International Norms and Local Politics in Myanmar Yukiko Nishikawa,2022-03-07 Nishikawa explores how international norms have been adopted in the local context in Myanmar to project a certain international image while in fact the authorities are exploiting these norms to protect their own interests In the liberal international world order promoted since the end of the Cold War democracy rule of law and human rights have become key components in state and peace building around the world Many donor governments and international organisations have promoted them in their aid and assistance However the promotion of these international norms is based on a flawed understanding of sovereignty and the world For this reason the enforcement of these international norms in Myanmar not only fails to protect vulnerable people but also in some instances exacerbates the situation thereby generating critical insecurity to the most vulnerable people A vital resource for scholars of Myanmar s politics as well as a valuable case study for International Relations scholars more broadly

its Aid to Southeast Asian Countries its Aid Policy Toward Central Asian Countries and its Aid to Latin America and the Caribbean Region as well as their respective influence Combining field research and surveys at the grass roots level the book argues that China's foreign aid policy is intended to help other countries and has changed the strategic pattern of Western countries imposing blockades on New China and has thus played a key role in expanding and strengthening China's economic and political ties with many developing countries restoring its legitimate seat in the United Nations and promoting the cause of cooperation with regard to international development Focusing on concrete examples rather than abstruse theories the book further argues that foreign aid requires practical policies suitable expertise and technologies at the same time international development a field largely overlooked by scholars of international relations can offer profound principles to shape international relations and foreign aid
