## **Social Context Of Theology A Methodological Enquiry:**

**The Social Context of Theology** Robin Gill,1975    **Theology in a Social Context** Robin Gill,2012 Over the last thirty years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology John Milbank dismissed the sociology of religion as a radically secularising discipline and championed an approach to theology now known as radical orthodoxy yet a decade later radical orthodoxy has lost a good deal of its support with critics arguing that it is too circular and enclosed within its own premises The time is now right to revisit the dialogue between theologians and sociologists prior to Milbank s intervention In this new trilogy on Sociological Theology Robin Gill makes a renewed contribution to mapping of three abiding ways of appropriately relating theology and interactionist sociology namely the social context of theology the social determinants of theology and the social significance of theology

## **The Social Context of Theology** Robin Gill,1975    **Religion, spirituality and the social sciences** Basia Spalek,Alia Imtoual,2008-09-03

A growing number of people are claiming or reclaiming a religious or spiritual identity for themselves Yet in contemporary Western societies the frameworks of understanding that have developed within the social science disciplines and which are used to analyse data are secular in nature and so may be inappropriate for investigating some aspects of religion spirituality and faith and how these intersect with individuals lives This edited collection addresses important theoretical and methodological issues to explore ways of engaging with religion and spirituality when carrying out social science research Divided into three sections the book examines the notion of secularism in relation to contemporary western society including a focus upon secularisation explores how the values underpinning social scientific enquiry might serve to marginalise religion and spirituality and reflects on social science research methodologies when researching religion and spirituality With international contributions from key academics in the fields of religious studies cultural studies political science criminology sociology health and social policy this engaging book will provide social science students educators researchers and practitioners with an essential overview of key debates around secularism faith spirituality and social science research

**Sociology and Theology** David A. Martin,John O. Mills,W.S.F. Pickering,2003-12-01 This study brings together two disciplines now more and more considered being conjuncted Both sociology and theology give an account of the human condition but the majority of sociologists and theologians have dismissed each other s views as irrelevant Updated reprint of the book with the same title published in 1980 by The Harvester Press Contributors John Orme Mills Eileen Barker Christopher Harris David Martin William Pickering W Donald Hudson Robin Gill Gregory Baum Timothy Radcliffe Antoine Lion Robert Towler    **What is Social-scientific Criticism?** John Hall Elliott,Dan Otto Via,1993 This book gives a clearly written authoritative introduction to social scientific criticism of the New Testament including the rise of this method its practitioners and the focal points of their work how the method is applied to the interpretation of the biblical text and the

presuppositions and procedures of the method Four appendices glossary two bibliographies     *Doing Contextual Theology*  
Angie Pears,2009-09-18 Christian theology like all forms of knowledge thinking and practice arises from and is influenced by the context in which it is done In Doing Contextual Theology Angie Pears demonstrates the radically contextual nature of Christian theology by focusing on five forms of liberation theology Latin American Liberation Theologies Black Theologies Feminist Informed Theologies Sexual Theologies Body Theologies Pears analyses how each of these asserts a clear and persistent link to the Christian tradition through The Bible and Christology and discusses the implications of contextual and local theologies for understanding Christianity as a religion Moreover she considers whether fears are justified that a radically contextual reading of Christian theologies leads to a relativist understanding of the religion or whether these theologies share some form of common identity both despite and because of their contextual nature Doing Contextual Theology offers students a clear and up to date survey of the field of contemporary liberation theology and provides them with a sound understanding of how contextual theology works in practice     *Second-Generation African Pentecostals in the West* Caleb Opoku Nyanni,2021-01-11 The rise of African Pentecostal and Charismatic churches in the West has become a growing phenomenon and a starring feature in many social religious and political conversations Most of these discussions are generally centered on the first generation churches and their missionary attempt to evangelize the West In this book Caleb Nyanni offers a fresh insight into the African diaspora church from the perspective of the growing second generation members and their contributions to the life of the church He explores the changing nature of the African diaspora

