

Socialism And The Great War The Collapse Of The Second International

**Alex Callinicos, Stathis
Kouvelakis, Lucia Pradella**

Socialism And The Great War The Collapse Of The Second International:

Socialism and the Great War Georges Haupt, 1972 The Russian Revolution and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state **The Lost World of Socialists at Europe's Margins** Maria

Todorova, 2020-09-03 Maria Todorova's book is devoted to the golden age of the socialist idea broadly surveying the period in and around the time of the Second International It critically examines the promise for an alternative socialist utopia from 1870 to the 1920s Todorova brings in the experience of the periphery in a comparative context in the belief that the margins can often elucidate better the character of a phenomenon and deprovincialize it from essentialist notions In doing so The Lost World of Socialists at Europe's Margins moves beyond the traditional historiographical emphasis on ideology by looking at different intersections or entanglements of spaces generations genders ideas and feelings and different flows of historical time The study provides a social and cultural history of early socialism in Eastern Europe with an emphasis on Bulgaria arguably the country with the earliest and strongest socialist movement in Southeast Europe and one that had a unique relationship to both German and Russian social democracy Based on a rich prosopographical database of around 3500 biographies of people born in the 19th century the book addresses the interplay of several generations of leftists looking at the specifics of how ideas were generated received transferred and transformed Finally the work investigates the intersection between subjectivity and memory as reflected in a unique cache of archival materials containing over 4000 documentary sources including diaries oral interviews and unpublished memoirs A microhistorical approach to this material allows the reconstruction of structures of feeling that inspired an exceptional group of individuals **Anarchism and the**

Advent of Paris Dada Theresa Papanikolas, 2017-07-05 Anarchism and the Advent of Paris Dada sheds new light on Paris Dada's role in developing the anarchist and individualist philosophies that helped shape the cultural dialogue in France following the First World War Drawing on such surviving documentation as correspondence criticism periodicals pamphlets and manifestoes this book argues that contrary to received wisdom Dada was driven by a vision of social change through radical cultural upheaval The first book length study to interrogate the Paris Dadaists complex and often contested position in the postwar groundswell of anarcho individualism Anarchism and the Advent of Paris Dada offers an unprecedented

analysis of Paris Dada literature and art in relation to anarchism and also revives a variety of little known anarcho individualist texts and periodicals In doing so it reveals the general ideological diversity of the postwar French avant garde and identifies its anarchist concerns in addition it challenges the accepted paradigm that postwar cultural politics were monolithically nationalist By positioning Paris Dada in its anarchist context this volume addresses a long ignored lacuna in Dada scholarship and more broadly takes its place alongside the numerous studies that over the past two decades have problematized the politics of modern art literature and culture **Scaling the Balkans** Maria N. Todorova, 2018-09-11

Scaling the Balkans puts in conversation several fields that have been traditionally treated as discrete Balkan studies Ottoman studies East European studies and Habsburg and Russian studies By looking at the complex interrelationship between countries and regions demonstrating how different perspectives and different methodological approaches inflect interpretations and conclusions it insists on the heuristic value of scales The volume is a collection of published and unpublished essays dealing with issues of modernism backwardness historical legacy balkanism post colonialism and orientalism nationalism identity and alterity society and nation building historical demography and social structure socialism and communism in memory and historiography *Routledge Handbook of Marxism and Post-Marxism* Alex

Callinicos, Stathis Kouvelakis, Lucia Pradella, 2020-12-29 In the past two decades Marxism has enjoyed a revitalization as a research program and a growth in its audience This renaissance is connected to the revival of anti capitalist contestation since the Seattle protests in 1999 and the impact of the global economic and financial crisis in 2007 8 It intersects with the emergence of Post Marxism since the 1980s represented by thinkers such as Jürgen Habermas Chantal Mouffe Ranajit Guha and Alain Badiou This handbook explores the development of Marxism and Post Marxism setting them in dialogue against a truly global backdrop Transcending the disciplinary boundaries between philosophy economics politics and history an international range of expert contributors guide the reader through the main varieties and preoccupations of Marxism and Post Marxism Through a series of framing and illustrative essays readers will explore these traditions starting from Marx and Engels themselves through the thinkers of the Second and Third Internationals Rosa Luxemburg Lenin and Trotsky among others the Tricontinental and Subaltern and Post Colonial Studies to more contemporary figures such as Huey Newton Fredric Jameson Judith Butler Immanuel Wallerstein and Samir Amin The Routledge Handbook of Marxism and Post Marxism will be of interest to scholars and researchers of philosophy cultural studies and theory sociology political economics and several areas of political science including political theory Marxism political ideologies and critical theory *Fantasy and Reality in History* Peter Loewenberg, 1995-10-19 In *Fantasy and Reality in History* Peter Loewenberg brings what the discipline of psychoanalysis has learned about human conduct and the irrational to bear on the analysis and writing of history The result is a remarkable series of studies on individual and social anxiety racism and nationalism and crisis management First examining early twentieth century Zurich and the first practitioners of psychoanalysis Freud C G Jung Karl Abraham and

