Slavery And African Ethnicities In The Americas:

Slavery and African Ethnicities in the Americas Gwendolyn Midlo Hall, 2005 Explores the persistence of African ethnic identity among the enslaved in North America the Caribbean and South America over four hundred years of the Atlantic slave trade Investigates such issues as who profited from the Atlantic slave trade how Africans were defined and named by slave traders and how the enslaved identified themselves Traces the linguistic economic and cultural ties shared by large numbers of enslaved Africans

Slavery and African Ethnicities in the Americas Gwendolyn Midlo Hall, 2009-11-05 Enslaved peoples were brought to the Americas from many places in Africa but a large majority came from relatively few ethnic groups Drawing on a wide range of materials in four languages as well as on her lifetime study of slave groups in the New World Gwendolyn Midlo Hall explores the persistence of African ethnic identities among the enslaved over four hundred years of the Atlantic slave trade Hall traces the linguistic economic and cultural ties shared by large numbers of enslaved Africans showing that despite the fragmentation of the diaspora many ethnic groups retained enough cohesion to communicate and to transmit elements of their shared culture Hall concludes that recognition of the survival and persistence of African ethnic identities can fundamentally reshape how people think about the emergence of identities among enslaved Africans and their descendants in the Americas about the ways shared identity gave rise to resistance movements and about the elements of common African ethnic traditions that influenced regional creole cultures throughout the Americas

African Slavery in Latin America and the Caribbean Herbert S. Klein, Ben Vinson III, 2007-09-06 This is an original survey of the economic and social history of slavery of the Afro American experience in Latin America and the Caribbean The focus of the book is on the Portuguese Spanish and French speaking regions of continental America and the Caribbean It analyzes the latest research on urban and rural slavery and on the African and Afro American experience under these regimes It approaches these themes both historically and structurally The historical section provides a detailed analysis of the evolution of slavery and forced labor systems in Europe Africa and America The second half of the book looks at the type of life and culture which the slaves experienced in these American regimes The first part of the book describes the growth of the plantation and mining economies that absorbed African slave labor how that labor was used and how the changing international economic conditions affected the local use and distribution of the slave labor force Particular emphasis is given to the evolution of the sugar plantation economy which was the single largest user of African slave labor and which was established in almost all of the Latin American colonies Once establishing the economic context in which slave labor was applied the book shifts focus to the Africans and Afro Americans themselves as they passed through this slave regime The first part deals with the demographic history of the slaves including their experience in the Atlantic slave trade and their expectations of life in the New World The next part deals with the attempts of the African and American born slaves to create a viable and autonomous culture This includes their adaptation of European languages religions and even kinship systems to their own needs It also

examines systems of cooptation and accommodation to the slave regime as well as the type and intensity of slave resistances and rebellions A separate chapter is devoted to the important and different role of the free colored under slavery in the various colonies The unique importance of the Brazilian free labor class is stressed just as is the very unusual mobility experienced by the free colored in the French West Indies The final chapter deals with the differing history of total emancipation and how ex slaves adjusted to free conditions in the post abolition periods of their respective societies The patterns of post emancipation integration are studied along with the questions of the relative success of the ex slaves in obtaining control over land and escape from the old plantation regimes

The End of Slavery in Africa and the Americas Ulrike Schmieder,Katja Füllberg-Stolberg,Michael Zeuske,2011 For centuries social and economic relations within the Atlantic space were dominated by slavery and the transatlantic slave trade from Africa to the Americas By the slowly and arduously achieved end of this trade slave labour in the Americas was replaced in many cases by other forms of coerced labour of African Caribbean people or Indian Chinese African or European immigrants This book focuses on the transformation of societies after the slave trade and slavery in a comparative intercontinental perspective It combines micro and macro historical approaches and looks at the agency of slaves missionaries abolitionists state officials seamen and soldiers

The SAGE Encyclopedia of African Cultural Heritage in North America Mwalimu J. Shujaa,Kenya J. Shujaa,2015-07-13 The Encyclopedia of African Cultural Heritage in North America provides an accessible ready reference on the retention and continuity of African culture within the United States Our conceptual framework holds first that culture is a form of self knowledge and knowledge about self in the world as transmitted from one person to another Second that African people continuously create their own cultural history as they move through time and space Third that African descended people living outside of Africa are also contributors to and participate in the creation of

