Social Policy Fiona Williams, 2021-06-22 Welfare states face profound challenges Widening economic and social inequalities have been intensified by austerity politics sharpened by the rise in ethno nationalism and exposed by the COVID 19 pandemic At the same time recent decades have seen a resurgence of social justice activism at both the local and the transnational level Yet the transformative power of feminist anti racist and postcolonial decolonial thinking has become relatively marginal to core social policy theory while other critical approaches around disability sexuality migration age and the environment have found recognition only selectively This book provides a much needed new analysis of this complex landscape drawing together critical approaches in social policy with intersectionality and political economy Fiona Williams contextualizes contemporary social policies not only in the global crisis of finance capitalism but also in the interconnected global crises of care ecology and racialized borders These shape and are shaped at national scale by the intersecting dynamics of family nation work and nature Through critical assessment of these realities the book probes the ethical prefigurative and transformative possibilities for a future welfare commons This significant intervention will animate social policy thinking teaching and research It will be essential reading for anyone wanting to understand the complexities of social policy for the years ahead

Stubbs, 2014-05-02 This book discusses key issues in global and regional social policy exploring Bob Deacon's pioneering approach to regulation rights and redistribution. The Political and Social Construction of Poverty Romano, Serena, 2014-01-29 Poverty is not a neutral phenomenon nor are social inclusion programmes neutrally conceived, designed and implemented. Their ultimate nature is built upon ideas, values, actors, politics and economic constraints. This topical book is one of the first to examine the social and political construction of anti-poverty programmes in Central Eastern Europe and their transformation from communist rule to the current economic crisis. It covers the approach towards the 'parasite poor' through to Guaranteed Minimum Income Schemes and illustrates how the distinction between different categories of deserving and undeserving poor has evolved over the years as the result of changing paradigms combined with the pressure exerted by domestic and international actors: the European Union and the World Bank among others. This text breaks new ground for social policy students and scholars interested in understanding how differently post-communist welfare states have represented legitimised and dealt with poverty, need and social justice in accordance with divergent normative frameworks constructed at national level.

Advanced Introduction to Social Protection Midgley, James, 2022-03-08 Written by James Midgley, a leading authority on international social policy and social development, this *Advanced Introduction* offers a concise, readable and wide-ranging overview of how protection schemes such as social assistance, social insurance, employer mandates and social allowances promote social welfare by meeting people's income needs and improving their living standards. It defines the field, traces its historical evolution, discusses the contribution of theories and ideologies and examines its impact on poverty.

European Solidarities Lars Magnusson, 2007 This volume discusses tensions between a market Europe and a social Europe, between politics of serial dumping and politics of social protectionism and between Europe as a possibility and as a threat.

Magyar Women Chris Corrin, 1994-02-12 Vast changes within East and Central Europe since 1989 have brought countries in this region, including Hungary, under sharp focus. This important study of women's situation within the changing context of Hungarian society gives a comprehensive overview of the various factors which make up women's lives. Rather than experiencing social radicalism in the 1960s, women in Hungary were experiencing the full effects of their rigid authoritarian statist policies. What this meant for their everyday lives is considered in terms of women's paid and unpaid work, family ideologies, social policy innovations, women's health care, changing attitudes and women's hopes and aspirations. Against the background of new openings on the political scene, questions concerning civil society and space for women's agendas are vital.