others to establish the discipline's understanding of the unconscious and how it functions. Loewenberg then explores the tensions in the lives and politics of modern political leaders. The great British Liberal Prime Minister Walther Rathenau and the Russian fascist demagogue Vladimir Zhirinovsky are among those studied. In each of these interconnected essays, *Fantasy and Reality in History* makes readily evident the advantages and unique insights that psychoanalytical techniques can provide in the examination of history. Loewenberg's blend of clinical and historico-political methods not only produces new exciting research but demonstrates how it is done.

The Independent Labour Party, 1914-1939 Keith Laybourn, 2020-05-14

Historians of political history are fascinated by the rise and fall of political parties and for twentieth-century Britain, most obviously the rise of the Labour Party and the decline of the Liberal Party. What is often overlooked in this political development is the work of the Independent Labour Party (ILP), which was a formative influence in the growth of the political Labour movement and its leaders in the late nineteenth century and the early to mid-twentieth century. The ILP supplied the Labour Party with some of its leading political figures such as Ramsay MacDonald and moved the Labour Party along the road of parliamentary socialism. However, divided over the First World War and challenged by the Labour Party becoming socialist in 1918, it had to face the fact that it was no longer the major parliamentary socialist party in Britain. Although it recovered after the First World War, rising to between 37,000 and 55,000 members, it came into conflict with the Labour Party and two Labour governments over their gradualist approach to socialism. This eventually led to its disaffiliation from the Labour Party in 1932 and its subsequent fragmentation into pro-Labour, pro-communist, and independent groups. Its new revolutionary policy divided its members as did the Abyssinian crisis, the Spanish Civil War, and the Moscow Show Trials. By the end of the 1930s, seeking to re-affiliate to the Labour Party, it had been reduced to 2,000 to 3,000 members, was a sect rather than a party, and had earned Hugh Dalton's description that it was the ILP flea. In the following monograph, Keith Laybourn analyses the dynamic shifts in this history across 25 years. This scholarship will prove foundational for scholars and researchers of modern British history and socialist thought in the twentieth century.

Lenin and the Revolutionary Party Paul Le Blanc, 2016-02-01

For generations, historians of the right, left, and center have all debated the best way to understand V. I. Lenin's role in shaping the Bolshevik party in the years leading up to the Russian Revolution. At their worst, these studies locate his influence in the forcefulness of his personality. At their best, they show how Lenin moved other Bolsheviks through patient argument and political debate. Yet remarkably few have attempted to document the ways his ideas changed or how they were in turn shaped by the party he played such a central role in building. In this thorough, concise, and accessible introduction to Lenin's theory and practice of revolutionary politics, Paul Le Blanc gives a vibrant sense of the historical context of the socialist movement in Russia and abroad from which Lenin's ideas about revolutionary organization spring. What emerges from Le Blanc's partisan yet measured account is an image of a collaborative, ever-adaptive, and dynamically engaged network of revolutionary activists who formed the core of the Bolshevik party.

Nationalism and the

International Labor Movement Michael Forman, 2007-06-05 The resurgence of nationalism accompanying the decline of Communism has been taken to indicate the failure of socialist theory to grasp the nature of this phenomenon Against both those who argue that the radical tradition has ignored and underestimated nationalism and those who accuse it of economic reductionism this careful analysis of the idea of the nation as it was developed in the work of the major thinkers of the international labor movement reveals evidence of how seriously they grappled with nationalism Each of the main sections of the book focuses on the most influential theorists of the international labor movement as it became organized and grew Bakunin Marx and Engels and the concern of the First International 1864 Lenin Luxemburg and Bauer and the preoccupation of the Second International 1889 1914 with socialism in ethnically plural societies Stalin and Gramsci in relation to the substitution by the Third International 1919 1943 of nation building and national liberation for the old class project In the conclusion the author examines the relationships among ethnic and civic nationality national self determination republican institutions and the process of globalization from the perspective of the post Soviet era and in the light of social theory and Kant's ideas about cosmopolitan right

