## **Small Animal Dentistry:**

**Small Animal Dentistry** Cedric Tutt, 2008-04-15 Dentistry is a relatively new and expanding area for vets. For many years it has been overlooked or inadequately taught at veterinary colleges leaving students and vets with little or no training in this discipline. Now the interest in this area has increased and dentistry has become an important part of everyday veterinary practice. Designed to be a how to do book, this practical manual guides the reader through all the routine dentistry procedures carried out in general practices. With over 350 colour pictures and special sections on practical tips and trouble shooting, **Small Animal Dentistry** is an essential easy access reference tool for veterinary students and veterinary practitioners alike.

**Small Animal Dental Procedures for Veterinary Technicians and Nurses** Jeanne R. Perrone, 2012-11-20 **Small Animal Dental Procedures for Veterinary Technicians and Nurses** is a comprehensive procedures based resource for technicians and nurses involved with all aspects of canine, feline and exotic animal dentistry. Heavily illustrated and clinically oriented, this training manual provides step by step instructions on the oral exam, anesthesia, cleaning and radiology, as well as the necessary background on dental anatomy, common diseases and terminology. Each chapter includes learning objectives and key terms to promote retention, and a companion website provides review questions, training exercises, images from the book and additional images in PowerPoint, chapter glossaries and forms available for download. Fully authored by Veterinary Technician Specialists in Dentistry, the book covers all aspects of veterinary dentistry that a technician will encounter in daily practice, with a special emphasis on the technician's role relative to dental procedures. With extensive full color pictures, review questions and glossary terms, **Small Animal Dental Procedures for Veterinary Technicians and Nurses** is equally useful for veterinary technician or nursing students, technicians or nurses in practice, and those pursuing their specialty certification in veterinary dentistry.
