## **Social Motivation Understanding Childrens School Adjustment:**

*Social Motivation* Jaana Juvonen, Kathryn R. Wentzel, 1996-09-13 *Social Motivation* first published in 1997 examines the essential interaction between social functioning and success at school

**Handbook of Motivation at School** Kathryn R. Wentzel, David B. Miele, 2009-09-10 The *Handbook of Motivation at School* presents the first comprehensive and integrated compilation of theory and research on children's motivation at school. It covers the major theoretical perspectives in the field as well as their application to instruction, learning, and social adjustment at school. Key Features: Comprehensive: no other book provides such a comprehensive overview of theory and research on children's motivation at school. Theoretical: Applied: the book provides a review of current motivation theories by the developers of those theories as well as attention to the application of motivation theory and research in classrooms and schools. Chapter Structure: chapters within each section follow a similar structure so that there is uniformity across chapters. Commentaries: each section ends with a commentary that provides clear directions for future research.

**Handbook of Reading Disability Research** Anne McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities, this comprehensive *Handbook* extends current discussion and thinking beyond a narrowly defined psychometric perspective. Emphasizing that learning to read proficiently is a long-term developmental process involving many interventions of various kinds, all keyed to individual developmental needs, it addresses traditional questions: What is the nature or causes of reading disabilities? How are reading disabilities assessed? How should reading disabilities be remediated? To what extent is remediation possible, but from multiple or alternative perspectives? Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research, the volume is on the front line in exploring the relation of reading disability to learning and language, to poverty and prejudice, and to instruction and schooling. The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities. Throughout, their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers.

**Advances in Child Development and Behavior** Robert V. Kail, 2003-10-02 *Advances in Child Development and Behavior* is intended to ease the task faced by researchers, instructors, and students who are confronted by the vast amount of research and theoretical discussion in child development and behavior. The series provides scholarly technical articles with critical reviews, recent advances in research, and fresh theoretical viewpoints. Volume 31 discusses children's understanding of photographs as spatial and expressive representations, school relationships and their influence on behavior, literacy and the role of letter names, emotion, morality, and self-working memory in infancy, differentiated sense of the past and the future, cognitive flexibility, and language abilities, understanding children with medical and physical disorders, bio-ecological environment and development, and early literacy.
