Pensions are under scrutiny worldwide in view of increasing life expectancy and adverse demographics This volume offers an overview of unfunded individual accounts introduced in the mid 1990s in Italy Latvia Poland and Sweden in order to assure a successful adulthood and an even better start for the off springs **China's Social Policy** Kinglun Ngok, Chak Kwan Chan, 2015-10-23 This book critically and comprehensively examines China s welfare development amidst its rapid economic growth and increasing social tensions It covers the main policy areas from China s inception of the open door policy in 1978 to the new administration of Jinping Xi and Keqiang Li including social security health education housing employment rural areas

migrant workers children and young people disabled people old age pensions and non governmental organisations In particular it critically analyses the impact of policy changes on the well being of Chinese people Chinese Social Policy in a Time of Transition Douglas Besharov, Karen Baehler, 2013-05-17 The story of China's spectacular economic growth is well known Less well known is the country's equally dramatic though not always equally successful social policy transition Between the mid 1990s and mid 2000s the focal period for this book China's central government went a long way toward consolidating the social policy framework that had gradually emerged in piecemeal fashion during the initial phases of economic liberalization Major policy decisions during the focal period included adopting a single national pension plan for urban areas standardizing unemployment insurance re establishing nationwide rural health care coverage opening urban education systems to children of rural migrants introducing trilingual education policies in ethnic minority regions expanding college enrolment addressing the challenge of HIV AIDS more comprehensively and equalizing social welfare spending across provinces among others Unresolved is the direction of policy in the face of longer term industrial and demographic trends and the possibility of a chronically weak global economy Chinese Social Policy in a Time of Transition offers scholars practitioners students and policymakers a foundation from which to explore those issues based on a composite snapshot of Chinese social policy at its point of greatest maturation prior to the 2007 global crisis **Sino-Latin American Economic Relations** K.C. Fung, Alicia Garcia Herrero, 2012-01-30 This book analyses the economic and policy relationships between China and Latin America Key issues covered by the contributors include international trade and direct investment empirical analysis of the complementary and intra industry trade nature of Latin American and Chinese trade the comparison of the production and trade of parts and components in East Asia and in Latin America and an examination of policy issues such as policies towards small and medium sized enterprises as well as pension reforms *A Protestant Church in Communist China* John Craig William Keating, 2012-02-16 Freedom of religious belief is guaranteed under the constitution of the People's Republic of China but the degree to which this freedom is able to be exercised remains a highly controversial issue Much scholarly attention has been given to persecuted underground groups such as Falun but one area that remains largely unexplored is the relationship between officially registered churches and the communist government This study investigates the history of one such official church Moore Memorial Church in Shanghai This church was founded by American Methodist missionaries By the time of the 1949 revolution it was the largest Protestant church in East Asia running seven day a week programs As a case study of one individual church operating from an historical rather than theological perspective this study examines the experience of people at this church against the backdrop of the turbulent politics of the Mao and Deng eras It asks and seeks to answer questions such as were the people at the church pleased to see the foreign missionaries leave Were people forced to sign the so called Christian manifesto Once the church doors were closed in 1966 did worshipers go underground Why was this particular church especially chosen to be the first re opened in Shanghai in 1979 What

explanations are there for its phenomenal growth since then A considerable proportion of the data for this study is drawn from Chinese language sources including interviews personal correspondence statistics internal church documents and archives many of which have never previously been published or accessed by foreign researchers The main focus of this study is on the period from 1949 to 1989 a period in which the church experienced many ups and downs restrictions and limitations The Mao era in particular remains one of the least understood and seldom written about periods in the history of Christianity in China This study therefore makes a significant contribution to our evolving understanding of the delicate balancing act between compromise co operation and compliance that categorizes church state relations in modern China
