At that time, not much was known about Vitiligo and therefore nothing could be done for it other than bleaching the pigmented skin in order to create a more uniform appearance. Over time, she researched and read the limited information she could find about the condition. Eventually, she found that she could not use products that contained synthetics without suffering an adverse reaction. While in her early thirties, the youngest of her two children developed eczema. She wanted, as a mother, to make it all better. So she began researching herbal skin care. She developed an herbal soap for her son. Amazed with the results, Bell began experimenting with herbal products for her own skin. In 2009, she started Lissa's Naturals, a line of skin care products for sensitive skin. **Skin and Wound Care** Cathy Thomas Hess, 2008 Completely updated for its Sixth Edition, this handbook is the only all in one portable guide to skin and wound care with new chapters on skin care and incontinence, important new information on regulations and more than 650 dressings, drugs and other products for every type of wound. Part III contains charts of over 300 additional products. Appendices include assessment tools and multiple treatment algorithms.