Pentecostalism by paying close attention to the Church of Pentecost in the United Kingdom which serves as a case study The book explores the frustrations challenges opportunities and culture of the second generation and examines what they bring to Pentecostalism in general     *Interruption and Imagination* Kjetil Fretheim,2016-12-22 As we are faced with recurring crises financial migration climate etc there is a need to reconsider public theology as both a practice and a field of study By discussing public statements made by Christians faced with different kinds of crisis this book contributes to the development and understanding of public theology The public statements addressed are three kairos documents The Kairos Document from South Africa in the mid 1980s The Road to Damascus document from authors in developing countries issued in 1989 and the Palestinian Kairos Document from 2009 The discussion is structured around three problems of public theology social analysis politics and ethics and language and voice Fretheim suggests a constructionist understanding of public theology a public theology that interrupts current debates and expands the imagination of the public sphere As public theology is concerned with public life and social issues Interruption and Imagination will be of interest to scholars and students of theology political science sociology and religious studies as well as practitioners policymakers and professionals in the public sector civil society churches and Christian organizations     *Revelation and Concealment of Christ* Saeed Hamid-Khani,2021-03-16 The elusive disposition of John s language has been noted by biblical scholars throughout the

history of New Testament studies The Fourth Gospel is seen as so simple to grasp and yet often pointing beyond itself and beckoning the reader to read deeper Various socio linguistic studies have explained this feature as the reflection of the sectarian tendencies in the Johannine Christianity In his study Saeed Hamid Khani questions these approaches as inadequate In turn he examines John's language within an exegetical and theological framework He argues that the *Sitz im Leben* of Johannine language was an environment in which the Hebrew Scriptures were the dominant conceptual force for both the Jews and the Christians In this context he argues that the essential function of John's enigmatic language is wedded to the Evangelist's purpose in writing the Gospel namely a steadfast focus upon setting forth that Jesus is the Christ according to the witness of Israel's Scriptures It is here in these echoes and thematic allusions to the Scriptures that we find the answer to the function and significance of John's unique language i.e Jesus is the Messiah the Saviour of the world and he is the visible image of the invisible God the embodiment of the self revelation of God according to the Scriptures However these truths are concealed from the undiscerning and are only revealed by the spirit of God to those who are born of God     *The Real Church* Harald Hegstad,2013-02-15 What does it mean to believe in the church What is the relationship between the church we believe in and the church we experience Is there an invisible church that is different from the visible This book is an argument for an ecclesiology of the visible The only church the real church is a concrete reality made up of people just like any other fellowship What distinguishes it as church is the presence of the triune God among those who gather in the name of Jesus making it a sign and anticipation of the fellowship of the kingdom of God From this premise Dr Hegstad analyzes such issues as the relationship between church and world mission and diakonia church as fellowship and organization ministries in the church worship and the unity of the church as well as discussing the relationship between a sociological and a theological understanding of the church     *The Letters of Paul* ,2011-09-01 The Interpreting Biblical Texts series presents a concise edition covering the seven undisputed epistles of Paul In this volume Charles Cousar is primarily concerned not with the man Paul and his life and work but with his surviving letters Part 1 introduces methods in reading the Pauline letters Part 2 attends to the critical themes emerging in the letters the decisiveness of Jesus Christ and old versus new life Part 3 discusses the other six letters bearing Paul's name that appear in the New Testament     *Catholic Citizens in the Third Reich* Donald J. Dietrich,1988-01-01 Why did some German Catholics support and others oppose the police state that was the Third Reich In this insightful analysis Donald Dietrich explores the social psychological dynamics behind the religious reactions of German Catholics to political and moral issues during the late Weimar and Third Reich eras Along with many other Germans Catholics were enmeshed in a cruel dilemma Assenting to Nazi ideals would mean a loss of moral credibility opposing them would result in persecution Dietrich shows how Catholics accommodated and sometimes resisted totalitarianism and the Final Solution Three groups of Catholics are examined the hierarchy the theologians and the laity The literature on Nazi Germany is enormous But this is the first analysis of the dynamics shaping individual motivations

and group response to Nazi ideals This comprehensive work fuses results derived from social science research with the massive amount of historical data available It is an interdisciplinary study relating religious values to patterns of behavior an issue that retains its significance today
