Socialist Ownership And Political Systems:

Socialist Ownership and Political Systems Włodzimierz Brus, 1975-01-01 *The Socialist System* Janos

Kornai, 1992-05-28 This book provides a comprehensive account of the structure, conduct and performance of the centrally planned economies of Eastern Europe, the USSR, Communist China and the Marxist LDCs looking at 26 nations in all. The author focuses on reform, perhaps the most important issue facing countries such as the USSR, Poland, Hungary and China. Bureaucracy, soft budget constraints, markets and the nature of the socialist state are the central issues that arise in the course of reforming a socialist economy. The first half of the book deals with classical socialism and provides a theoretical summary of the main features of a now closed period of history. The second half deals with the processes of reform and concludes that the reform of classical socialist systems is doomed to failure as they are unable to renew themselves internally.

Socialist ownership and political systems. translated Włodzimierz Brus, 1975 **Political Systems of East Asia** Louis D

Hayes, 2014-12-18 This innovative interdisciplinary introduction to East Asian politics uses a thematic approach to describe the political development of China, Japan and Korea since the mid nineteenth century and analyze the social, cultural, political and economic features of each country. Unlike standard comparative politics texts which often lack a unifying theme and employ Western conventions of the state, *Political Systems of East Asia* avoids these limitations and identifies a common thread running through the histories of China, Korea and Japan. This common thread is Confucianism which has shaped East Asian perspectives of the universe and how it operates. The text describes and explains the ways in which each country has employed this shared tradition and how it has affected the country's internal dynamics, responses to the outside world and its own political development.

The Transformation Of Communist Systems Bernard Chavance, Charles Hauss, Mark Selden, 2019-06-26 In the confrontation between the two main economic systems that has marked the twentieth century, capitalism has been declared the winner by default over its adversary socialism. Today, establishing a market economy has become the primary goal of the formerly socialist countries. The history of economic reform helps explain this remarkable turning point. Attempts to improve the old centralized system by expanding enterprise autonomy in Poland, the Soviet Union and East Germany and more radical reforms that limited the role of central planning in Yugoslavia, Czechoslovakia, Hungary and China encountered social and political obstacles or had unexpected and undesired effects. During the 1980s, the idea of a socialist market economy which had been seen as a third way between capitalism and centralized socialism was abandoned as economists gradually came to support a free market rather than the dogma of planning. Through a comparative and historical analysis of change in socialist and post socialist systems, this timely and original book clarifies the policies and pitfalls in this extraordinary transition. Bernard Chavance provides a succinct introduction and analysis of the politics and economics of Eastern Europe from the creation of the Stalinist system in the Soviet Union through what he argues have been three major waves of reform since the 1950s to the dismantling of most socialist governments in the 1990s. Exploring the link

between the one party regime and the growing rigidity of socialist economic systems the author analyzes the failure of both incremental and radical reforms to adapt to new economic challenges thus leading to the ultimate collapse of communist regimes in Europe *Modern Governments and Political Systems* S. L. Kaushik, Rama Patnayak, 1995 *Comparative Political Systems* Charles F. Andrain, 1994 This book focuses on the economic changes produced by different political systems and on the social impact of regime transformations It addresses several key policy issues How does the policy process operate in various types of political systems What impact do public policies and policy outcomes wield on transformations in a political system How does public policy preference in different political systems affect democracy capitalism and socialism
