Vicksburg fell on July 4 triumph would have been fleeting if not for the US Army Medical Department and its personnel By centering soldiers health and medical care in the Union army s fight to take Vicksburg Lindsay Rae Smith Privette offers a fresh perspective on the environmental threats logistical challenges and interpersonal conflicts that shaped the campaign and siege In doing so Privette shines new light on the development of the army s medical systems as officers learned to adapt to their circumstances and prove themselves responsible stewards of soldiers bodies **Oath of Deception** Jennifer Anne Davis,2018-06-05

Hygienic Review Herbert M. Shelton,1996-09 Midnight in America Jonathan W. White,2017-02-02 The Civil War brought many forms of upheaval to America not only in waking hours but also in the dark of night Sleeplessness plagued the Union and Confederate armies and dreams of war glided through the minds of Americans in both the North and South Sometimes their nightly visions brought the horrors of the conflict vividly to life But for others nighttime was an escape from the hard realities of life and death in wartime In this innovative new study Jonathan W White explores what dreams meant to Civil War era Americans and what their dreams reveal about their experiences during the war He shows how Americans grappled with their fears desires and struggles while they slept and how their dreams helped them make sense of the confusion despair and loneliness that engulfed them White takes readers into the deepest darkest and most intimate places of the Civil War connecting the emotional experiences of soldiers and civilians to the broader history of the conflict confirming what poets have known for centuries there are some truths that are only revealed in the world of darkness

The Fate of the New Man Claire McCallum, 2018-07-03 Between 1945 and 1965 the catastrophe of war and the social and political changes it brought in its wake had a major impact on the construction of the Soviet masculine ideal Drawing upon a wide range of visual material The Fate of the New Man traces the dramatic changes in the representation of the Soviet man in the postwar period It focuses on the two identities that came to dominate such depictions in the two decades after the end of the war the Soviet man's previous role as a soldier and his new role in the home once the war was over In this compelling study Claire McCallum focuses on the reconceptualization of military heroism after the war the representation of contentious subjects such as the war damaged body and bereavement and postwar changes to the depiction of the Soviet man as father McCallum shows that it was the Second World War rather than the process of de Stalinization that had the greatest impact on the masculine ideal proving that even under the constraints of Socialist Realism the physical and emotional devastation caused by the war was too great to go unacknowledged The Fate of the New Man makes an important contribution to Soviet masculinity studies McCallum's research also contributes to broader debates surrounding the impact of Stalin's death on Soviet society and on the nature of the subsequent Thaw as well as to those concerning the relationship between Soviet culture and the realities of Soviet life This fascinating study will appeal to scholars and students of Soviet history masculinity studies and visual culture studies

The Shape of Motion Jordan Schonig, 2022 In The Shape of Motion Cinema and the Aesthetics of Movement author Jordan Schonig provides a new way of theorizing cinematic motion by examining cinema's motion forms structures patterns

or shapes of movement unique to the moving image From the wild and unpredictable motion of flickering leaves and swirling dust that captivated early spectators to the pulsing abstractions that emerge from rapid lateral tracking shots to the bleeding pixel formations caused by the glitches of digital video compression each motion form opens up the aesthetics of movement to film theoretical inquiry By pairing close analyses of onscreen movement in narrative and experimental films with concepts from Maurice Merleau Ponty Henri Bergson and Immanuel Kant Schonig rethinks longstanding assumptions within film studies such as indexical accounts of photographic images and analogies between the camera and the human eye Arguing against the intuition that cinema reproduces our natural perception of motion The Shape of Motion shows how cinema's motion forms do not merely transpose the movements of the world in front of the camera they transform them
