## **Sociocultural And Political Aspects Of Abortion Global Perspectives:**

*The Sociocultural and Political Aspects of Abortion* Alaka Basu, 2003-01-30 Seeking to define the ways various cultures view pregnancy miscarriage and abortion this multidisciplinary collection of essays seeks to illustrate how these views influence policy decisions and practices regarding abortion around the world Putting questions of pro life and pro choice aside the contributors provide demographic coverage of the issues involved and contextualize some of the personal realities that underlie the approximately 50 million abortions that are believed to take place yearly worldwide While the political and social climates in which women seek abortions vary from place to place many of the chapters try to understand the moral implications that guide the decision to end a pregnancy from the perspective of the those who seek to do so Focusing primarily on developing nations this important contribution to the literature on abortion provides readers with a careful overview of the different meanings attached to abortion depending on the cultural social and political climate Areas covered include Tanzania Bangladesh West Africa Ghana Romania Russia Mexico and Nigeria General chapters on induced abortion demographic research and abortion policy and social pressures to abort are also included This unique approach to the study of abortion will contribute to a greater understanding of a prominent social issue

*Historical Dictionary of Women in Sub-Saharan Africa* Kathleen Sheldon, 2016-03-04 African women s history is a vast topic that embraces a wide variety of societies in over 50 countries with different geographies social customs religions and historical situations Africa is a predominantly agricultural continent and a major factor in African agriculture is the central role of women as farmers It is estimated that between 65 and 80 percent of African women are engaged in cultivating food for their families and in the past that percentage was likely even higher Thus one common thread across much of the continent is women s daily work in their family plot This second edition of *Historical Dictionary of Women in Sub Saharan Africa* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on individual African women in history politics religion and the arts on important events organizations and publications and on topics important to women in general marriage fertility employment and to African women in particular market women child marriage queen mothers This book is an excellent access point for students researchers and anyone wanting to know more about the Women in Africa

**Critical Issues in Reproductive Health** Andrzej Kulczycki, 2013-08-23 In this book leading academics and practitioners in the field of reproductive health address topics such as contraception abortion sexually transmitted infections maternal and prenatal health sexuality and reproductive rights by examining a number of critical issues in these areas The authors describe new research identify gaps and priorities in policy and practice and illustrate innovative solutions The book further addresses such current imperatives as understanding the social meanings of emergency contraception measuring gender based violence improving reproductive health governance strengthening health systems and services and redressing institutional barriers The book also assesses how reproductive health programs can be

reconfigured to new challenges such as those posed by climate change vulnerable youth in fragile states and risks from new infertility treatments Using a rich and varied set of cases a broad public health and social science perspective and novel methodological approaches this book questions common assumptions illustrates effective solutions and sets out research policy and programmatic agendas for the present and future This is a comprehensive volume which provides a valuable resource to researchers educators practitioners policymakers and students as well as anyone studying or advocating for reproductive health

**The Social Science Encyclopedia** Adam Kuper, Jessica Kuper, 2004-10-14 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society

*Wasted Wombs* Erica van der Sijpt, 2018-03-27 Central to this book are Gbighil women s experiences with different reproductive interruptions miscarriages stillbirths child deaths induced abortions and infertility Rather than consider these events as inherently dissimilar as women do in Western countries the Gbighil women of eastern Cameroon see them all as instances of wasted wombs that leave their reproductive trajectories hanging in the balance The women must navigate this uncertainty while negotiating their social positions aspirations for the future and the current workings of their bodies Providing an intimate look into these processes *Wasted Wombs* shows how Gbighil women constantly shift their interpretations of when a pregnancy starts what it contains and what is lost in case of a reproductive interruption in contrast to Western conceptions of fertility and loss Depending on the context and on their life aspirations be it marriage and motherhood or an educational trajectory and employment or profitable sexual affairs with so called big fish women negotiate and manipulate the meanings and effects of reproductive interruptions Paradoxically they often do so while portraying themselves as powerless *Wasted Wombs* carefully analyzes such tactics in relation to the various social predicaments that emerge around reproductive interruptions as well as the capricious workings of women s physical bodies

**The Oxford Encyclopedia of Women in World History** Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played

throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune women's and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

*Growing Up Global* Institute of Medicine, National Research Council, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Population, Panel on Transitions to Adulthood in Developing Countries, 2005-06-25 The challenges for young people making the transition to adulthood are greater today than ever before Globalization with its power to reach across national boundaries and into the smallest communities carries with it the transformative power of new markets and new technology At the same time globalization brings with it new ideas and lifestyles that can conflict with traditional norms and values And while the economic benefits are potentially enormous the actual course of globalization has not been without its critics who charge that to date the gains have been very unevenly distributed generating a new set of problems associated with rising inequality and social polarization Regardless of how the globalization debate is resolved it is clear that as broad global forces transform the world in which the next generation will live and work the choices that today's young people make or others make on their behalf will facilitate or constrain their success as adults Traditional expectations regarding future employment prospects and life experiences are no longer valid *Growing Up Global* examines how the transition to adulthood is changing in developing countries and what the implications of these changes might be for those responsible for designing youth policies and programs in particular those affecting adolescent reproductive health The report sets forth a framework that identifies criteria for successful transitions in the context of contemporary global changes for five key adult roles adult worker citizen and community participant spouse parent and household manager

