Social Sinner:

The Sinner in Luke Dwayne H. Adams, 2008-01-01 This study examines the use of the term sinner in Luke Acts There is at present no scholarly consensus on the identity of the sinner in the Synoptic Gospels Although the term is important in the Gospel of Luke few works target the role of the sinner in it Even fewer address the curious absence of sinner in Acts Luke s narrative of Jesus mission to sinners together with the comments about Gentiles in the gospel prepare readers for the mission to Gentiles in Acts Luke provides a link for readers by demonstrating how a Jewish religious sect made up of fishermen toll collectors and sinners who claimed to have found the Messiah became a religion with a wide Gentile following In his use of the term sinner Luke suggests that repentant Jewish sinners and repentant Gentile followers of Jesus represent a fulfillment of God s promise of universal salvation

Sins and Sinners, 2012-08-17 Asian religious traditions have always been deeply concerned with sins and what to do about them As the essays in this volume illustrate what Buddhists in Tibet India China or Japan what Jains Daoists Hindus or Sikhs considered to be a sin was neither one thing nor exactly what the Abrahamic traditions meant by the term Sin could be both undesirable behavior and unacceptable thoughts In different contexts at different times and places a sin might be a ritual infraction or a violation of a rule of law it could be a moral failing or a wrong belief However defined sins were considered so grave a hindrance to spiritual perfection so profound a threat to the social order that the search for their remedies through rituals of expiation pilgrimage confession recitation of spells or philosophical reflection was one of the central quests of the religions studied here

Dismantling the Dream Factory Hester Baer, 2012-02 The history of postwar German cinema has most often been told as a story of failure a failure paradoxically epitomized by the remarkable popularity of film throughout the late 1940s and 1950s Through the analysis of 10 representative films Hester Baer reassesses this period looking in particular at how the attempt to dismantle the dream factory of Nazi entertainment cinema resulted in a new cinematic language which developed as a result of the changing audience demographic In an era when female viewers comprised 70 per cent of cinema audiences a women s cinema emerged which sought to appeal to female spectators through its genres star choices stories and formal conventions In addition to analyzing the formal language and narrative content of these films Baer uses a wide array of other sources to reconstruct the original context of their reception including promotional and publicity materials film programs censorship documents reviews and spreads in fan magazines This book presents a new take on an essential period which saw the rebirth of German cinema after its thorough delegitimization under the Nazi regime