Leftist Internationalisms Michele Di Donato, Mathieu Fulla, 2023-01-26 This volume offers a new perspective on the political history of the socialist communist and alternative political Lefts focusing on the role of networks and transnational connections Embedding the history of left wing internationalism into a new political history approach it accounts for global and transnational turns in the study of left wing politics The essays in this collection study a range of examples of international engagement and transnational cooperation in which left wing actors were involved and explore how these interactions shaped the globalization of politics throughout the 20th century In taking a multi archival and methodological approach this book challenges two conventional views that the left gradually abandoned its original international to focus exclusively on the national framework and that internationalism survived merely as a rhetorical device Instead this collection highlights how different currents of the Left developed their own versions of internationalism in order to adapt to the transformation of politics in the interdependent 20th century world Demonstrating the importance of political convergence alliance formation network construction and knowledge circulation within and between the socialist and communist movements it shows that the influence of internationalism is central to understanding the foreign policy of various left wing parties and movements

The "Russian" Civil Wars, 1916-1926 Jonathan Smele, 2016-01-15 This volume offers a comprehensive and original analysis and reconceptualisation of the compendium of struggles that wracked the collapsing Tsarist empire and the emergent USSR profoundly affecting the history of the twentieth century Indeed the reverberations of those decade long wars echo to the present day not despite but because of the collapse of the Soviet Union which re opened many old wounds from the Baltic to the Caucasus Contemporary memorialising and de memorialising of these wars therefore form part of the book's focus but at its heart lie the struggles between various Russian political and military forces which sought to inherit and preserve or even expand the territory of the tsars overlain with examinations of the attempts of many

non Russian national and religious groups to divide the former empire The reasons why some of the latter were successful Poland and Finland for example while others Ukraine Georgia and the Muslim Basmachi were not are as much the author's concern as are explanations as to why the chief victors of the Russian Civil Wars were the Bolsheviks Tellingly the work begins and ends with battles in Central Asia a theatre of the Russian Civil Wars that was closer to Mumbai than it was to Moscow

The German Idea of Militarism Nicholas Stargardt, 1994-03-17 This 1994 book examines the development of the modern idea of militarism from its inception in the 1860s until the outbreak of World War I Often regarded as the archetypal militarist state imperial Germany in fact witnessed a major controversy over the issue which became a touchstone of political opposition Issues like the arms race and the military industrial complex displaced more traditional concerns about authoritarian rule and militarism gradually acquired its modern meaning The book is part of a wider discovery by historians of the way political identities and ideas intermeshed contributing to the rise of civil society and new types of politics in modern Europe The political history of the main protagonist of anti militarism German social democracy is examined as Nicholas Stargardt reveals the lasting influence of older radical traditions and reappraises the role played by its espousal of Marxism

Energy Security and Global Politics Daniel Moran, James A. Russell, 2008-07-17 This book analyses the strategic dimensions of energy security particularly where energy resources have become the object of military competition The volume explores the risks that may arise from conditions of increasing economic competition and resource scarcity and the problems that may follow if major producers or consumers of energy lose confidence in the equity and efficiency of the market and resort instead to the use of force to secure access to energy It surveys the strategic outlook of both producer and consumer states with emphasis on nations or regions Central Asia Russia China Venezuela the Persian Gulf where unstable or rapidly evolving political conditions may undermine the currently prevailing market consensus It also examines the role of the United States as the chief guarantor of the global economy and the challenge this poses for its exercise of military power The book contests that while the global energy market may be largely self regulating it is not self defending A failure to consider how it can be most effectively defended from emerging and potential challenges merely heightens the risk that those challenges may someday become real

Moments of Decision Stephen Eric Bronner, 2014-07-31 In this expanded second edition the radical classic Moments of Decision has been updated more than 20 years since it was first published and received the Michael Harrington Book Award Reexamining observations made after the fall of communism Stephen Eric Bronner blends political meditation philosophical critique and history lessons to illuminate the monumental crises that shaped the 20th and 21st centuries A cosmopolitan work that touches on the implications of conflicts ranging from World War I to the Arab Spring Moments of Decision explores the assumptions of socialist historiography and the character of modernity In clear accessible prose Bronner has revived and revised a seminal work that is ideal for students scholars and anyone interested in political history theory and international relations PRAISE FOR THE

