The First Men in the Moon Herbert George Wells, 1995 The most dazzling of Wells scientific romances and the last of the series that began with *The Time Machine* this edition offers the only annotated version of *The First Men in the Moon* Wells combines subtle comedy and thrilling adventure in this engaging satire of imperialism and human frailty in which the heroes invade the moon only to be captured by the ant like Selenites Wells established a new level of the science fiction genre with his fantastical but subtle writing The explanatory notes in this edition clarify Wells rich allusions and elucidate the scientific aspects of the moon voyage

The First Men in the Moon H.G. Wells, 2021-08-04 *The First Men in the Moon* H G Wells As I sit down to write here amidst the shadows of vine leaves under the blue sky of southern Italy it comes to me with a certain quality of astonishment that my participation in these amazing adventures of Mr Cavor was after all the outcome of the purest accident It might have been any one I fell into these things at a time when I thought myself removed from the slightest possibility of disturbing experiences I had gone to Lympe because I had imagined it the most uneventful place in the world Here at any rate said I I shall find peace and a chance to work And this book is the sequel So utterly at variance is destiny with all the little plans of men I may perhaps mention here that very recently I had come an ugly cropper in certain business enterprises Sitting now surrounded by all the circumstances of wealth there is a luxury in admitting my extremity

The First Men in the Moon H Wells, 2018-07-20 Of the enormous body of work produced by H G Wells more than a book a year over the course of half a century the early science fiction novels that first made him famous have proved to be the most enduring and have earned him the sobriquet the father of modern science fiction In the 1901 classic *The First Men in the Moon* Wells reveals not only a fertile imagination at ease with biological and astronomical phenomena but also a passionate concern for man and society His first men in the moon prove to be the eccentric Mr Cavor and his traveling companion Mr Bedford who navigate a gravity defying sphere through space before executing a rough landing on the moon As castaways from earth they practice lunar locomotion get lost in the wilds of a moon jungle and confront intelligent life forms living in lunar caverns Through the adventures of these two earthlings the author is able to look at mankind from a distance and in his words burlesque the

effects of specialization The result is a delightful tale filled with adventure romance and fantasy that is still capable of stirring the imagination of readers in the 21st century Wells s science fiction novels achieve a near poetry which makes them part of the popular mythology of their age the best of his work has a vitality a verve an imaginative compulsion unsurpassed by any of his contemporaries N C Nicholson author of H G Wells
