Gendering Modern German History Karen Hagemann, Jean H. Quataert, 2007-08-01 Writing on the history of German women has like women's history elsewhere undergone remarkable expansion and change since it began in the late 1960s Today Women's history still continues to flourish alongside gender history but the focus of research has increasingly shifted from women to gender This shift has made it possible to make men and masculinity objects of historical research too After more than thirty years of research it is time for a critical stocktaking of the gendering of the historiography on nineteenth and twentieth century Germany To provide a critical overview in a comparative German American perspective is the main aim of this volume which brings together leading experts from both sides of the Atlantic They discuss in their essays the state of historiography and reflect on problems of theory and methodology Through compelling case studies focusing on the nation

and nationalism military and war colonialism politics and protest class and citizenship religion Jewish and non Jewish Germans the Holocaust the body and sexuality and the family this volume demonstrates the extraordinary power of the gender perspective to challenge existing interpretations and rewrite mainstream arguments *Reinventing Gender* Eva Kolinsky, Hildegard Maria Nickel, 2003 Since the unification of the DDR and the GDR women living in the former East Germany have lost many of the advantages that came with a planned economy This collection of essays examines the reinvented meaning of gender and the experience of East German women since unification **United and Divided** Mike Dennis, Eva Kolinsky, 2004-03-01 The system transformation after German unification in 1990 constituted an experiment on an unprecedented scale At no point in history had one state attempted to redesign another without conquest bloodshed or coercion but by treaties public policy and bureaucratic processes Unification was achieved by erasing the eastern political and economic model However in the meantime it has become clear that the same cannot be said about social transformation On the contrary social and cultural attitudes and differentiation have continued and resulted in deep divisions between West and East Germany After unification the injustices of politics seemed to have been replaced in the eyes of most former GDR citizens by unexpected injustices in the personal spheres of ordinary people who lost their jobs and faced unknown realities of deprivation and social exclusion These are the main concerns of the contributors to this volume Incorporating new research findings and published data they focus on key aspects of economic political and social transformation in eastern Germany and compare through case studies each area with developments in the west Mothers, Comrades, and Outcasts in East German Women's Films Jennifer L. Creech, 2016-08-08 Mothers Comrades and Outcasts in East German Women's Film merges feminist film theory and cultural history in an investigation of women's films that span the last two decades of the former East Germany Jennifer L Creech explores the ways in which these films functioned as an alternative public sphere where official ideologies of socialist progress and utopian collectivism could be resisted Emerging after the infamous cultural freeze of 1965 these women's films reveal a shift from overt political critique to a covert politics located in the intimate problem rich experiences of everyday life under socialism Through an analysis of films that focus on what were perceived as women's concerns marital problems motherhood emancipation and residual patriarchy Creech argues that the female protagonist served as a crystallization of socialist contradictions By framing their politics in terms of women's concerns these films used women's desire and agency to contest the more general problems of social alienation and collectivism and to re imagine the possibilities of self fulfillment under socialism *Imagined Homes* Hans Werner, 2012-10-18 Imagined Homes Soviet German Immigrants in Two Cities is a study of the social and cultural integration of two migrations of German speakers from Eastern Europe and the Soviet Union to Winnipeg Canada in the late 1940s and Bielefeld Germany in the 1970s Employing a cross national comparative framework Hans Werner reveals that the imagined trajectory of immigrant lives influenced the process of integration into a new urban environment Winnipeg's migrants chose a receiving society

where they knew they would again be a minority group in a foreign country while Bielefeld's newcomers believed they were going home and were unprepared for the conflict between their imagined homeland and the realities of post war Germany. Werner also shows that differences in the way the two receiving societies perceived immigrants and the degree to which secularization and the sexual and media revolutions influenced these perceptions in the two cities were crucially important in the immigrant experience.

Germany's Economic Performance J. Hölscher, 2016-01-22 This book provides a comprehensive understanding of Germany's economic performance at the turn of the twenty first century. The period under observation and analysis stretches from Germany's unification in 1990 over the death of the German Mark to first experiences with the Euro with particular attention given to East Germany.

Approaches to the Study of Contemporary Germany Jonathan Grix, 2002-09-30 The 10 essays of this collection are derived from a group of courses developed by the University of Birmingham's UK Institute for German Studies which is devoted to the social sciences. The essays consider the British research methods used for studying issues in Germany by researchers in economics, politics,
