European Slave Trading in the Indian Ocean, 1500-1850 Richard B. Allen, 2015-01-01 Between 1500 and 1850 European traders shipped hundreds of thousands of African Indian Malagasy and Southeast Asian slaves to ports throughout the Indian Ocean world The activities of the British Dutch French and Portuguese traders who operated in the Indian Ocean demonstrate that European slave trading was not confined largely to the Atlantic but must now be viewed as a truly global phenomenon European slave trading and abolitionism in the Indian Ocean also led to the development of an increasingly integrated movement of slave convict and indentured labor during the late eighteenth and early nineteenth centuries the

consequences of which resonated well into the twentieth century Richard B Allen s magisterial work dramatically expands our understanding of the movement of free and forced labor around the world Drawing upon extensive archival research and a thorough command of published scholarship Allen challenges the modern tendency to view the Indian and Atlantic oceans as self contained units of historical analysis and the attendant failure to understand the ways in which the Indian Ocean and Atlantic worlds have interacted with one another In so doing he offers tantalizing new insights into the origins and dynamics of global labor migration in the modern world **Language and Civilization Change in South Asia** Maloney,1978-06

The Anti-Slavery Project Joel Quirk,2011-05-26 It is commonly assumed that slavery came to an end in the nineteenth century While slavery in the Americas officially ended in 1888 millions of slaves remained in bondage across Africa Asia and the Middle East well into the first half of the twentieth century Wherever laws against slavery were introduced governments found ways of continuing similar forms of coercion and exploitation such as forced bonded and indentured labor Every country in the world has now abolished slavery yet millions of people continue to find themselves subject to contemporary forms of slavery such as human trafficking wartime enslavement and the worst forms of child labor The Anti Slavery Project From the Slave Trade to Human Trafficking offers an innovative study in the attempt to understand and eradicate these ongoing human rights abuses In The Anti Slavery Project historian and human rights expert Joel Quirk examines the evolution of political opposition to slavery from the mid eighteenth century to the present day Beginning with the abolitionist movement in the British Empire Quirk analyzes the philosophical economic and cultural shifts that eventually resulted in the legal abolition of slavery By viewing the legal abolition of slavery as a cautious first step rather than the end of the story he demonstrates that modern anti slavery activism can be best understood as the latest phase in an evolving response to the historical shortcomings of earlier forms of political activism By exposing the historical and cultural roots of contemporary slavery The Anti Slavery Project presents an original diagnosis of the underlying causes driving one of the most pressing human rights problems in the world today It offers valuable insights for historians political scientists policy makers and activists seeking to combat slavery in all its forms *Slavery and Colonial Rule in French West Africa* Martin A.

Klein,1998-07-28 Martin Klein s book is a history of slaves during the nineteenth and twentieth centuries in three former French colonies It investigates the changing nature of local slavery over time and the evolving French attitudes towards it through the phases of trade conquest and colonial rule The heart of the study focuses on the period between 1876 and 1922 when a French army composed largely of slave soldiers took massive numbers of slaves in the interior while in areas near the coast hesitant actions were taken against slave raiding trading and use After 1900 the French withdrew state support of slavery and as many as a million slaves left their masters A second exodus occurred after World War I when soldiers of slave origin returned home The renegotiation of relationships between those who remained and their masters carries the story into the contemporary world **African Re-Genesis** Jay B Haviser, Kevin C MacDonald,2016-07 An exploration of the

archaeology of the African diaspora **Slavery and the Birth of an African City** Kristin Mann, 2007-09-26 As the slave trade entered its last illegal phase in the 19th century the town of Lagos on West Africa's Bight of Benin became one of the most important port cities north of the equator. *Slavery and the Birth of an African City* explores the reasons for Lagos's sudden rise to power. By linking the histories of international slave markets to those of the regional suppliers and slave traders, Kristin Mann shows how the African slave trade forever altered the destiny of the tiny kingdom of Lagos. This magisterial work uncovers the relationship between African slavery and the growth of one of Africa's most vibrant cities.

Transition from Slavery in Zanzibar and Mauritius Vijayalakshmi Teelock, Satyendra Peerthum, 2016-12-29 This book presents a comparative history of slavery and the transition from slavery to free labour in Zanzibar and Mauritius within the context of a wider comparative study of the subject in the Atlantic and Indian Ocean worlds. Both countries are islands with roughly the same size of area and populations, a common colonial history, and both are multicultural societies. However, despite inhabiting and using the same oceanic space, there are differences in experiences and structures which deserve to be explored. In the nineteenth century, two types of slave systems developed on the islands: while Zanzibar represented a variant of an Indian Ocean slave system, Mauritius represented a variant of the Atlantic system, yet both flourished when the world was already under the hegemony of the global capitalist mode of production. This comparison therefore has to be seen in the context of their specific historical conjunctures and the types of slave systems in the overall theoretical conception of modes of production within which they manifested themselves, a concept that has become unfashionable but which is still essential. The starting point of many such efforts to compare slave systems has naturally been the much studied slavery in the Atlantic region, which has been used to provide a paradigm with which to study any type of slavery anywhere in the world. However, while Mauritian slavery was 100 per cent colonial slavery, slavery in Zanzibar has been described as Islamic slavery. Both established plantation economies, although with different products: Zanzibar with cloves and Mauritius with sugar, and in both cases the slaves faced a potential conflictual situation between former masters and slaves in the post-emancipation period. Another interesting focus in this book is the largely unresearched subject of female slaves. In Zanzibar, the privileged role of the *suria*, whose status was defined by Sharia law, was explored, and in Mauritius, the manumission of female slaves was explored as they formed the majority among manumitted slaves. The book will certainly prove helpful to those involved in comparing the Atlantic slave system with that of the Indian Ocean for the better understanding of both. **Critical**

Readings on Global Slavery Damian Alan Pargas, Felicia Roşu, 2017-12-05 The study of slavery has grown strongly in recent years as scholars working in several disciplines have cultivated broader perspectives on enslavement in a wide variety of contexts and settings. *Critical Readings on Global Slavery* offers students and researchers a rich collection of previously published works by some of the most preeminent scholars in the field. With contributions covering various regions and time periods, this anthology encourages readers to view slave systems across time and space as both ubiquitous and

interconnected and introduces those who are interested in the study of human bondage to some of the most important and widely cited works in slavery studies *Slavery and Colonial Rule in Africa* Martin A. Klein, Suzanne Miers, 2013-05-13 This book brings together a series of new case studies some by young scholars others by widely published authors All are based on original research and designed to enhance our understanding of the process of the abolition of slavery in Africa at the grass roots level Part of the studies are on new areas of interest such as the German colonies and the Algerian Sahara Others throw new light on questions already debated such as emancipation of the Gold Coast Some focus on the impact of abolition on particular groups of slaves such as the royal slaves in Nigeria and concubines in Morocco Among the themes considered is the role of slaves in their own emancipation the short and long term results of abolition the role of the League of Nations and the vestiges of slavery in Africa today
