Sociology After Bosnia And Kosovo Recovering Justice:

Sociology After Bosnia and Kosovo Keith Doubt, 2000 This book provides a sociological account of the events in Bosnia in the 1990s including ethnic cleansing mass rape and the role of political journalists Drawing upon a diverse group of social theorists including Merton Weber and Baudrillard *Sociology After Bosnia* constructs a social understanding of the experiences of people in Bosnia and the response of Western leaders to these experiences Beyond looking at the social causes of these events Doubt sheds light on why Bosnia and Kosovo have largely been ignored by sociologists He shows why the personal and social tragedies of people in Bosnia and Kosovo and the world's tolerance of these tragedies challenge contemporary sociological knowledge Doubt argues that sociologists must be willing not only to recognize this challenge but also to respond to it in order to construct meaningfully adequate accounts of war and genocide in a postmodern era Doing so he contends may yield an important and needed reconsideration of the existing body of sociological knowledge and a revision of how this knowledge is applied

[Sociology](#), 2v William Outhwaite, Stephen Turner, 2017-10-30 The *SAGE Handbook of Political Sociology* offers a comprehensive and contemporary look at this evolving field of study The focus is on political life itself and the chapters written by a highly respected and international team of authors cover the core themes which need to be understood in order to study political life from a sociological perspective or simply to understand the political world The two volumes are structured around five key areas PART 1 TRADITIONS AND PERSPECTIVES PART 2 CORE CONCEPTS PART 3 POLITICAL IDEOLOGIES AND MOVEMENTS PART 4 TOPICS PART 5 WORLD REGIONS This future oriented and cross disciplinary

Evil and Human Agency Arne Johan Vetlesen, 2005-12-01 Evil is a poorly understood phenomenon In this provocative 2005 book Professor Vetlesen argues that to do evil is to intentionally inflict pain on another human being against his or her will and causing serious and foreseeable harm Vetlesen investigates why and in what sort of circumstances such a desire arises and how it is channeled or exploited into collective evil-doing He argues that such evil-doing pitting whole groups against each other springs from a combination of character situation and social structure By combining a philosophical approach inspired by Hannah Arendt a psychological approach inspired by C Fred Alford and a sociological approach inspired by Zygmunt Bauman and bringing these to bear on the Holocaust and ethnic cleansing in the former Yugoslavia Vetlesen shows how closely perpetrators victims and bystanders interact and how aspects of human agency are recognized denied and projected by different agents *Sarajevo Essays* Rusmir Mahmutcehajic, 2012-02-01 One of Bosnia's leading intellectuals explains the Bosnian experience by critiquing the politics and ideology that brought about the great destruction both material and spiritual of Bosnia and Herzegovina These incisive and theologically profound essays address the confrontation between the West and Islam as the author explores the realm of humanity's long standing search for the roots of evil in the dual nature of mankind to gain insight into ways of achieving peace By drawing on the Bosnian situation the author explores questions of identity and otherness knowledge and transcendence authority and authoritarianism and tradition and fundamentalism and he argues for a reconciliation between modernity and tradition for the benefit of modern coexistence not just in his native land but throughout the world The Three Yugoslavias Sabrina P. Ramet, 2006-06-06

Based on extensive archival research and fieldwork and the culmination of more than two decades of study *The Three Yugoslavias* is a major contribution to an understanding of Yugoslavia and its successor states **The Social Construction of Man, the State and War** Franke Wilmer, 2004-04-16 Combining detailed analysis with a close reading of historical narratives documentary evidence and first hand interviews this is the first book on conflict to look seriously at the issue of ethnic identity and what it means for future peace Britain and the Balkans Carole Hodge, 2006-04-18 This book traces the evolution of British policy in former Yugoslavia from the onset of war in Croatia and Bosnia to the NATO action in Kosovo and beyond examining the underlying factors which have governed Britain's Balkans policy **The Handbook of Homicide**

Simon,2007-06-30 The tools of reason offer the best hope for the international community to confront the increasing incidents of hate throughout the world A historically informed normative examination of the elements of the crime of genocide provides an excellent case study of how the law reason s handmaiden enhances understanding and improves practical ways of dealing with global injustices How should we confront hate As political activists we could resort to fighting hate with hate As concerned citizens we could consciously ignore or actively protest hate As committed educators we could put the implements and survivors of hate on display As committed scholars we could resuscitate the idea of evil As humanitarian jurists we could put individual hate mongers on trial Part I of this book makes a case for making the maximum use of reason to deal with hate This means that we should actively debate those who promote hate Further as a close look at the history of applying law to incidents of hate and violence illustrates the courtroom proves to be an excellent place to demonstrate the virtues of applying the tools of reason not to global evils but to the grave injustices of the world In Part II Simon demonstrates the power of legal analysis in enhancing our understanding of genocide probably the worst injustice imaginable A close examination of each purported element of the crime of genocide redirects misguided turns taken by international jurists Contrary to a more realistic perspective adopted at the Nuremberg trials jurists have mistakenly modeled international criminal law on national criminal law which focuses on individual responsibility However the cases of grave injustices throughout the 20th century amply demonstrate the primary collective responsibility underlying incidences of genocide The failure to prosecute criminal organizations for genocide has and will continue to have disastrous results While the Nuremberg tribunal at least disbanded the responsible Nazi organizations current war crimes tribunals have allowed organizations responsible for the Rwandan genocide to continue to wreak havoc throughout Central Africa If the international community cannot forge a common understanding of genocide then it has little hope of establishing an international legal order or a global ethics

A Bed for the Night David Rieff, 2003-10-07 Timely and controversial A Bed for the Night reveals how humanitarian organizations are often betrayed and misused and have increasingly lost sight of their purpose Drawing on firsthand reporting from war zones around the world David Rieff shows us what aid workers do in the field and the growing gap between their noble ambitions and their actual capabilities for alleviating suffering He describes how many humanitarian organizations have moved from their founding principle of neutrality which gave them access to victims to encouraging the international community to take action to stop civil wars and ethnic cleansing By calling for intervention humanitarian organizations risk being seen as taking sides in a conflict and thus jeopardizing their access to victims And by overreaching the humanitarian movement has allowed itself to be hijacked by the major powers Rieff concludes that if humanitarian organizations are to do what they do best

alleviate suffering they must reclaim their independence