Smith, Peter S Carmichael, Timothy Lockley, Jonathan Daniel Wells, 2022-01-26 First published in 2009 From the founding of Jamestown to the American Civil War slavery and abolition shaped American national regional and racial identities This four volume reset edition draws together rare sources relating to American slavery systems Volume 1 includes a general introduction and the colonial period covering slavery and the law slave resistance religion and slavery and Pro Slavery Anti Slavery and the Revolutionary Impulse *What is Slavery?* Brenda E. Stevenson, 2015-08-06 What is slavery It seems a simple enough question Despite the long history of the institution and its widespread use around the globe many people still largely associate slavery outside of the biblical references in the Old Testament to the enslavement of Africans in America particularly the United States Slavery proved to be essential to the creation of the young nation's agricultural and industrial economies and profoundly shaped its political and cultural landscapes even until today What Is Slavery focuses on the experience of enslaved black people in the United States from its early colonial period to the dawn of that destructive war that was as much about slavery as anything else The book begins with a survey of slavery across time and place from the ancient world to the beginning of the Atlantic slave trade and then describes the commerce in black laborers that ushered in market globalization and brought more than 12 million Africans to the Americas before finally examining slavery in law and practice For those who are looking for a concise and comprehensive treatment of such topics as slave labor culture resistance family and gender relations the domestic slave trade the regionalization of the institution in the expanding southern and southwestern frontiers and escalating abolitionist and proslavery advocacies this book will be essential reading **Indian Slavery in Colonial America** Alan Galloway, 2009-01-01 European enslavement of American Indians began with Christopher Columbus's arrival in the New World The slave trade expanded with European colonies and though African slave labor filled many needs huge numbers of America's indigenous peoples continued to be captured and forced to work as slaves Although central to the process of colony building in what became the United States this phenomena has received scant attention from historians Indian Slavery in Colonial America edited by Alan Galloway examines the complicated dynamics of Indian enslavement How and why Indians became both slaves of the Europeans and suppliers of slavery's victims is the subject of this book The essays in this collection use Indian slavery as a lens through which to explore both Indian and European societies and their interactions as well as relations between and among Native groups **The Culture and Commerce of the Early American Novel** Stephen Shapiro, 2010-11 Taking his

cue from Philadelphia born novelist Charles Brockden Brown's *Annals of Europe and America* which contends that America is shaped most noticeably by the international struggle between Great Britain and France for control of the world trade market. Stephen Shapiro charts the advent, decline and reinvigoration of the early American novel. That the American novel sprang so unexpectedly into published existence during the 1790s may be a symptom of the beginning of the end of Franco-British supremacy and a reflection of the power of a middle class riding the crest of a new world economic system. Shapiro's world systems approach is a relatively new methodology for literary studies but it brings two particularly useful features to the table. First it refines the conceptual frameworks for analyzing cultural and social history such as the rise in sentimentalism in relation to a long wave economic history of global commerce. Second it fosters a new model for a comparative American Studies across time. Rather than relying on contiguous time, a world systems approach might compare the cultural production of one region to another at the same location within the recurring cycle in an economic reconfiguration. Shapiro offers a new way of thinking about the causes for the emergence of the American novel that suggests a fresh way of rethinking the overall paradigms shaping American Studies.

Women and Migration(s) II Kalia Brooks, Cheryl Finley, Ellyn Toscano, Deborah Willis, 2022-11-14. *Women and Migration(s) II* draws together contributions from scholars and artists showcasing the breadth of intersectional experiences of migration from diaspora to internal displacement. Building on conversations initiated in *Women and Migration: Responses in Art and History*, this edited volume features a range of written styles from memoir to artists' statements to journalistic and critical essays. The collection shows how women's experiences of migration have been articulated through art, film, poetry and even food. This varied approach aims to aid understanding of the lived experiences of home loss, family belonging, isolation, borders and identity issues salient both in experiences of migration and in the epochal times in which we find ourselves today. These are stories of trauma and fear but also stories of the strength, perseverance, hope and even joy of women surviving their own moments of disorientation, disenfranchisement and dislocation. This collection engages with current issues in an effort to deepen understanding, encourage ongoing reflection and build a more just future. It will appeal to artists and scholars of the humanities, social sciences and public policy as well as general readers with an interest in women's experiences of migration.
