Systematic Theology Paul Tillich, 2024-05-31 In this volume the third and last of his Systematic Theology Paul Tillich sets forth his ideas of the meaning of human life the doctrine of the Spirit and the church the trinitarian symbols the relation of history to the Kingdom of God and the eschatological symbols He handles this subject matter with powerful conceptual ability and intellectual grace The problem of life is ambiguity Every process of life has its contrast within itself thus driving man to the quest for unambiguous life or life under the impact of the Spiritual Presence The Spiritual Presence conquers the

negativities of religion culture and morality and the symbols anticipating Eternal Life present the answer to the problem of life

**Annual Review of the Sociology of Religion** Patrick Michel, Enzo Pace, 2011-08-25 The main goal of the second issue of the Annual Review of the Sociology of Religion devoted entirely to religion and politics is precisely to question the sense of a reconstruction of the mutual and simultaneous relations between these two spheres of social life What does this process mean and where is it taking us

**Annual Review of the Sociology of Religion. Volume 2 (2011)** Patrick Michel, Enzo Pace, 2011-08-26 Over the past thirty years religion has increasingly played a relevant role both on a national level and in international affairs The attempt made by politicians to reframe the policy of social cohesion in a neo nationalist light one land one language one religion one political community demising any kind of multiculturalism facilitating instead a return to assimilation shaped by fear of the other culture religion language and so on is very often associated with a restoration of the primacy of religious discourse in the public sphere It is not just a return of religion in the public sphere but the exploitation of religion by politics to reconstruct a social cohesion in the absence of ideological resources

Social Capitalism in Theory and Practice: Emergence of the new majority Robert Corfe, 2008 The opening volume in a trilogy describes the new heterogeneous middle middle majority who have climbed from proletarian origins as well as those from the upper middle classes whose confidence and affluence have been broken on the wheel of egalitarian forces

*Minority Rights and Social Change* Kyriaki Topidi, Eugenia Relaño Pastor, 2024-09-19 Minority movements tirelessly continue to engage in the process of social change trying to promote and enforce minority protection norms and to have their world views cultural practices and norms recognized by the state Through an examination of selected cases this book problematizes how collective identities are not structurally guaranteed but rather constructed in dialectically interrelated positions and identity layers The authors show the kind of impact that these processes can or fail to have on minority norms actors and strategies Going beyond abstract normative principles this collection reflects both Global North as well as Global South perspectives and examines through a variety of angles the role that race and ethnicity culture or religion play within social mobilization towards social change The volume offers global insight on actor and strategy attempts to foster social change through the instrumental use and interpretation of minority rights as norms This book will be of interest to those researching minority rights broadly understood within the disciplines of law anthropology sociology and political science

**Marx and**

**the Politics of Abstraction** Paul Paolucci, 2011-03-05 Many scholars see science and politics as mutually exclusive realms where the latter's influence contaminates former's purity Karl Marx's critics often interpret him within this framework where his value laden judgments render his analysis of capitalism moot Though defenders argue that Marx rejects an objective subjective dichotomy this book offers a different interpretation Through the method of critique Marx examines problems and biases in putatively neutral forms of scientific knowledge specifically models that fail to capture the relations of power and knowledge dominant in capitalist society By incorporating these relations into his abstractions and tracing their historical movement Marx's corrective to malformed approaches to scientific knowledge more readily lays bare capitalist society's exploitative and distortive nature This book demonstrates these principles and applies them to conventional sociological methods theories of religion and class analysis

**Speaking of Jews** Lila Corwin Berman, 2009-03-10 Lila Corwin Berman asks why over the course of the twentieth century American Jews became increasingly fascinated even obsessed with explaining themselves to their non Jewish neighbors What she discovers is that language itself became a crucial tool for Jewish group survival and integration into American life Berman investigates a wide range of sources radio and television broadcasts bestselling books sociological studies debates about Jewish marriage and intermarriage Jewish missionary work and more to reveal how rabbis intellectuals and others created a seemingly endless array of explanations about why Jews were indispensable to American life Even as the content of these explanations developed and shifted over time the very project of self explanation would become a core element of Jewishness in the twentieth century
