informed critique of New Labour's failure to narrow this justice gap. Let's hope the carefully reasoned but impassioned arguments about how to get really tough on the causes of crime and injustice get the attention they deserve. Robert Reiner, Professor of Criminology, London School of Economics and Political Science. Criminal and Social Justice provides an important insight into the relationship between social inequality, crime and criminalisation. In this accessible and innovative account, Dee Cook examines the nature of the relationship between criminal and social justice both in theory and in practice. Current social, economic, political and cultural considerations are brought to bear and contemporary examples are used throughout to help the student to consider this relationship. The book is essential reading for students and researchers in criminology, social policy, social work and sociology. It is also relevant to practitioners in statutory, voluntary and community sector organisations.

The Korean Welfare State Kyungbae Chung, Neil Gilbert, 2024. This book examines the evolution of the Korean welfare state over the last several decades and the challenges it currently faces as a rapidly aging society. Since the turn of the 21st century, the Korean welfare state along with the economy has rapidly matured, increasing both the scope of social welfare coverage and the fiscal capacity to pay for these benefits. The Politics of the New Welfare State Giuliano Bonoli, David Natali, 2012-10-04. In *The Politics of the New Welfare State*, the main reforms in work and welfare are summarized and analyzed to provide up-to-date evidence of policy change and its main determinants to policymakers, researchers and stakeholders interested in the field. *The Political Economy of Making and Implementing Social Policy in China* Jiwei Qian, 2021-09-28. This book explores the institutional factors in social policymaking and implementation in China. From the performance evaluation system for local cadres to the intergovernmental fiscal system, local policy experimentation, logrolling among government departments and the top-level design, there are a number of factors that make policy in China less than straightforward. The book argues that it is the bureaucratic incentive structure that leads to a fragmented and stratified welfare system in China. Using a variety of Chinese and English language sources, including central and local government documents, budgetary data, household surveys, media databases etc., this book covers the development of China's pensions, health insurance, unemployment insurance and social assistance programs since the 1990s, with a focus on initiatives since the outbreak of the COVID-19 pandemic. Providing a deeper understanding of policymaking and implementation in China, this book interests scholars of public administration, political economy, Asian politics and social development. **Learning from Baby P** Sharon Shoesmith, 2016-08-20. Sharon Shoesmith was Director of Children's Services for Haringey in 2007 at the time of the death of Peter Connelly, also known as Baby P. In *Learning from Baby P*, she carries out a dispassionate analysis of the events which followed Peter Connelly's death, documenting the responses of the media, politicians and the public. She explores the psychological and emotional responses we share when faced with such horrifying cases of familial child homicide and how a climate of fear and blame which follows such tragedies can lead to negative consequences for other children at risk of harm and for the social workers striving to protect them. *Learning from Baby P* is a thought-provoking book.

which aims to deepen understanding and shed light on the difficult relationship between politics the media and child protection