**Beyond Choice** Alexander Sanger, 2005-07-06 The world has changed but the pro choice position hasn't Now an internationally renowned pro choice advocate and grandson of Margaret Sanger offers a compelling new basis for keeping abortion legal

[Young People's Lives and Sexual Relationships in Rural Africa](#) Mary Louisa Plummer, Daniel Wight, 2011-08-16 New infections with HIV remain an urgent problem among

young people in Africa but many young Africans pursue sexual relationships with little thought about the epidemic This book examines young people's sexual relationships in a region typical of rural sub-Saharan Africa and investigates why the risk of HIV infection generally was not a salient concern for them It is based on an extraordinarily large and representative qualitative study that was affiliated with an adolescent sexual health intervention trial and included three person years of participant observation conducted by young East Africans in nine Tanzanian villages The book describes typical patterns of sexual relationship formation in adolescence and early adult life the variety of young people's relationships and practices and the contradictory social ideals and expectations that led premarital and extramarital relationships to be concealed Young men's main motivations for sex were pleasure and masculine identity while young women's was to receive money or materials to meet their basic needs such as soap or a daytime meal By their late teens most young people had experienced one time sexual encounters open ended opportunistic relationships and main sometimes semi public partnerships Relationships could involve desire possessiveness and affection but romantic idealization of a partner was rare Many young people expected their partners to be monogamous but themselves had had concurrent relationships by age 20 The practice of hiding premarital sexual relationships from adults often also concealed them from other sexual partners which helped maintain concurrency and inhibited realistic risk perception Understanding of the biology of HIV AIDS was very limited Condoms were rarely used because they were associated with reduced pleasure infection and promiscuity Sexually transmitted infections were common but several factors hindered young people from seeking biomedical treatment for them Many instead relied on tradition

*A Bibliography of Islamic Criminal Law, Supplement* Olaf Köndgen, 2024-07-15 The present work supplements the original volume of *A Bibliography of Islamic Criminal Law* the most extensive bibliography on Islamic criminal law ever compiled Drawing on a multitude of sources online and offline this bibliography covers in its thematic section not only the classical crime categories of *ud d qi* and *ta z r* but also a large number of newly emerging and related fields In a second section dedicated to countries eras and institutions Olaf Köndgen comprehensively covers the historical and modern application of Islamic criminal law in all its forms Unlocking the richness of this sub field of Islamic law also with the help of two detailed indices this innovative reference work is highly relevant for all those researching Islamic law in general and the application of Islamic criminal law over time in particular

*Demography: Analysis and Synthesis, Four Volume Set* Graziella Caselli, Jacques Vallin, Guillaume Wunsch, 2006-01-03 This four volume collection of over 140 original chapters covers virtually everything of interest to demographers sociologists and others Over 100 authors present population subjects in ways that provoke thinking and lead to the creation of new perspectives not just facts and equations to be memorized The articles follow a theory methods applications approach and so offer a kind of one stop shop that is well suited for students and professors who need non technical summaries such as political scientists public affairs specialists and others Unlike shorter handbooks *Demography Analysis and Synthesis* offers a long overdue thorough treatment of the field Choosing the

analytical method that fits the data and the situation requires insights that the authors and editors of *Demography Analysis and Synthesis* have explored and developed This extended examination of demographic tools not only seeks to explain the analytical tools themselves but also the relationships between general population dynamics and their natural economic social political and cultural environments Limiting themselves to human populations only the authors and editors cover subjects that range from the core building blocks of population change fertility mortality and migration to the consequences of demographic changes in the biological and health fields population theories and doctrines observation systems and the teaching of demography The international perspectives brought to these subjects is vital for those who want an unbiased rounded overview of these complex multifaceted subjects Topics to be covered Population Dynamics and the Relationship Between Population Growth and Structure The Determinants of Fertility The Determinants of Mortality The Determinants of Migration Historical and Geographical Determinants of Population The Effects of Population on Health Economics Culture and the Environment Population Policies Data Collection Methods and Teaching about Population Studies All chapters share a common format Each chapter features several cross references to other chapters Tables charts and other non text features are widespread Each chapter contains at least 30 bibliographic citations     Demographic Transition Theory John C. Caldwell, 2007-09-21 This book has a strong theoretical focus and is unique in addressing both mortality and fertility over the full span of human history It examines the demographic transition in the change in the human condition from high mortality and high fertility to low mortality and low fertility It asks if fluctuating populations is a new phenomenon or if there has long been an inherent tendency in Man to maximize survival and to control family size     *Advances in Sociology Research* Jared A. Jaworski, 2006 *Advances in Sociology Research* presents original research results on the leading edge of sociology Each chapter has been carefully selected in an attempt to present substantial advances across a broad spectrum This volume focuses on ageing abortion and leadership     **Regulating Women** Sarah Cooper, 2016-02-17 A number of women s issues serve to create novel policy problems that require creative and sometimes unique regulatory and legal responses This book embarks upon a comparative case study approach to explore UK policymaking in the areas of abortion rape prostitution and pornography in turn Each chapter engages a different institutional perspective to explore the influence of a range of bodies such as the legal system medical profession civil society police force and mass media The analysis reveals a common thread that runs throughout decision making in these areas a constant balancing act between regulation that purports to protect women and regulation that supposedly reflects female liberation with a continual dance between the labels of criminal and victim being performed by policy actors Largely reflective of a dogmatic approach to the status of women it is argued that different institutions retain strongholds over policymaking in these domains prohibiting a joined up approach This has served to perpetuate harmful and negative stereotyping of women s issues and create countless conundrums when the activities of women fall into more than one policy category     *Innovative Applications of Educational Technology Tools in Teaching and*

