Socialism Politics And Equality Hierarchy And Change In Eastern Europe And The Ussr:

Socialism, Politics, and Equality Walter D. Connor, 1979-03-02 **Eastern Europe Since 1970** Bulent

Gokay, 2015-12-22 From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region **Central and**

Eastern Europe, 1944-1993 Tibor Iván Berend, 1996 An ambitious comparative analysis of Eastern Bloc economies during a period of revolutionary change **Security Implications Of Nationalism In Eastern Europe** Jeffrey Simon, Trond

Gilberg, 2019-06-26 Suggesting that events in Poland during 1980 1981 represent the tip of an iceberg the contributors examine the rise of nationalism in Eastern Europe and its potential consequences for European security They analyze developing problems and trends in the region including the cooling of relations between the USSR and individual countries in Eastern Europe the continuing economic crisis changing social structures the influence of the intelligentsia and the eroding importance of ideology as a key part of Eastern Europe's political culture The second half of the book focuses on the impact of these shifts on political and military relations between the USSR and Eastern European countries and on the efficient functioning of the Warsaw Pact Politics, Paradigms, and Intelligence Failures Ofira Seliktar, 2015-05-20 Washington's

failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War Like the disputes over who lost China and Iran this debate has been fought out along ideological and partisan lines with conservatives claiming credit for the Evil Empire's demise and liberals arguing that the causes were internal to the Soviet Union The intelligence community has come in for harsh criticism for overestimating Soviet strength and overlooking the symptoms of crisis the discipline of Sovietology has dissolved into acrimonious irrelevance Drawing on declassified documents interviews and careful analysis of contemporaneous literature this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels Although it is focused on the Soviet case it offers lessons that are both timely and necessary

Free to Lose John E. ROEMER, John E Roemer, 2009-06-30 John Roemer challenges the morality of an economic system based on the private ownership of the means of production Unless you start with a certain amount of wealth in such a society you are only free to lose This book addresses crucial questions of political philosophy and normative economics in terms

understandable by readers with a minimal knowledge of economics **Blue-Collar Workers in Eastern Europe** Jan F Triska, Charles Gati, 2025-03-03 First published in 1981 *Blue Collar Workers in Eastern Europe* deals with the attitudes and political disposition of the East European working class In particular it provides the first analysis of the growing assertiveness of the industrial proletariat from which East European governments claim to derive their legitimacy and on whose behalf they profess to rule These governments are increasingly hesitant in the use of force yet they lack the economic means of meeting their workers demands The chapters that make up the book fall into three main categories About one third are issue oriented and analytical dealing with the role economic condition attitudes social and demographic characteristics and political involvement of the workers These are followed by case studies of workers in several countries Finally two chapters explore the policy implications of the workers new found assertiveness and assess the international policy options and dilemmas of both the Soviet Union and the West This book covers all the major issues which brought about the widely publicised workers rebellion in Poland in the summer of 1980 and includes an assessment of that crisis and its sequels It will attract a wide readership among students of the history and politics of Eastern Europe especially those interested in labour unions socialist management and comparative communism **Problems of Communism** ,1982 **Children of Victory** David Ruffley, 2003-02-28 Born after 1940 and finishing higher education between 1965 and 1982 a generation of Russia s best brightest and most privileged came of age in the Brezhnev era Using recently declassified archival material to uncover both personal and professional beliefs this study explores the formative experiences of this group who now hold key positions in all parts of the government and society Comparison of these official documents with letters petitions and complaints published in the Soviet press provides new insight into the dynamic interaction between the Brezhnev regime and Soviet times Confined by the Brezhnev regime s parameters and stability young Soviet specialists developed an ethos that focused personally upon humanism and individualism and professionally upon dignity and autonomy Censored and manipulated they came to hold a complex system of beliefs frustrations and expectations that stood in stark contrast to many of the ideals of the Soviet Union Ruffley analyzes the ethos of this generation via the prism of domination resistance studies to offer unique insight into a generation largely ignored by conventional historical inquiry *Power and Privilege* Gerhard E. Lenski, 2013-04-01 *Power and Privilege* seeks to answer the central question of the field of social stratification Who gets what and why Using a dialectical view of the development of thought in the discipline Gerhard Lenski describes the outlines of an emerging synthesis of theories He shows that perspectives as diverse and contradictory as those of Marx Spencer Sumner Veblen Mosca Pareto Sorokin Parsons and Dahrendorf are parts of an evolving and systematic body of theory *A History of Eastern Europe* Robert Bideleux, Ian Jeffries, 2007-09-12 This welcome second edition of *A History of Eastern Europe* provides a thematic historical survey of the formative processes of political social and economic change which have played paramount roles in shaping the evolution and development of the region Subjects covered include Eastern Europe in

ancient medieval and early modern times the legacies of Byzantium the Ottoman Empire and the Habsburg Empire the impact of the region's powerful Russian and Germanic neighbours rival concepts of Central and Eastern Europe the experience and consequences of the two World Wars varieties of fascism in Eastern Europe the impact of Communism from the 1940s to the 1980s post Communist democratization and marketization the eastward enlargement of the EU A History of Eastern Europe now includes two new chronologies one for the Balkans and one for East Central Europe and a glossary of key terms and concepts providing comprehensive coverage of a complex past from antiquity to the present day

Current Issues and Research in Macrosociology Lenski, 2022-10-24

Captive University John Connelly, 2014-12-01 This comparative history of the higher education systems in Poland East Germany and the Czech lands reveals an unexpected diversity within East European stalinism With information gleaned from archives in each of these places John Connelly offers a valuable case study showing how totalitarian states adapt their policies to the contours of the societies they rule The Communist dictum that universities be purged of bourgeois elements was accomplished most fully in East Germany where more and more students came from worker and peasant backgrounds But the Polish Party kept potentially disloyal professors on the job in the futile hope that they would train a new intelligentsia and Czech stalinists failed to make worker and peasant students a majority at Czech universities Connelly accounts for these differences by exploring the prestalinist heritage of these countries and particularly their experiences in World War II The failure of Polish and Czech leaders to transform their universities became particularly evident during the crises of 1968 and 1989 when university students spearheaded reform movements In East Germany by contrast universities remained true to the state to the end and students were notably absent from the revolution of 1989

Beliefs About Inequality Around the Globe Markus Hadler, Benjamin Roberts, Jarè Struwig, Jonas Edlund, Arvid Lindh, Albin Neumayr, 2025-08-12 This edited volume presents the latest findings from the 5th International Social Survey Programme ISSP Social Inequality module a widely recognized dataset comprising responses from over 30 countries It explores global perspectives on social inequality including topics such as public views on taxation government redistribution personal experiences of inequality and related themes The chapters provide valuable insights into how attitudes toward inequality have evolved since they were first studied comparatively in the late 1980s The chapters in this book demonstrate how international scholars are using these data to shed new light on beliefs about inequality and inspire further research into societal attitudes worldwide The chapters in this book were originally published in the International Journal of Sociology
