Higher Education

, 2023-11-02 COVID wrought havoc on the world's economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required

transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic

Handbook of College and University Teaching James E. Groccia, Mohammed A. T. Alsudairi, William Buskist, 2012-01-17

Enhance your teaching style with James E. Groccia's systemic and insightful seven-variable model using a truly international perspective. The need to understand learning and teaching from multiple cultural perspectives has become critically important in educating the next generation of college students. Using a unique global view, this comprehensive volume presents international perspectives on critical issues impacting teaching and learning in diverse higher education environments. Education experts from around the world share their perspectives on college and university teaching, identifying international differences and similarities. The chapters are organized around a model developed by James E. Groccia which focuses on seven interrelated variables that must be explored to develop a full perspective of college and university teaching and learning. These interrelated variables include teacher, learner, learning process, learning context, course content, instructional processes, and learning outcomes. Using this logical model, the contributors provide readers with a guide for systemic thinking about how to improve teaching and learning, curriculum development, and assessment.
