Europe North America and South America It offers a unique global overview of segregation trends based on case studies by local author teams The book shows important global trends in segregation and proposes a Global Segregation Thesis Rising inequalities lead to rising levels of socio economic segregation almost everywhere in the world Levels of inequality and segregation are higher in cities in lower income countries but the growth in inequality and segregation is faster in cities in high income countries This is causing convergence of segregation trends Professionalisation of the workforce is leading to changing residential patterns High income workers are moving to city centres or to attractive coastal areas and gated communities while poverty is increasingly suburbanising As a result the urban geography of inequality changes faster and is more pronounced than changes in segregation levels Rising levels of inequality and segregation pose huge challenges for the future social sustainability of cities as cities are no longer places of opportunities for all

The Arab Minority In Israel's Economy Noah Lewin-epstein, Moshe Semyonov, 2019-07-11 The Arab Minority in Israel s Economy considers the Arab population as an integral albeit disadvantaged part of Israeli society Using data from a thirty year period the book looks at Arab participation in the economy especially in the labor market showing how significant socioeconomic inequality persists despite a fundamental tenet of Israel s declaration of independence asserting equality of political and social rights of all its citizens Taking an ethnic competition perspective the authors explore the extent of inequality uncovering the institutional and social processes that influence it They examine the role of local labor markets and individual human resources giving special attention to the growing labor force participation of Arab women They also consider the gains of the majority Jewish population that have resulted from competition and economic discrimination against Arabs Although the Arab community in Israel has been studied in the past this book is unique in its detailed analysis of employment activity within and outside of the Arab sector and in examining both Arabs and Jews within the stratification system The book fosters deeper understanding of Israeli society and of multi ethnic societies more generally

Trouble in Utopia Dan Horowitz, Moshe Lissak, 2012-02-01 This book provides a thorough and detailed examination of Israeli institutions and how they function It explains the decline in effectiveness of the government and the spread of cultural malaise in the Israel of the eighties Horowitz and Lissak trace the integrative and disintegrative trends in Israel and show how a society that had laid the foundations for a cohesive Jewish nation state became increasingly vulnerable to centrifugal forces The book not only reflects a broad and comprehensive approach but also focuses on themes that cut across institutional structures such as the weakening of social and political cohesion in an overburdened polity

Israel's Palestinians Ilan Peleg, Dov Waxman, 2011-05-30 Arguing that a comprehensive and lasting solution to the Israeli Palestinian conflict depends on a resolution of the Jewish Palestinian conflict within Israel as much as it does on resolving the conflict between Israel and Palestinians in the Occupied Territories this timely book explores the causes and

consequences of the growing conflict between Israel's Jewish majority and its Palestinian Arab minority. It warns that if Jewish Arab relations in Israel continue to deteriorate, this will pose a serious threat to the stability of Israel, to the quality of Israeli democracy and to the potential for peace in the Middle East. The book examines the views and attitudes of both the Palestinian minority and the Jewish majority as well as the Israeli state's historic approach to its Arab citizens. Drawing upon the experience of other states with national minorities, the authors put forward specific proposals for safeguarding and enhancing the rights of the Palestinian minority while maintaining the country's Jewish identity.

Ethnic Stratification and Economic Inequality around the World Max Haller in collaboration, Anja Eder, 2016-03-03. The modern world is characterised by pervasive economic inequalities. Strong economic growth in some developing countries has contributed to a degree to a reduction in the levels of inequality between nations, yet inequality within nations remains high and in some cases continues to increase. *Ethnic Stratification and Economic Inequality around the World* investigates the reasons for these striking differences, exploring the coincidence and interaction between economic stratification and ethnic differentiation. Drawing on extensive international survey and statistical data, the author develops a new theory and concrete hypotheses concerning the conditions which lead toward extreme inequality and those which tend toward greater equality. A systematic examination of the interaction between class structures, social stratification and ethnic differentiation, this book sheds light on the manner in which the resulting social structures produce different levels of economic inequality, offering a fivefold typology of patterns of ethnic stratification which can be applied to present-day world regions. Drawing on the work of Max Weber to provide a rigorous investigation of inequality around the world, it demonstrates what sociology as a science of social reality can significantly contribute to our understanding of global economic stratification. The book is relevant for a wide social scientific audience, particularly for sociologists, economists and political scientists working in a comparative perspective.

Public Theology: Exploring Expressions of the Christian Faith Bonnie Miriam Jacob, Editor, 2020-09-06. This book is an important step in clarifying the issues that come up when addressing the public square. It is an early effort towards a coherent theological frame for engagement in socio-political issues, this time rooted in the richness of a multi-faith context like that of India. While the church is the primary social context in which the saving power of God is made visible, this book equally insists that it is in the larger arena of what God is doing in the world that the kingdom's historic presence is felt. It is a fitting tribute to a man who has spent much of his life opening up the spaces where the Word is in vital conversation with the larger world.
