The Sociology Of Development Ray Kiely, 2014-04-04 First published in 1995 Since its establishment as a separate discipline within the social sciences in the post war world development sociology has undergone a number of theoretical transformations each of which attempted to overcome the inadequacies of the previous paradigm and a matter of academic debate but many writers agree that the discipline has reached something of an impasse This book is concerned with explaining the reasons for the impasse and suggesting ways of moving beyond it Its focus is on Marxist and related theories of development and underdevelopment since these have dominated the field for the past 20 or so years

The Global Development Crisis Benjamin Selwyn, 2014-02-07 The central paradox of the contemporary world is the simultaneous presence of wealth on an unprecedented scale and mass poverty Liberal theory explains the relationship between capitalism and poverty as one based around the dichotomy of inclusion into capitalism vs exclusion from capitalism Within this discourse the global capitalist system is portrayed as a sphere of economic dynamism and as a source of developmental opportunities for less developed countries and their populations Development policy should therefore seek to integrate the poor into the global capitalist system The Global Development Crisis challenges this way of thinking Through an interrogation of some of the most important political economists of the last two centuries Friedrich List Karl Marx Leon Trotsky Joseph Schumpeter Alexander Gerschenkron Karl Polanyi and Amarta Sen Selwyn argues that class relations are the central cause of poverty and inequality within and between countries In contrast to much development thinking which portrays the poor as reliant upon benign assistance this book advocates the concept of labour centred development Here the poor are the global labouring classes and their own collective actions and struggles constitute the basis of an alternative
