science**