*Learning* Blessing Foluso Adeoye Ph.D.,2015-10-07 In this digital age technology has become a very vital factor of development in all disciplines Every day new software devices and other technologies are being developed to improve lives in one way or another Technology in its broadest terms could include the collection of tools machinery devices modifications arrangements and procedures used by humans However in the context of Educational Technology as presented in this book it is understood as technologies that have arrived with the Information Revolution i e those associated with computers and Information Communication Technology Examples of such technologies are electronics devices computer video collaborative writing tools social networking and the Internet Innovative applications of technology in the classroom mean more than teaching basic computer skills and software programs in the class It must happen across the disciplines and curriculum in ways that teaching and learning processes can be enhanced It must also support active engagement group participation local and global collaboration and interaction This book presents innovative applications of educational technology tools in teaching and learning across various disciplines

**Sisters in Spirit** Andreana C. Prichard,2017-05-01 In this pioneering study historian Andreana Prichard presents an intimate history of a single mission organization the Universities Mission to Central Africa UMCA told through the rich personal stories of a group of female African lay evangelists Founded by British Anglican missionaries in the 1860s the UMCA worked among refugees from the Indian Ocean slave trade on Zanzibar and among disparate communities on the adjacent Tanzanian mainland Prichard illustrates how the mission s unique theology and the demographics of its

adherents produced cohorts of African Christian women who in the face of linguistic and cultural dissimilarity used the daily performance of a certain set of civilized Christian values and affective relationships to evangelize to new inquirers The UMCA's sisters in spirit ultimately forged a united spiritual community that spanned discontinuous mission stations across Tanzania and Zanzibar incorporated diverse ethnolinguistic communities and transcended generations Focusing on the emotional and personal dimensions of their lives and on the relationships of affective spirituality that grew up among them Prichard tells stories that are vital to our understanding of Tanzanian history the history of religion and Christian missions in Africa the development of cultural nationalisms and the intellectual histories of African women *Transcending Borders* Shannon Stettner, Katrina Ackerman, Kristin Burnett, Travis Hay, 2017-03-27

This multidisciplinary volume investigates different abortion and reproductive practices across time space geography national boundaries and cultures The authors specialize in the reproductive politics of Australia Bolivia Cameroon France German East Africa Ireland Japan Sweden South Africa the United States and Zanzibar with historical focuses on the pre modern era nineteenth and twentieth centuries as well as the present day This timely work complicates the many histories and ongoing politics of abortion by exploring the conditions in which women have been forced to make these life altering decisions **Global Perspectives on Social Issues** Rita James

Simon, Howard Altstein, 2003-01-01 *Global Perspectives on Social Issues* Marriage and Divorce examines the history of marriage and divorce and the role played by both institutions in the lives of citizens around the world using a broad range of detailed information and statistics from twenty five countries Topics such as social restrictions on marriage marriage and sexual identity property transference and child custody are discussed drawing on examples from a wide range of cultures

Contemporary Challenges to Human Rights Law Richard Lang, Jack Clayton Thompson, Claire-Michelle Smyth, 2020-04-30 This collection of essays highlights the many problems and challenges facing human rights law today Bringing together academics practitioners and NGOs it examines some of the contemporary challenges facing human rights law and practice in England Northern Ireland the Republic of Ireland France and America It is clear that we live in a time where human rights are in crisis A decade of austerity measures at the domestic regional and international levels evidently has had a detrimental effect on the protection of human rights Cuts to social spending have resulted a failing social welfare system a health service buckling under pressure unprecedented rises in homelessness and child poverty and the emergence of the working poor and zero hours contracts Austerity famine civil war oppressive governmental regimes and climate change have seen vast migrations resulting in a resurrection of far right wing ideology In the UK this is seen in what can only be described as propaganda and scaremongering during the campaign for Brexit and in subsequent political elections evidenced by the increase in racially motivated hate crime within the UK The landscape of human rights is such that it has resulted in some beginning to question are human rights rights at all
