Education in Nigeria Daniel A. Nomishan, 2023-05-25 This book, *Education in Nigeria: Reflections and Global Perspectives*, provides a broad overview of education in Nigeria. It recognizes the vital role education plays in the development of Nigeria and has attempted to air the concerns and call of the Nigerian public, as well as educators, for reform in the educational system in Nigeria. The

book further recognizes that Nigerian education continues to be evolved first into a system of Western European education and then into a global system of education. It attempts to examine the status of education in Nigeria and thereby seeks solutions by exploring Nigeria's and global historical perspectives, current trends and future directions regarding students and learning, teachers and teaching, the school curriculum and administration of schools. It is expected that the comprehensive nature of the text will be beneficial to individuals in teacher preparation programs as well as those who plan to work with children in pre-kindergarten, nursery through secondary settings. The chapter content of the book focuses on the variation of thought as to the principal objectives of educators to help students in Nigeria develop habits, skills and ideas and help them to think. It adds to the importance of providing education to all, especially at the time when Nigeria is frankly making an effort to affirm democracy. For any nation to be truly democratic, it must maintain an educated electorate. Education prepares people to make informed decisions that affect the society. All children in Nigeria should therefore receive an education to prepare them to become effective members of the world society. This book seeks to examine and reflect on education in Nigeria and globally, are genuinely working in order to produce not only intelligent men and women who will be cultured and skilled but also the leaders who will adapt themselves to their environment, adjust themselves to the outside world and give direction and purpose to their people for the building of a modern nation whose nationals must realize that they are destined to give leadership in many directions of human endeavour. Dr. Nnamdi Azikiwe, FMR, President of Nigeria, speaking of progressive elements of Nigeria.

Addressing Social Issues in the Classroom and Beyond Samuel Totten, Jon Pedersen, 2007-01-01. *Addressing Social Issues in the Classroom and Beyond: The Pedagogical Efforts of Pioneers in the Field* is comprised of essays that delineate the genesis and evolution of the thought and work of pioneers in the field of social issues and education. The authors, many of whom themselves are noted professors of education and who have done significant work in the field of social issues and education, delineate and analyze the efforts, e.g., theoretical work, research, curriculum development and teaching of such pioneers within the larger framework of their life story. As a result, the reader is not only introduced to the significant work of each pioneer but valuable and often fascinating insights into how his/her life experiences informed his/her thinking, beliefs, goals and work. This book constitutes a rich and unusual record of the thinking and accomplishments of those luminaries who worked tirelessly in the belief that a well-educated and well-informed populace was absolutely imperative in a democracy if the latter were to remain healthy and vibrant.
