Social Scientists And Farm Politics In The Age Of Roosevelt:

Social Scientists and Farm Politics in the Age of Roosevelt Richard S. Kirkendall, 1973 **Social Scientists and Farm Politics in the Age of Roosevelt** Richard Stewart Kirkendall, 1982 **Social Scientists and Farm Politics in the Age of Roosevelt** Richard Stewart Kirkendall, 1966 Originated in a seminar at the University of Wisconsin and emerged first as a dissertation Bibliography p 331 349 *A History of Sociological Research Methods in America, 1920-1960* Jennifer Platt, 1999-02-11 This is the first book on the general history of US sociological research It provides systematic archival documentary and interview data which question conventional views on research methods developing our understanding of both the history of social thought and the settings in which social research is produced **The Associational State** Brian Balogh, 2015-06-04 The Associational State argues that the relationship between state and civil society is fluid and that the trajectory of American politics is not driven by ideological difference but by the ability to achieve public ends through partnerships forged between the state and voluntary organizations *Public Policy and Agricultural Technology* Don F. Hadwiger, William P. Browne, 1987-06-18 **William I. Myers and the Modernization of American Agriculture** Douglas Slaybaugh, 1996 During the farm credit crisis brought on by the Great Depression Myers served in Franklin D Roosevelt s New Deal government writing the legislation to consolidate federal farm credit programs After a brief stint as deputy governor he became governor of the Farm Credit Administration in 1933 Myers led the agency to two great successes saving thousands of farms from bankruptcy and establishing a permanent government sponsored credit system for farmers comparable to what private banks provided industry Myers returned to Cornell in 1938 and served for nearly fifteen years as dean of the College of Agriculture Myers also served on the board of trustees of the Rockefeller Foundation which was instituting agricultural research programs that would enable developing nations to become more productive self reliant and anticommunist members of the global community FDR: The First Hundred Days Anthony J. Badger, 2009-06-09 The Hundred Days FDR s first 15 weeks in office was a time of unprecedented governmental activity in America In this account Anthony J Badger reinterprets the period as an exercise in exceptional political craftsmanship **American Fair Trade** Laura Phillips Sawyer, 2018-01-11 Shows how in the decades prior to the Great Depression associations of independent proprietors partnered with federal regulators to create codes of fair competition Rural Versus Urban Suzanne Mettler, Trevor E. Brown, 2025-09-23 How the urban rural divide drives partisan polarization Why have Americans living in different places come to experience politics as a battle between us and them In Rural Versus Urban Suzanne Mettler and Trevor Brown argue that political polarization is not just about red states and blue states or coastal elites who alienate those in fly over country Instead polarization permeates every region and every state and has become organized through a pernicious rural urban division Mettler and Brown explain the evolution of this gulf across five decades charting political trends in both places Drawing on data on individuals communities and members of Congress as well as interviews with local

party leaders and former elected officials they show how the divide emerged and why it poses a threat to democracy Until about thirty years ago both political parties attracted support from rural and urban voters But after place based inequality grew due to deregulation and trade liberalization white rural dwellers began to view urban people and Democrats as affluent elites out of touch with their needs Politically active evangelical churches antiabortion organizations and gun groups helped deepen the divide encouraging many of these rural residents to become staunch supporters of the GOP Now regional one party rule in rural America gives Republicans a systematic edge for gaining control of crucial political institutions including the Senate House of Representatives the Presidency and even the Supreme Court This is helping enable an extremist political party and pushing democracy to the brink Mettler and Brown argue that the divide can be repaired but only if the Democrats build their own robust local organizations and offer citizens a meaningful choice Opening Windows onto Hidden Lives Julie N. Zimmerman,Olaf F. Larson,2015-11-06 Building on their analysis in *Sociology in Government* Penn State 2003 Julie Zimmerman and Olaf Larson again join forces across the generations to explore the unexpected inclusion of rural and farm women in the research conducted by the USDA s Division of Farm Population and Rural Life Existing from 1919 to 1953 the Division was the first and for a time the only unit of the federal government devoted to sociological research The authors explore how these early rural sociologists found the conceptual space to include women in their analyses of farm living rural community social organization and the agricultural labor force Class and Power in the New Deal G. Domhoff,Michael J. Webber,2011-06-29 This book provides a new perspective on the origins of the three most important New Deal policies the Agricultural Adjustment Act the National Labor Relations Act and the Social Security Act while examining the strengths and weaknesses of historical institutionalism Marxism protest disruption theory and non Marxian class dominance theory

Disputed Ground Jean Choate,2002-02-08 Farmers suffering the effects of drought and depression in the 1930s were looking for relief from what they felt were unfair prices for their crops and reform of the entire agricultural and economic system of which they were the primary part In the election campaign of 1932 they heard Franklin D Roosevelt promise that if elected he would work for a program to help them The vagueness of the president to be led a variety of farm groups to believe that he would support their leaders and programs but some groups such as the Farmers Union were disappointed and their organizers criticized various aspects of the New Deal Agricultural Program During the dire thirties new farm groups were formed to voice their opposition to the program The ideas of these groups were resisted by the Department of Agriculture which fought back to stifle their opposition and largely won This work is a history of seven organizations that opposed Roosevelt s agricultural programs They are the Missouri Farmers Association the Farmers Union the Farm Holiday Movement the Farmers Independence Council the National Farmers Process Tax Recovery Association the Corn Belt Liberty League and the Farmers Guild **Gaining Access** John Mark Hansen,1991-11 Through a comprehensive analysis of American agricultural politics in the past half century *Gaining Access* shows when how and why interest groups gain and lose

