Smile Of Truth:

Why Smile? Marianne LaFrance, 2013-01-22 A charming thoughtful book one that makes a powerful case for smiles as social acts with consequences Boston Sunday Globe When someone smiles the effects are often positive a glum mood lifts an apology is accepted a deal is struck a flirtation begins But change the circumstances or the cast of a smile and the terms shift a rival grins to get under your skin a bully's smirk unsettles his mark Marianne LaFrance called the world's expert on smiles investigates the familiar grin and finds that it is not quite as simple as it first appears LaFrance shows how the smile says much more than we realize or care to admit not just cheerful expressions smiles are social acts with serious consequences Drawing on her research conducted at Yale University and Boston College as well as the latest studies in psychology medicine anthropology biology and computer science LaFrance explores the compelling science behind the smile Who shows more fake smiles popular kids or unpopular kids Is it good or bad when a bereaved person smiles These are some of the questions answered in this groundbreaking and insightful work To read it is to learn just how much the smile influences our lives and our relationships

Ambrosio,2012-02-01 Reading Dante s Commedia alongside Jacques Derrida s later religious writings Francis J Ambrosio explores what these works reveal about religion as a fundamental dynamic of human existence about freedom and responsibility and about the significance of writing itself Ambrosio argues that both the many telling differences between them and the powerful bonds that unite them across centuries show that Dante and Derrida share an identity as religious writers that arises from the human experiences of faith hope and love in response to the divine mystery of being human For both Dante and Derrida Ambrosio contends scriptural religion reveals that the paradoxical tension of freedom and absolute responsibility must lead to the mystery of forgiveness a secret that these two share and faithfully keep by surrendering to its necessity to die so as always to begin again anew
