Industrialization and Social Disorganization Sachchidananda,1985 Based on 1981 1982 data Outposts of the Forgotten Harvey Alan Siegal,2017-09-08 The single room occupancy SRO tenements and welfare hotels located throughout New York City but concentrated on the Upper West Side of Manhattan provided housing for many of society s troubled marginal members in the late 1970s when this book was originally published The predominant population of these buildings was old non white unemployed disabled and in poor health What distinguished this community however was not that it was part of a ghetto or slum but that it was composed of poor people living amidst affluence combining elements of both the law abiding and criminal worlds Institutionally the SRO tenement world described in this book is seen as a half way area between open society and the total institution Without the support and control available in the SROs confinement in a total institution would be a certainty for many of the residents This book a participant observer journal as well as an ethnographic study suggests an alternative to institutionalization As Edward Sagarin notes in his preface Siegal does not lack compassion for the sufferings of the people but the focus is on the descriptions of their lives Outposts of the Forgotten documents the circumstances of some of New York s forgotten residents