influence in the policy deliberations of the United States Congress By consulting with policy advocates John Mark Hansen argues lawmakers offset their uncertainty about the policy stands that will bolster or impede their prospects for reelection The advocates provide legislators with electoral intelligence in Washington and supportive propaganda at home earning serious consideration of their policy views in return From among a multitude of such informants representatives must choose those they will most closely consult With evidence from congressional hearings personal interviews oral histories farm and trade journals and newspapers Hansen traces the evolution of farm lobby access in Congress He chronicles the rise and fall of the American Farm Bureau the surge and decline of party politics the incorporation of the commodity lobbies the exclusion of the consumer lobbies and the accommodation of urban interests in food stamps Brilliantly combining insights from rational choice theory with historical data Gaining Access is an essential guide for anyone interested in the dynamics of interest group influence

Fighting for the Farm Jane Adams, 2013-03-26 In North America industrial agriculture has now virtually displaced diversified family farming The prevailing system depends heavily on labor supplied by migrants and immigrants and its reliance on monoculture raises environmental concerns In this book Jane Adams and contributors anthropologists and political scientists among them analyze the political dynamics that have transformed agriculture in the United States and Canada since the 1920s The contributors demonstrate that people become politically active in arenas that range from the state to public discourse to relations between growers and their contractors or laborers and that politics is a process that is intimately local as well as global The farm financial crisis of the 1980s precipitated rapid consolidation of farms and a sharp decline in rural populations It brought new actors into the political process including organic farmers and environmentalists Fighting for the Farm Rural America Transformed considers the politics of farm policy and the consequences of the increasing alignment of agricultural interests with the global economy The first section of the book places North American agriculture in the context of the world system the second a series of case studies examines the foundations of current U S policy subsequent sections deal with the political implications for daily life and the politics of the environment Recognizing the influence of an array of political constituencies and arenas Fighting for the Farm charts a decisive shift since the early part of the twentieth century from a discursive regime rooted in economics to one that now incorporates a variety of environmental and quality of life concerns

Family Farm Antitrust Act of 1979 United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Antitrust, Monopoly, and Business Rights, 1980

Planning Democracy Gilbert, Jess, 2015-01-01 Late in the 1930s the U S Department of Agriculture set up a national network of local organizations that joined farmers with public administrators adult educators and social scientists The aim was to localize and unify earlier New Deal programs concerning soil conservation farm production control tenure security and other reforms and by 1941 some 200 000 farm people were involved Even so conservative anti New Dealers killed the successful program the next year This book reexamines the era s agricultural policy and tells the neglected story of the New Deal agrarian leaders and their

visionary ideas about land democratization and progressive social change **Why the American Century?** Olivier Zunz, 2000-06 Preface The New Colossus Pt 1 Making the Century American Ch 1 Producers Brokers and Users of Knowledge Ch 2 Defining Tools of Social Intelligence Ch 3 Inventing the Average American Pt 2 The Social Contract of the Market Ch 4 Turning out Consumers Ch 5 Deradicalizing Class Pt 3 Embattled Identities Ch 6 From Voluntarism to Pluralism Ch 7 Enlarging the Polity Pt 4 Exporting American Principles Ch 8 Individualism and Modernization Ch 9 The Power of Uncertainty Acknowledgments Notes Index Copyright Libri GmbH All rights reserved America's Political Class Under Fire David A. Horowitz, 2013-12-02 While the clash between what has been called the modern and undeveloped worlds has led to America's military involvement in the Middle East and other places few people realize the tension between the modern and the traditional within the United States Beginning in the 1920's professional intellectuals and academics began influencing the nation's public policy on matters as diverse as education economics and public health In this thoughtful work David A Horowitz analyzes the tension between the so called New Class of knowledge professionals and their critics who accused them of being out of touch with the common sense of everyday people strangers to the American Way even Communists America's Political Class Under Fire is organized over nine periods of 20th century history providing a window into everything from the Scopes evolution trial and McCarthyism to affirmative action and the Clinton health care fiasco Along the way the book explores the New Left populist conservatism and the mid 90's reaction to political liberalism which saw Newt Gingrich rise to the top post in the House of Representatives In telling these stories Horowitz seeks to encourage a more balanced and fair minded assessment of the consequences of expertise and applied intellect to democratic existence in the United States **Bringing the State Back In** Peter B. Evans, Dietrich Rueschemeyer, Theda Skocpol, 1985-09-13 Until recently dominant theoretical paradigms in the comparative social sciences did not highlight states as organizational structures or as potentially autonomous actors Indeed the term state was rarely used Current work however increasingly views the state as an agent which although influenced by the society that surrounds it also shapes social and political processes The contributors to this volume which includes some of the best recent interdisciplinary scholarship on states in relation to social structures make use of theoretically engaged comparative and historical investigations to provide improved conceptualizations of states and how they operate Each of the book's major parts presents a related set of analytical issues about modern states which are explored in the context of a wide range of times and places both contemporary and historical and in developing and advanced industrial nations The first part examines state strategies in newly developing countries The second part analyzes war making and state making in early modern Europe and discusses states in relation to the post World War II international economy The third part pursues new insights into how states influence political cleavages and collective action In the final chapter the editors bring together the questions raised by the contributors and suggest tentative conclusions that emerge from an overview of all the articles As a programmatic work that proposes new directions for the

analysis of modern states the volume will appeal to a wide range of teachers and students of political science political economy sociology history and anthropology