PREVIOUS EDITION To guess about the future Bronner has rightly looked into the past going back to the first world war and the momentous split in the labor movement His book is a learned lively and inevitably controversial contribution to the political and historical debates of our age Daniel Singer THE NATION Stephen Bronner is a distinctive voice on the American left He combines a deep understanding of working class political history with a passionate interest in devising a democratic strategy for our time and is willing to take risks in saying just what that strategy should be Bronner s analysis is both principled and shrewd unsparing and hopeful Even where one disagrees with it one learns Joel Rogers University of Wisconsin Law School Editor POLITICS AND SOCIETY **Socialist Europe and Revolutionary Russia** Bruno Naarden,2002-05-02 This book analyses perceptions and images of Russia held by European socialists from 1848 to the 1920s **Revolution and Survival** Richard K. Debo,1979-12-15 This is a highly readable and absorbing account of Bolshevik foreign policy during Lenin s first year in power In tracing the development of that policy the book considers both the impact it had on a world torn by war and the effect it had on the Bolsheviks themselves now no longer engaged in clandestine struggle but in effective state control The book explores Lenin s relationship with the various elements of the party his fruitful but frequently discordant relationship with Trotsky in particular and the way he sought and obtained support for his policies in the tumultuous political circumstances of 1917 and 1918 It studies Lenin s political style as well in an attempt to explain the shift from his utopianism of 1917 to his hard headed political realism of 1918 The analysis focuses on the fundamental questions of how the Soviet state lacking significant military forces in the midst of a world war succeeded in surviving the first year of the revolution and how it survived the new threat of the changed political situation at the end of the war Revolution and Survival is the first history of Lenin s foreign policy during this crucial period and Richard Debo has fused insight with style in a fascinating and authoritative book **Hendrik de Man and Social Democracy** Tommaso Milani,2020-06-15 The book investigates the intellectual and political trajectory of the Belgian theorist Hendrik de Man 1885 1953 by examining the impact that his works and activism had on Western European social democracy between the two world wars Based on multinational archival research the book highlights how the idea of economic planning became part of a wider effort to address an ideological crisis within the socialist movement and revitalise the latter amidst the Great Depression A heavily controversial figure also because of his subsequent involvement in Belgian wartime collaboration de Man played a pivotal role in challenging traditional Marxist assumptions about the role of the state under capitalism and in promoting transnational exchanges between unorthodox social democrats across Europe Starting from de Man s experience in World War I the book analyses his departure from Marxism his elaboration of an alternative social democratic paradigm his entry in Belgian politics as well as the reception of his thought in France and Britain Utopia's Discontents Faith Hillis,2021 Utopia s Discontents provides the first synthetic treatment of the Russian revolutionary emigration before the Revolution It argues that neighborhoods created by Russian exiles became sites of revolutionary experimentation that offered

their residents a taste of their anticipated utopian future

The Oxford Illustrated History of the First World War Hew

Strachan, 2000 Having a profound influence on the history of the twentieth century the First World War left an intense legacy that continues to affect both those who lived through it and those who merely read about it in school It was the first conflict in which airplanes submarines and tanks played a significant role and the first in which casualties on the battlefield outnumbered those from disease It precipitated the collapse of the empires of Austria Hungary and Turkey and it promoted revolution in Russia America's entry into the war and the part it played in the peace settlement signaled the arrival on the world stage of a new great power In this extensively illustrated book an international team of experts explores the war in all its different aspects From its causes to its consequences from the strategy of the politicians to the tactics of the generals the course of the war is charted and its political and human consequences assessed The legacy of the war to end wars in poetry and prose in collective memory and political culture is with us still eighty years after that first Armistice Day This remarkable book helps us understand that legacy

Socialism And The Great War The Collapse Of The Second International Introduction

In today's digital age, the availability of Socialism And The Great War The Collapse Of The Second International books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Socialism And The Great War The Collapse Of The Second International books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Socialism And The Great War The Collapse Of The Second International books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Socialism And The Great War The Collapse Of The Second International versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Socialism And The Great War The Collapse Of The Second International books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Socialism And The Great War The Collapse Of The Second International books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Socialism And The Great War The Collapse Of The Second International books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free

access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Socialism And The Great War The Collapse Of The Second International books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Socialism And The Great War The Collapse Of The Second International books and manuals for download and embark on your journey of knowledge?

FAQs About Socialism And The Great War The Collapse Of The Second International Books

1. Where can I buy Socialism And The Great War The Collapse Of The Second International books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
