Sociology gives us the tools we need to understand our life and the lives of the people around us It reveals that our commonsense view of the world isn't always right and enables us to find out what actually shapes our experiences In this widely used and very readable introductory text Judith Bessant and Rob Watts show us how to develop a sociological perspective on what is happening in Australia today Rapid and far reaching social changes are taking place which affect us all globalisation is impacting on our economy and culture technological developments increase the pace of life and many people worry about the decline of traditional values and about environmental and personal security Using a sociological perspective we can explain why different groups of people experience these changes as exciting unsettling or devastating Sociology Australia is structured around six key questions What is sociology Who are we and how do we come to be who we are How do we know the world in which we live Can we make our lives as we want them Who makes the decisions that shape our society What changes are taking place in Australia today Sociology Australia is an ideal introduction to the discipline of sociology and to the dynamics of Australian society today This third edition of Sociology Australia has been substantially revised and updated and includes new chapters on religion education and sustainability **Addressing Violence, Abuse and Oppression** Barbara Fawcett, Fran Waugh, 2013-07-04 This book provides a broad overview of violence in relation to a range of groups and areas that social workers and human service professionals work with men women children mental health youth older people the workplace disability sexuality and rural communities **Practical and Political Approaches to Recontextualizing Social Work** Boulet, Jacques, Hawkins, Linette, 2021-02-19 Currently there is an enduring and changing meaning of social work in a world where new crises are being confronted and new opportunities are arriving in the evolving context of social work and the related disciplines There is a question on how to manage the transformation of social work both productively and creatively during this global shift Practitioners and educators can experience a tragic disorientation when confronted by the diversity and depth of these crises endured and can face doubts about their role in social work throughout all these changes and difficult situations Alternatives to this disorientation a comfort with uncertainty and a capability to take risks need to urgently be developed on a professional and personal level for success in the evolving field Through historical lens and a review of policies and value based approaches the recontextualization of social work can be explored Practical and Political Approaches to Recontextualizing Social Work explores practical and political ways in which social work practice has been reconstructed Chapters identify this recontextualization of social work and how it is changing adapting and transforming the profession along with providing the potential implications for the profession This book grants insight on the reconstruction of social work on the personal and interpersonal level case work and also on those intending to impact social work on the local global environment level in all dimensions politically economically socially and ecologically In

addition the book includes a shift from the present short term and micro personal view to a future and much broader and encompassing perspective and practice vision This book is essential for social workers practitioners policymakers government officials researchers academicians and students who want to learn more about the recontextualizing of modern social work in a shifting global environment Indigenous Biography and Autobiography Peter Read, Frances Peters-Little, Anna Haebich, 2008-12-01 In this absorbing collection of papers Aboriginal Maori Dalit and western scholars discuss and analyse the difficulties they have faced in writing Indigenous biographies and autobiographies The issues range from balancing the demands of western and non western scholarship through writing about a family that refuses to acknowledge its identity to considering a community demand not to write anything at all The collection also presents some state of the art issues in teaching Indigenous Studies based on auto biography in Austria Spain and Italy **Religion and Popular Culture** Adam Possamai, 2005 This book views itself as the hyper real testament of new religious phenomena by addressing the theories among many others of Baudrillard Jameson and Lipovetsky and by exploring the use of fictions such as those from Harry Potter The Matrix Star Trek Buffy and Lord of the Rings *Critical Reflections on Cities in Southeast Asia* Tim Bunnell, Lisa Drummond, Ho, 2021-11-15 Critical Reflections draws together the multi disciplinary research of scholars working in on cities across Southeast Asia The fourteen essays collected in the volume are organised into three thematic sections re conceptualisation competition and intervention Collectively these reflections contribute to and interrogate the expanding urban and regional studies literature The volume constitutes a critical corrective to the existing literature which all too often seeks to diagnose contemporary urban trends everywhere from a small number of mostly Western paradigmatic cases Yet while acknowledging the increasing interconnectedness and shared global orientation of most cities in Southeast Asia the volume is wary of positing an equally generalising regional model Individually these essays attend to the diversity of contemporary urban experiences in Southeast Asia **Journal of Interpretation Research** , 2001
