Stuber,2011-07-16 To date scholars in higher education have examined the ways in which students experiences in the classroom and the human capital they attain impact social class inequalities In this book Jenny Stuber argues that the experiential core of college life the social and extra curricular worlds of higher education operates as a setting in which social class inequalities manifest and get reproduced As college students form friendships and get involved in activities like Greek life study abroad and student government they acquire the social and cultural resources that give them access to valuable social and occupational opportunities beyond the college gates Yet students social class backgrounds also impact how they experience the experiential core of college life structuring their abilities to navigate their campus s social and extra curricular worlds Stuber shows that upper middle class students typically arrive on campus with
